Department of Health and Mental Hygiene - Public Health Budget Overview

The Preliminary Financial Plan for Fiscal 2025-2029 (Preliminary Plan) includes a proposed Fiscal 2026 budget of \$2.1 billion for the Department of Health and Mental Hygiene (DOHMH or Department), representing 1.8 percent of the City’s proposed \$114.5 billion Fiscal 2026 budget in the Preliminary Plan. DOHMH’s budget is divided into three main program areas: Public Health, Mental Health, and Office of the Chief Medical Examiner. This report will focus on Public Health, which has a proposed Fiscal 2026 budget of \$1.3 billion, accounting for 60.9 percent of DOHMH’s total budget.

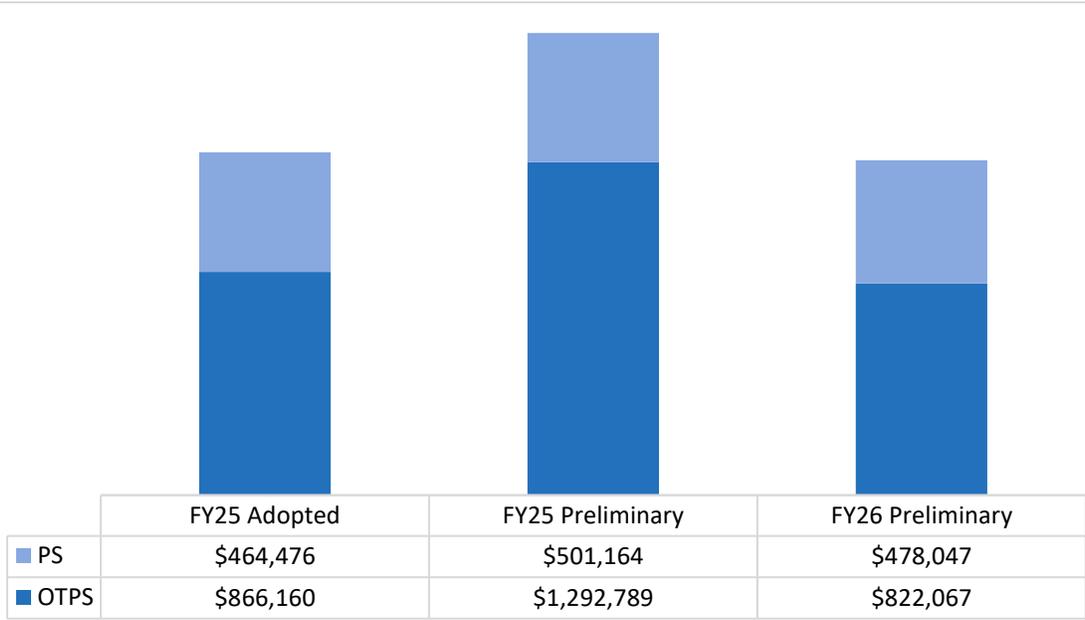

The Public Health Fiscal 2026 budget in the Preliminary Plan is \$12 million (0.9 percent) greater than its \$1.3 billion Fiscal 2026 budget in the November Financial Plan. The Fiscal 2026 Preliminary Budget is \$30.5 million less than the Fiscal 2025 Adopted Budget, as shown in the table.

FY26 Changes in Preliminary Plan:
Total: \$12 million
New Needs: \$0

Significant Preliminary Plan Changes

New Needs

- **School-based Health Clinics.** The Preliminary Plan includes a net increase of \$60.1 million in Fiscal 2025 only. This includes an increase of \$96.2 million in City funding and a reduction of \$36.1 million in State funds, for nurse staffing needs in school health settings. In State Fiscal 2014, Article VI funding became ineligible for school health services, the additional funding will backfill services provided across the City primarily for contract nurses.
- **Early Intervention.** The Preliminary Plan includes an additional \$55.1 million of City funds in Fiscal 2025 only for the Early Intervention program, which provides special

Other Adjustments: \$12 million

needs educational services for children with developmental delays. Of this funding \$19.6 million is for salaries and fringe benefits.

