Resolution approving an amendment to a previously approved real property tax exemption pursuant to Section 125(1)(a) of the Private Housing Finance Law for property located at (Block 1672, Lot 1), Manhattan (Preconsidered L.U. No. 127).

By Council Member Brannan.

WHEREAS, the New York City Department of Housing Preservation and Development (“HPD”) submitted to the Council its request dated August 6, 2024 that the Council amend a previously approved tax exemption for real property located at (Block 1672, Lot 1), Manhattan (“Exemption Area”) pursuant to Section 125(1)(a) of the Private Housing Finance Law;

WHEREAS, the HPD’s request for amendments is related to a previously approved Board of Estimate Resolution adopted on September 15, 1983 (Cal. No. 8) (the “Prior Resolution”), granting the Exemption Area a real property tax exemption pursuant to Section 125(1)(a) of the Private Housing Finance Law;

WHEREAS, the Council has considered the financial implications relating to the Tax Exemption;

RESOLVED:

The Council approves the amendments to the Prior Resolution requested by HPD for the Exemption Area pursuant to Section 125(1)(a) of the Private Housing Finance Law as follows:

Paragraph 2 of the Prior Resolution is deleted in its entirety and replaced with the following:

2. That the Board of Estimate, pursuant to subdivision 1(a) of Section 125 of the PHFL does hereby approve the exemption from local and municipal taxes, other than assessments for local improvements, of all of the value of the property included in the Project (excluding, however, those portions, if any, authorized to be used for business and commercial purposes), provided that the amount of such taxes to be paid shall be as follows: (a) for all tax years prior to July 1, 2024, in the annual aggregate amount of \$30,398 representing the Minimum Annual Ten Percent of Shelter Rent taxes for the residential portion of the Project, plus an additional amount after the tax exemption first becomes effective, which additional amount shall equal 25% of the amount by which the Contract Rent applicable to the Project annually exceeds the Contract Rent in effect as of the date of occupancy of the Project by eligible tenants, and (b) for the period commencing upon July 1, 2024 and terminating on March 27, 2025, in the sum of \$365,488, provided, however, that the Housing Company enters into a new regulatory agreement with HPD on or after August 1, 2024 establishing certain controls upon the operation of the Project. Contract Rent is defined in the HUD regulations promulgated pursuant to Section 8 of the United States Housing Act of 1937, as amended or supplemented. However, total annual real estate taxes for the residential portion of the Project shall not, at any time, exceed the lesser of either 17 percent of the Contract Rent for that year or the amount of local and municipal property taxes that would be due in the absence of any form of tax exemption or abatement provided for by existing or future local law or state legislation.

The exemption granted herein shall operate and continue for so long as a federally aided and/or assisted mortgage is outstanding, but in no event for a period of more than forty (40) years, commencing on the date on which the benefits of such exemption first become available and effective; provided further that, in any given fiscal year where the amount of real estate taxes which would be payable by applying the then current City real property tax rate against the assessed valuation of the real property (both land and improvements) acquired for the Project by the Redevelopment Company, as such assessed valuation was fixed at the time of such acquisition, exceeds the amount which would be payable as minimum shelter rent taxes (as the same may be increased), the Redevelopment Company shall, in accordance with subdivision 1(a) of Section 125 of the Private Housing Finance Law, pay such higher amount.

The tax exemption shall first become available and effective on July 1, 1985

Except as specifically amended above, all other terms, conditions, provisions and requirements of the Prior Resolution remain in full force and effect.

Report of the Committee on General Welfare

Report for Int. No. 123-A

Report of the Committee on General Welfare in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to prohibiting the department of homeless services from requiring a child's presence in person at an intake facility when a family with children applies for shelter.

The Committee on General Welfare, to which the annexed proposed amended local law was referred on February 28, 2024 (Minutes, page 409), respectfully

REPORTS:**I. Introduction**

On August 16, 2024, the Committee on General Welfare, chaired by Deputy Speaker Diana Ayala, will consider Proposed Introduction Number (Int. No.) 123-A, sponsored by Deputy Speaker Diana Ayala and Proposed Introduction Number (Int. No.) 460-A, sponsored by Council Member Sandra Ung. The Committee previously held a hearing on Int. No. 123-A and Int. No. 460-A on June 11, 2024, where the Committee received testimony from the Department of Social Services and various advocacy organizations.

II. Bill Analysis**Proposed Int. No. 123-A**

Families with children experiencing a housing crisis and seeking shelter in a Department of Homeless Services (DHS) facility must apply at a Prevention Assistance and Temporary Housing (PATH) intake facility. Currently, according to the DHS PATH brochure, all family members seeking shelter, including children under the age of 18, must be present for the application process. PATH processes applications during normal business hours (9 a.m. to 5 p.m.) which may coincide with and disrupt children's schooling.

