To ensure the implementation of the PCREs, the applicant will enter into a Restrictive Declaration at the time of the approval of land use-related actions and prior to issuance of any permits. The proposed project as analyzed in the FEIS identified significant adverse impacts with respect to transportation (pedestrians, street user safety) and construction (noise) and to ensure the implementation of the mitigation measures identified in the FEIS, they are included in the Restrictive Declaration.

RESOLVED:

Having considered the FEIS with respect to the Decision and Application, the Council finds that:

- (1) The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;
- (2) The environmental impacts disclosed in the FEIS were evaluated in relation to the social, economic, and other considerations associated with the action[s] that are set forth in this report; and
- (3) Consistent with social, economic and other essential considerations from among the reasonable alternatives available, the action is one which avoids or minimizes adverse environmental impacts to the maximum extent practicable; and
- (4) The adverse environmental impacts identified in the FEIS will be minimized or avoided to the

maximum extent practicable by incorporating as conditions to the approval, pursuant to the restrictive declaration dated November 15, 2021, those project components related to the environment and mitigation measures that were identified as practicable.

The Decision, together with the FEIS constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).
