

Oppose Int. 1918, Int. 1923, no more business regulations!

Dear Hearings,

As you know, restaurants and bars take-out/delivery operations are considered essential businesses. Before the pandemic, restaurants and bars ran on very thin margins even when dine-in, delivery, catering, take-out services were running normally. During this pandemic, revenues have plunged and delivery/take-out services will not sustain any business for too long. Please do not support this legislation as they will put too much financial strain on my business and create tons of new complications and liability. NYC's restaurant and nightlife industry has been decimated and now is NOT the time for new costly legislation.

I implore you to oppose Int. 1918 and Int. 1923!

Thank you for your consideration and support of neighborhood businesses during the crisis.

Sincerely,

Dear Hearings,

As you know, restaurants and bars take-out/delivery operations are considered essential businesses. Before the pandemic, restaurants and bars ran on very thin margins even when dine-in, delivery, catering, take-out services were running normally. During this pandemic, revenues have plunged and delivery/take-out services will not sustain any business for too long. Please do not support this legislation as they will put too much financial strain on my business and create tons of new complications and liability. NYC's restaurant and nightlife industry has been decimated and now is NOT the time for new costly legislation.

I implore you to oppose Int. 1918 and Int. 1923!

Thank you for your consideration and support of neighborhood businesses during the crisis.

Sincerely,

Carlos A. Suarez

Letter of Opposition to Int. 1923

Dear Speaker Johnson,

I would like to follow up on my previous email in support of certain legislation, and to now strongly OPPOSE [Int. 1923](#). This bill would prohibit employers from discharging an essential employee without just cause.

Small bars and restaurants can only currently operate with very strict guidelines. Only ONE person / employee is currently allowed on the premise to conduct to-go orders. How are we supposed to maintain our entire staff at this time?? Furthermore, once we are granted the right to return to work, we will be forced to operate at a very limited capacity. How can we possibly maintain our entire staff? It's just not possible. The walls are closing in for bars and restaurants. And nobody seems to care. There is no meaningful action. There are only meager attempts to help the situation, and now, I see there are even attempts to make it worse.

I strongly urge you to exclude bars and restaurants from this bill.

Sincerely,

Kaarin Von Herrlich

Dear Hearings,

As you know, restaurants and bars take-out/delivery operations are considered essential businesses. Before the pandemic, restaurants and bars ran on very thin margins even when dine-in, delivery, catering, take-out services were running normally. During this pandemic, revenues have plunged and delivery/take-out services will not sustain any business for too long. Please do not support this legislation as they will put too much financial strain on my business and create tons of new complications and liability. NYC's restaurant and nightlife industry has been decimated and now is NOT the time for new costly legislation.

I implore you to oppose Int. 1918 and Int. 1923!

Thank you for your consideration and support of neighborhood businesses during the crisis.

Sincerely,

Danikkah Josan

Oppose Int. 1918, Int. 1923, no more business regulations!

Dear Hearings,

As you know, restaurants and bars take-out/delivery operations are considered essential businesses. Before the pandemic, restaurants and bars ran on very thin margins even when dine-in, delivery, catering, take-out services were running normally. During this pandemic, revenues have plunged and delivery/take-out services will not sustain any business for too long. Please do not support this legislation as they will put too much financial strain on my business and create tons of new complications and liability. NYC's restaurant and nightlife industry has been decimated and now is NOT the time for new costly legislation.

I implore you to oppose Int. 1918 and Int. 1923!

Thank you for your consideration and support of neighborhood businesses during the crisis.

Sincerely,

Brian Owens
