Int. No. 33

By Council Members Gennaro, Louis, Yeger, Restler, Stevens, Gutiérrez, Hudson, Hanif, Sanchez, Avilés and Brewer

A Local Law to amend the administrative code of the city of New York, in relation to notification of discolored water or reduction of water pressure

Be it enacted by the Council as follows:

Section 1. Subchapter 4 of chapter 3 of title 24 of the administrative code of the city of New York is amended by adding a new section 24-370 to read as follows:

§ 24-370 Notification of discolored water or reduction of water pressure. a. Except as provided herein, the department shall notify via electronic mail all relevant community boards and all district offices of relevant council members at least 48 hours prior to the undertaking of any work by the department or at the request of the department which the department reasonably knows could lead to discolored water, or the reduction or loss of water pressure at water faucets within such district.

b. The notice requirements of subdivision a of this section shall not apply in situations where such work

must proceed due to an imminent risk to public health or public safety. In such cases, where such 48-hour notice is not given, the department shall within five days of the conclusion of such work inform via electronic mail all such relevant community boards and district offices of relevant council members of the reason that the notice was not provided.

§ 2. This local law takes effect immediately.
