FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY: This proposed legislation would eliminate the existing World Trade Center (WTC) verification requirement for Tier 1 and Tier 2 POLICE members and provide eligibility for WTC benefits to all members who timely file a Notice of Participation.

Employer contribution impact beyond Fiscal Year 2050 is not shown.

Costs could vary greatly depending on
the number of future members who benefit
and on their length of service, age, and salary history.

The potential increases in employer contributions will be allocated to New York City.

PRESENT VALUE OF BENEFITS: The Present Value of Benefits is the discounted expected value of benefits paid to current members if all assumptions are met, including future service accrual and pay increases. Future new hires are not included in this present value.

INITIAL INCREASE (DECREASE) IN ACTUARIAL PRESENT VALUES
as of June 30, 2024 (\$ in Thousands)

Present Value (PV)	Per Disability	Per Death

(2) PV of Employee Contributions:	<u>0</u>	<u>0</u>
Total PV of Benefits (1) + (2):	598	2,297

UNFUNDED ACCRUED LIABILITY (UAL): Actuarial Accrued Liabilities are the portion of the Present Value of Benefits allocated to past service. Changes in UAL per incident would be recognized as ongoing gain/loss.

Recognized as Ongoing Gain/Loss	Per Disability	Per Death
Increase (Decrease) in UAL:	598 K	2,297 K
Number of Payments:	14	14
Amortization Payment:	71 K	272 K

CENSUS DATA: The number of members who will benefit in the future from the verification removal provided in this proposed legislation is unknown. Of the 31,945 Notices of Participation submitted to POLICE, only 1,940 have been verified so far. There are currently approximately 50 known cases where WTC disability benefits were approved medically, but did not meet WTC verification requirements.

The estimates presented herein are based on preliminary census data collected as of June 30, 2024. The census data for the population used to develop the average costs is summarized below.

POLICE

Active Members	
- Number Count:	1,760
- Average Age:	52.6

- Average Service:	27.5
- Average Salary:	185,600
Receiving Members (within 25 years of retirement)	
- Number Count:	23,277
- Average Age:	55.1

IMPACT ON MEMBER BENEFITS: Currently, Tier 1 and Tier 2 New York City Police Pension Fund (POLICE) members who file a WTC Notice of Participation must also provide information about their participation in WTC rescue, recovery or clean-up operations, which is reviewed and verified, before becoming eligible for WTC benefits.

Under the proposed legislation, the verification process would no longer be required. Instead, all members who filed a timely WTC Notice of Participation, irrespective of duties performed during the applicable period, would be granted a presumption that they have met the requirements of WTC participation.

For purposes of this Fiscal Note, an incident represents a member whose WTC participation would be unverifiable and therefore benefits from this proposed legislation upon disability or death.

The current deadline to file a WTC Notice of Participation is September 11, 2026. Additional costs for future members who may file a Notice of Participation if this proposed legislation were to be passed are not included in this Fiscal Note.

The right of a vested member to file for WTC disability benefits may be inadvertently deleted from the law and would, under the proposed legislation, require retirement as eligibility for WTC benefits. This may warrant consideration under the New York State Constitution.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems.

The cost of this proposed legislation could vary greatly depending on the number of future members who benefit and on their length of service, age, and salary history. The estimated financial impact for active members who become disabled has been calculated assuming 50% would have retired under an ordinary disability benefit, and 50% would have continued working if the proposed legislation were not passed.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population, and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits). This Fiscal Note does not reflect any chapter laws that may have been enacted during the current legislative session.
