- Average Salary:	82,600

IMPACT ON MEMBER BENEFITS AND CONTRIBUTIONS: Under the proposed legislation, the Overtime Ceiling would become inapplicable to participants in the Tier 6 55/25 NYCTA Plan. As a result, overtime earnings exceeding the Overtime Ceiling would be included in determining member contribution rates and annual contributions to be paid by the member. Participants may be entitled to a higher annual pension benefit if such earnings increase their Final Average Salary.

ASSUMPTIONS AND METHODS: The estimates presented herein have been calculated based on the Revised 2021 Actuarial Assumptions and Methods of the impacted retirement systems. In addition:

* Future overtime earnings exceeding the Overtime Ceiling were assumed to remain level based on reported overtime for the last three fiscal years.

* New entrants were assumed to replace exiting members so that total payroll increases by 3% each year for NYC Transit members. New entrant

demographics were developed based on data for recent new hires and actuarial judgement.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the actuarial assumptions, methods, and models used, demographics of the impacted population and other factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Quantifying these risks is beyond the scope of this Fiscal Note.

This Fiscal Note is intended to measure pension-related impacts and does not include other potential costs (e.g., administrative and Other Postemployment Benefits).

STATEMENT OF ACTUARIAL OPINION: Marek Tyszkiewicz and Gregory Zelikovsky are members of the Society of Actuaries and the American Academy of Actuaries. We are members of NYCERS but do not believe it impairs our objectivity and we meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein. To the best of our knowledge, the results contained herein have been prepared in accordance with generally accepted actuarial principles and procedures and with the Actuarial Standards of Practice issued by the Actuarial Standards Board.