This bill would preclude DHS from requiring child members of a family to be present in person at its intake center when that family applies or reapplies for shelter at an intake facility and would take effect immediately upon becoming law.

Since introduction, the bill was amended to allow an exception to the preclusion for any time when DHS requests to remotely view a child and is unable to do so within 24 hours, or when a child has not checked in to their assigned shelter by the shelter curfew on the day following placement.

Proposed Int. No. 460-A

Currently, if a family with children is seeking shelter in a Department of Homeless Services (DHS) facility, their application may only be accepted and processed at a DHS intake facility. As of now, there is only one intake facility that services families with children, the Prevention Assistance and Temporary Housing (PATH) facility in the Bronx. While awaiting an eligibility for shelter determination following application, families with children can receive a conditional, temporary placement for up to 10 days with the possibility of extension. While in a conditional placement, families with children are ineligible for certain benefits, such as Special One-Time Assistance (SOTA), which require shelter eligibility and placement as a prerequisite. They may also be moved to their permanent shelter placement at short notice, creating further destabilization. The increasing number of families with children facing homelessness and seeking shelter, paired with the limited number of eligibility specialists at the single PATH intake facility, may lead to a longer period between application and eligibility determination for families with children, resulting in families remaining in conditional status for longer.

This bill would require DHS to report on the feasibility of partnering with community-based organizations, located throughout New York City, to accept and process application for shelter intake for families with children. The report would include information relating to legal or practical barriers to implementation of such a program, training requirements, cost estimates, access to databases or other systems and confidentiality and data privacy. The report would also include an estimated timeline for implementing such partnerships. This bill would require such report to be delivered to the mayor and speaker of the council no later than one year from the date on which this bill becomes a law.

Since introduction, the bill has not been changed substantively.

Be it enacted by the Council as follows:

Section 1. Chapter 3 of title 21 of the administrative code of the city of New York is amended by adding a new section 21-334 to read as follows:

Report of the Committee on Transportation and Infrastructure

Report for Int. No. 745-A

Report of the Committee on Transportation and Infrastructure in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to requiring the department of transportation to provide information about bicycle and other micromobility device activity.

The Committee on Transportation and Infrastructure, to which the annexed proposed amended local law was referred on April 11, 2024 (Minutes, page 1626), respectfully

REPORTS:

INTRODUCTION

On August 15, 2024, the Committee on Transportation and Infrastructure, chaired by Majority Whip Selvena N. Brooks-Powers, conducted a vote on Int. No. 745-A, sponsored by Majority Leader Amanda Farías, in relation to requiring the department of transportation to provide information about bicycle and other micromobility device activity. A previous version of this bill was heard at a June 25, 2024 hearing on Intersections, Sidewalks and Pedestrian Safety. Those who testified at this hearing included representatives from the New York City (NYC or City) Department of Transportation (DOT), a representative from the NYC Police Department (NYPD), transit advocates, street safety advocates, and others.

On August 15, 2024, the Committee on Transportation and Infrastructure passed Int. No. 745-A by a vote of six in the affirmative, zero in the negative, with zero abstentions.

BACKGROUND

Department of Transportation

DOT's goal is to provide for safe, efficient, and environmentally responsible movement of people and goods in NYC.¹ DOT works to improve traffic mobility throughout NYC; maintain the City's infrastructure; encourage the use of mass transit and other modes of transportation other than private vehicles; and provide traffic safety educational programs.² With an annual operating budget of \$1.4 billion and a 10-year \$33 billion capital program, DOT manages 6,300 miles of streets and highways, over 12,000 miles of sidewalk, and approximately 800 bridges and tunnels.³ DOT's staff also installs and maintains nearly 1 million street signs, 13,250 signalized intersections, over 315,000 street lights, over 350 million linear feet of markings, and 2,600 automated enforcement cameras.⁴

Street Safety and Vision Zero

Since 2014, NYC has instituted Vision Zero, a citywide initiative that seeks to improve the safety of its streets throughout every neighborhood and in every borough.⁵ First launched under former Mayor Bill de Blasio, the initiative includes: expanded enforcement against dangerous moving violations, such as speeding and failing

to yield to pedestrians; new street designs and configurations; broad public outreach and communication; and legislation to increase penalties for dangerous drivers.⁶ Vision Zero rests on the belief that deaths and serious injuries in traffic incidents are not inevitable “accidents,” but preventable crashes that can be reduced through engineering, enforcement, and education.⁷ Traffic fatalities in NYC have fallen significantly since 1990, from 701 in 1990 to 381 in 2000 to an all-time low of 202 in 2018, with traffic deaths in NYC having fallen by a third when comparing 2018 with the year before Vision Zero began.⁸