Other Adjustments

- **Ryan White HIV/AIDS Program.** The Preliminary Plan includes an additional \$6.6 million of federal funds in Fiscal 2025 only for the Ryan White program, which supports HIV-related care and case management. DOHMH was granted both part A funding, which is allocated to large municipalities, and part B funding, which is for States and territories.
- **Asylum Seeker Services.** The Preliminary Plan includes an additional \$4.8 million of City funds in Fiscal 2025 only to provide medical support to asylum seekers. The funding is contracted through the Department of Homeless Services (DHS) and will be used for vaccinations, tuberculosis testing, x-rays, and medical translation services.
- **Nurse Family Partnership.** The Preliminary Plan includes additional Intra-City funds of \$3 million in Fiscal 2025 only for the Nurse Family Partnership, which connects nurses with first-time and low-income mothers. In addition, the Plan includes a transfer of \$1.1 million in Fiscal 2025 only from DOHMH to the Administrative of Children Services (ACS) to provide services.
- **Epidemiology and Laboratory Capacity.** The Preliminary Plan includes an additional \$2.7 million of federal funds in Fiscal 2025, \$5 million in Fiscal 2026, and \$663,958 baselined starting in Fiscal 2027 to strengthen the laboratory capacity for DOHMH's epidemiology unit.
- **Doctors Council Collective Bargaining.** The Preliminary Plan includes an additional \$2.1 million of City funds in Fiscal 2025 and \$2.3 million baselined starting in Fiscal 2026 for the costs related to collective bargaining agreements with the Doctors Council union.

Preliminary Mayor's Management Report

DOHMH protects and promotes the health and well-being of all New Yorkers and engages with communities to develop and implement robust public health programming and policy recommendations, enforces health regulations, responds to public health emergencies, and provides limited direct health services. DOHMH also serves as the lead agency for design and oversight of citywide population health strategies, largely through its HealthyNYC initiative, by driving policy and programming that address the leading drivers contributing to reduced life expectancy, along with the extreme racial inequities that disproportionately affect communities of color, especially black New Yorkers.

The Preliminary Mayor's Management Report (PMMR) for Fiscal 2025 reports on five service areas and 11 goals for DOHMH. Four of the five services in the PMMR are centered on public healthcare, including the management of infectious diseases, prevention of chronic diseases, promotion of a safe environment, and provision of timely services. As of the Preliminary Plan, the Fiscal 2026 budget for disease prevention and treatment is \$258.5 million, the budget for environmental health is \$138.1 million, and the budget for the center of health equity and common wellness is \$86.4 million.

Noteworthy metrics that were reported are detailed below. Several of the indicators in the PMMR are reported for the Calendar Year instead of the Fiscal Year as of the Fiscal 2024 Mayor's Management Report. As a result of this change, these indicators do not have four-month actual figures for Fiscal 2025.

- **New HIV Diagnoses (Calendar Year).** In 2024, there were 1,686 new HIV diagnoses, an increase of 7.6 percent compared to the 1,567 new diagnoses in 2023. The increase in diagnoses is due to increased sexually transmitted infections (STI) testing after the COVID-19 pandemic. HIV diagnoses differ from new HIV infections, as infections are defined as cases in which people acquire HIV, while diagnoses are defined as cases in which people are diagnosed with HIV, including instances where the individual could have contracted HIV several years prior. The PMMR notes that the number of new HIV infections decreased by 16.7 percent in 2024 when compared to 2023, from 1,347 new infections to 1,122 infections.
- **Immunization.** The percentage of children in public schools who comply with required immunizations has increased by 1.8 percent in the first four months of Fiscal 2025 compared to the same period in Fiscal 2024, from 90.9 percent to 92.7 percent. However, the number of children between 19 and 35 months with up-to-date immunizations has decreased by 4.1 percent when compared to the same period in the prior year, from 61.5 percent to 57.4 percent.
- **Pest Control Inspections.** The number of initial pest control inspections increased by 16.7 percent in the first four months of Fiscal 2025 compared to the same period in Fiscal 2024, from 48,000 inspections to 56,000 thousand inspections. In addition, the percentage of initial inspections with active rat signs decreased by 3 percent when compared to the same period in the prior year, from 24.9 percent to 21.9 percent. Both the increase in inspections and the decrease in rat activity is due to DOHMH's focus on increasing rat inspections in neighborhoods outside of high-activity rat-mitigation zones, as well as efforts to promote rat management practices citywide.

