A Local Law to amend the administrative code of the city of New York, in relation to the recovery of refrigerants from appliances.

Be it enacted by the Council as follows:

Section 1. Title 16 of the administrative code of the city of New York is amended by adding a new chapter 4-E to read as follows:

<u>CHAPTER 4-E</u> RECOVERY OF REFRIGERANTS

- § 16-480 Definitions.
- § 16-481 Original equipment manufacturer responsibility for recovery.
- § 16-482 Department refrigerant recovery program.
- § 16-483 Improper disposal of appliances.
- § 16-484 Enforcement.
- § 16-485 Rulemaking authority.
- § 16-486 Severability.

§16-480 Definitions. As used in this chapter:

"Appliance" means any device that contains refrigerants and can be used for household purposes including, but not limited to, room air conditioners, refrigerators, water coolers, or freezers.

"Original equipment manufacturer" means (1) a person or entity whose brand name appears on an appliance sold, offered for sale or distributed in the city or (2) a person or entity who manufacturers or has manufactured an appliance sold, offered for sale or distributed in the city.

"Recover" or "recovery" means to remove refrigerants from an appliance in such a way that the refrigerants are not released into the atmosphere pursuant to subpart F of part 82 of title 40 of the code of federal regulations.

"Refrigerants" means any substances consisting in whole or in part of a class I or class II ozone-depleting substance, which are used for heat transfer purposes and provide a cooling effect, including, but not limited, to chlorofluorocarbons, hydro-chlorofluorocarbons, or any other substitute substance as may be defined by the United States environmental protection agency. A class I or class II ozone-depleting substance shall be those substances as defined by the United States environmental protection agency in section 602 of the United States clean air act. A "substitute substance" shall be any environmental protection agency approved

replacement for a class I or II ozone-depleting substance in a refrigeration or air-conditioning end-use.

"Residential generator" means any person, entity, agency, or institution in the city of New York that receives solid waste or recycling collection service from the department.

"Room air conditioner" means any electrical appliance that has a compressor, a condenser, an evaporator and a fan to cool and dehumidify the surrounding air and that is capable in ordinary usage of being mounted in a window or through a wall.

"Serviced by the department" means the recovery of refrigerants by the department from appliances that are set out for department collection in the city of New York.

§16-481 Original equipment manufacturer responsibility for recovery. a. On and after July first, two thousand fourteen, original equipment manufacturers shall be responsible for the lawful recovery of refrigerants from their appliances that are disposed of by residential generators.

b. An original equipment manufacturer may elect to (i) establish its own refrigerant recovery program, (ii) participate with other original equipment manufacturers in a refrigerant recovery program, or (iii) have its appliances serviced by the department in the refrigerant recovery program provided pursuant to section 16-482 of this chapter. No program established pursuant to paragraph one or two of this subdivision may include curbside collection of appliances.

§16-482 Department refrigerant recovery program. a. The department shall provide a program for the recovery of refrigerants from appliances that are set out for department collection in the city of New York.

b. The department shall establish, by rule, a fee for the recovery of refrigerants from appliances that are set out for department collection in the city of New York.

c. An original equipment manufacturer whose appliance is serviced by the department shall be billed by the department and shall be responsible for the payment of the fee established by the department for the recovery of refrigerants.

§16-483 Improper disposal of appliances. No original equipment manufacturer or its agent shall dispose

File #: Int 0894-2012, Version: A

of an appliance as solid waste in the city unless arrangements have been made for the lawful recovery of

refrigerants.

§16-484 Enforcement. a. The department shall have the authority to enforce the provisions of this

chapter.

b. Any original equipment manufacturer or agent of such manufacturer who violates section 16-483 of

this chapter shall be liable for a civil penalty of five hundred dollars for each violation.

§16-485 Rulemaking authority. The department shall be authorized to promulgate such rules as are

necessary to implement the provisions of this chapter, including but not limited to rules relating to reporting by

original equipment manufacturers and registration with the department by such manufacturers, which

registration may require the submission of information related to such manufacturers' refrigerant recovery

programs, if any, and establishing penalties for violations of such rules.

§16-486 Severability. If any provision of this local law shall be adjudged to be unconstitutional or

invalid, such judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its

operation to the provision directly involved in the controversy in which such judgment shall have been

rendered.

§ 2. This local law shall take effect one hundred eighty days after enactment, except that the

commissioner of sanitation shall take such actions as are necessary for its implementation, including

promulgation of rules, prior to such effective date.