Although the data through 2018 is encouraging, the citywide initiative has received a number of criticisms mainly due to the rapid increase in deaths occurring on City streets over the last several years. Notably, for a nearly 2-month period during the novel coronavirus (COVID-19) pandemic in 2020, there were zero pedestrian fatalities in NYC, largely attributed to the lack of congestion and lack of commuters in the City at that time.⁹ However, in January 2021, the *New York Times* indicated that the total number of traffic fatalities in 2020 made it the deadliest year on record since former Mayor de Blasio introduced Vision Zero, and the second straight year of increased road fatalities.¹⁰

In 2021, these trends continued, with 275 people killed due to traffic violence in the City, representing about a 33% increase from 2018.¹¹ There were a reported 93 hit-and-runs with critical injuries in 2021, twice as many as there had been in 2018.¹² Furthermore, the share of pedestrian fatalities caused by drivers of SUVs during Mayor de Blasio’s second term as mayor, which concluded in 2021, was up 42% compared to his first term.¹³

In 2022, the number of traffic fatalities in the City was 263.¹⁴ DOT Commissioner Ydanis Rodriguez announced that in 2022, the City experienced an overall decline of about 6% in traffic fatalities from 2021, and the first decline in annual fatalities since 2019.¹⁵ 2022 was one of the years with the fewest annual pedestrian deaths ever recorded in the City;¹⁶ however, 2022 also marked the deadliest year since 2014 for child fatalities, with 16 children killed in traffic collisions.¹⁷

Last year, in 2023, there were 265 traffic fatalities, an increase of 2 people when compared to the year prior.¹⁸ Additionally, 2023 saw a record number of cyclist fatalities in the Vision Zero era.¹⁹

During the first half of 2024, traffic crashes killed 127 people, which is the highest number of people killed in the first 6 months of any year since Vision Zero was implemented in 2014, putting it on pace to be the deadliest

year for traffic violence since Vision Zero was implemented if the trend continues.²⁰ Some advocates note that lack of safety infrastructure could be one major reason for this increase.²¹ In fact, 92% of intersections where pedestrians were killed lacked daylighting measures, and 100% lacked physical daylighting measures to stop drivers from parking to the edge of crosswalks.²² Moreover, 83% of cyclists were killed on streets without protected bicycle infrastructure and 66% were killed on streets without any bicycle infrastructure of any kind.²³ In addition, there were 51 motorist fatalities in the first 6 months of 2024, which is 21% greater than the annual average since the beginning of Vision Zero in 2014.²⁴

Street Infrastructure

DOT is responsible for thousands of miles of streets and roadways, and conducts regular inspections to assess pavement conditions.²⁵ Furthermore, DOT is responsible for the implementation of street improvement projects, which add to the safety and accessibility of streets, including:

- Street Construction, which includes pothole repair, milling and repaving, and full reconstruction of streets;²⁶
- Capital Street Projects, which often include full reconstruction of the sewer pipes, the roadbed and sidewalks;²⁷
- Resiliency projects, which includes addressing threats from storm surge and extreme heat;²⁸
- Sidewalk repair and maintenance, which is used to ensure sidewalks are safe for pedestrians and helps prevent injuries caused by defective sidewalks;²⁹
- Traffic Signals and Street Signs, which are used to ensure less congestion and more safety for all road users;³⁰ and
- Street Lights, which provide lighting for road users.³¹

Cycling in the City

Cycling in NYC has rapidly expanded and improved since 1980, when the City first began collecting cycling ridership data.³² This growth is, in part, due to a greater investment in cycling infrastructure by the City, enabling bike riding to become a viable form of transportation for both commuting and recreation.³³ Between 2012 and 2022, the number of daily cyclists in the City increased by 94%.³⁴ In 2022, there were approximately 610,000

cycling trips made on an average day in NYC.³⁵ In Fiscal Year 2022, approximately 888,000 adult New Yorkers regularly rode a bicycle.³⁶