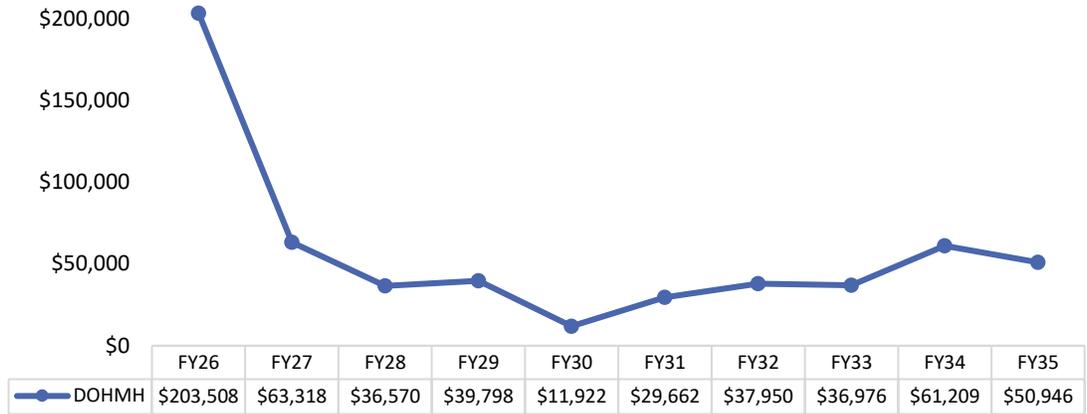

Recommended Metrics

- **New Cases of Type 1 and Type 2 Diabetes.** The PMMR should indicate the number of new Type 1 and Type 2 diabetes cases in the City. There are currently two indicators related to diabetes in the PMMR, one related to diabetes management and one for the percent of H+H patients diagnosed with diabetes that have controlled blood sugars. However, DOHMH does not include information in the PMMR on how new cases of diabetes have increased or decreased over the years.
- **Insulin Accessibility.** The PMMR should indicate the amount of New Yorkers that struggle to obtain insulin, whether it is related to accessibility, cost, or lack of insurance. Many New Yorkers struggle to obtain the necessary insulin, which is a major issue in diabetes management.
- **Emergency Room Admissions.** The PMMR should indicate the number of diabetes patients that are admitted to the emergency room as a result of organ failure. Organ failure and other emergency room visits due to diabetes occur when diabetes becomes more difficult to manage.

<p>Budget Issues and Concerns</p>	<ul style="list-style-type: none"> • Maternal Health Funding. Since Fiscal 2024 there have been multiple reductions in the Maternal Health program area budget. Between November 2023 and June 2024, the Maternal Health program area’s budget was reduced by \$7.1 million in Fiscal 2024, \$8.6 million in Fiscal 2025, \$8 million in Fiscals 2026-2027, and \$3.2 million in Fiscal 2028. The most impacted programs are Universal Home Visiting, Maternity Infant and Maternity Infant Reproduction, which provide supportive services to new mothers. Maternal health is a priority of the Council, and reductions in maternal health funding can severely impact maternal mortality levels. • Bird Flu Epidemic. On February 7th, 2025, live bird markets in the City were temporarily closed after traces of H5N1 (bird flu) were detected in markets in Queens, Brooklyn, and the Bronx. Bird flu is a disease that spreads across poultry and water birds, with the disease being particularly lethal in poultry. While the risk of infection to the public is low, the potential for infection is higher among people that work with birds. In addition, bird flu can also spread to cattle and cats. Bird flu has impacted both the cost and accessibility of poultry and eggs in the City. Due to the novelty of the epidemic, the Plan does not have additional funding to combat it. Because of its potential to spread to a greater number of people and the impact it has already had on both poultry and livestock it is important that the City not ignore this potential outbreak.
<p>Federal and State Budget Risks</p>	<ul style="list-style-type: none"> • Article VI State Match. The New York State Fiscal 2025 Executive Budget does not include funding to increase the reimbursement rate for the Article VI Public Health General Works Fund. The reimbursement rate for all counties outside of New York City is 36 percent. The City’s was lowered to 20 percent in State Fiscal Year 2019. This reduction directly impacts community-based organizations and the health services they provide. • Federal Funding Reductions. On January 27, 2025, the Trump administration issued a directive to pause federal loan and grant spending. This directive was rescinded two days later, but an executive order issued by the President to review funding remains in effect. The outcome of the executive order is currently uncertain. DOHMH was allocated \$254.3 million in federal grants for Fiscal 2026 in DOHMH’s Public Health budget, with the Disease Prevention and Treatment for HIV sub-program area for \$145.8 million for Fiscal 2026.

**Capital
Plan
Overview**

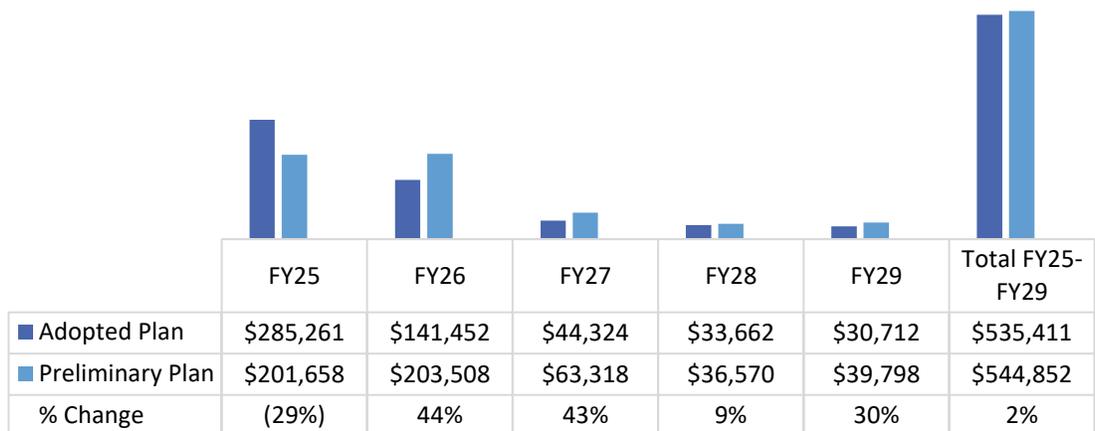

On January 16, 2025, Mayor Eric Adams released the Preliminary Capital Commitment Plan for Fiscal 2025-2029 (the Preliminary Commitment Plan). This report will discuss the total Capital Commitment Plan for DOHMH and OCME combined.

DOHMH's commitments for Fiscal 2025 through 2029, as presented in the Preliminary Commitment Plan, total \$539 million, one percent greater than the total for the same period presented in the Preliminary Capital Commitment Plan released in January.

The Department's planned commitments comprise less than half a percent of the City's total \$110.1 billion Fiscal 2025 through 2029 Plan.

**Preliminary
Capital
Commitment Plan
Highlights**

- **Public Health Laboratory Building Construction.** The Fiscal 2025-2029 Capital Commitment Plan includes \$43.8 million in Fiscal 2025 and \$42.6 million in Fiscal 2026 for the construction of the Public Health Laboratory. The laboratory will replace the older existing laboratory, and construction is estimated to be completed by 2026.
- **Network Server Replacement.** The Capital Commitment Plan includes \$18.1 million in Fiscal 2025, \$3 million in Fiscal 2026, \$1.9 million in Fiscal 2027, and \$11 million in Fiscal 2029 to replace a network server.
- **Public Health Laboratory Initial Outfitting.** The Capital Commitment Plan includes \$31.3 million in Fiscal 2025 for the initial outfitting of the Public Health Laboratory.
- **Morrisania Health Center.** The Capital Commitment Plan includes \$10.2 million in Fiscal 2026 for interior renovation in Morrisania Health Center.
- **Washington Heights Health Center.** The Capital Commitment Plan includes \$1.9 million in Fiscal 2025 and \$16.7 million in Fiscal 2026 to renovate the facade at Washington Heights Health Center.
- **Salesforce.** The Capital Commitment Plan includes \$7 million in Fiscal 2026 and \$8 million in Fiscal 2029 for cloud-based subscription licenses and professional services.
- **PC Replacement.** The Capital Commitment Plan includes \$2.9 million in Fiscal 2025, \$3.6 million in Fiscal 2027, \$3.1 million in Fiscal 2028, and \$2.6 million for Fiscal 2029 to replace a PC and implement new software.
- **Information Security.** The Capital Commitment Plan includes \$6.8 million in Fiscal 2026 and \$4 million in Fiscal 2029 for information security services.