Along with greater investment in and commitment to cycling infrastructure, including the installation of over 1,500 miles of bike lanes and more than 650 miles of protected bike lanes (as of 2023)³⁷, the introduction of bike sharing in the City has likely contributed to the expansion of cycling ridership. Introduced as Citi Bike in 2013, bike sharing in NYC has grown in popularity, to 127,485 annual members as of June 2024.³⁸ According to DOT's latest *Cycling in the City* report, "[Citi Bike] makes it more convenient for New Yorkers—even those who don't own a bicycle—to make short, point-to-point trips by bicycle and has become an integral part of New York's transportation network."³⁹ As of the end of June 2024, there were 2,078 active Citi Bike stations and 34,358 bikes in the fleet.⁴⁰

DOT has reported on the growth of cycling in the City in its *Cycling in the City* Reports, published in 2013, and 2016 through 2021.⁴¹ It has not published a *Cycling in the City* Report since 2021, and its *Cycling in the City* website contains cycling data only through 2022.⁴²

INTENT

To approve with modifications the Administration's proposal to create approximately 7,500 new units of housing next to the Morris Park, Parkchester and Van Ness new Metro North Stations that are scheduled to open in 2027. The proposal consists of rezoning a 46-block area around the two stations, a zoning text amendment that would create the Special Eastchester – East Tremont Corridor District, and several mapping actions. Of the units created, approximately 20% to 30% would be affordable housing with income restrictions averaging between 40 and 80% AMI. The rezoning is also anticipated to facilitate the expansion of the medical campuses around Morris Park and spur job growth.

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on July 9, 2024;

WHEREAS, the Council has considered the land use and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues, including the Positive Declaration issued December 8, 2022 (CEQR No. 23DCP065X) and a Final Environmental Impact Statement (FEIS) for which a Notice of Completion was issued on June 14, 2024, in which significant adverse impacts related to hazardous materials, air quality, and noise would be avoided through the placement of (E) designations (E-750) on selected projected and potential development sites as specified in Chapters 9, 14, and 16, respectively of the FEIS. The FEIS determined that the proposed actions would have identified significant adverse impacts with respect to community facilities (schools), open space (total, passive, and active), shadows (Pelham Parkway, the Greenstreet at Sacket Avenue, and a small portion of the Parkchester Special Planned Community Preservation District), historic and cultural resources (archaeological and architectural), transportation (traffic, transit, and pedestrians), and construction (traffic, noise, and architectural and archaeological resources). The identified significant adverse impacts and proposed mitigation measures under the proposed actions are

summarized in Chapter 21, “Mitigation” of the FEIS. A Technical Memorandum was issued on June 21, 2024 in relation a City Planning Commission modification to the boundary affecting the proposed C4-3, C2-4, and R6 boundaries affecting Block 4205, Lots 2 and 40, and concludes that these additional changes do not alter the conclusions presented in the FEIS (the “Technical Memorandum I”). The Council has also considered a technical memorandum dated [____], 2024 (“Technical Memorandum II”).

RESOLVED:

Having considered the FEIS and Technical Memorandum I and Technical Memorandum II with respect to the Decision and Application, the Council finds that:

1. The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;
2. The environmental impacts disclosed in the FEIS were evaluated in relation to the social, economic, and other considerations associated with the actions that are set forth in this report; and
3. Consistent with social, economic, and other essential considerations from among the reasonable alternatives available, the action is one which avoids or minimizes adverse environmental impacts to the maximum extent practicable; and

The Decision, together with the FEIS issued June 14, 2024, the Technical Memorandum I dated June 21, 2024, and the Technical Memorandum II dated [____], 2024, constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Sections 197-d and 200 of the City Charter and on the basis of the Decision and Application, and based on the environmental determination and consideration described in the report C 240015 ZMX, incorporated by reference herein, and the record before the Council, the Council approves the Decision of the City Planning Commission with the following modifications.

Implementation of the objectives of the plan and the shared long-term vision for the neighborhood would create affordable housing; spur economic and job growth; foster safer, active streets; create a vibrant, accessible, and resilient public realm; generate new community resources; and incentivize the creation of new, publicly accessible open spaces located in Bronx Community Districts 9, 10 and 11 (ULURP No. N 240016 ZRX), (the “Application”);

WHEREAS, the City Planning Commission filed with the Council on July 1, 2024, its decision dated June 26, 2024 (the "Decision") on the Application;

WHEREAS, the Application is related to applications N 240015 ZRX (L.U. No. 106), a zoning map amendment; and C 240163 MMX (L.U. No.113), C 240158 MMX (L.U. No. 110), C 240157 MMX (L.U. No. 109), C 240160 MMX (L.U. No. 112), and C 240159 MMX (L.U. No. 111), which are City map amendments;

WHEREAS, the Decision is subject to review and action by the Council pursuant to Section 197-d of the City Charter;

WHEREAS, upon due notice, the Council held a public hearing on the Decision and Application on July 9, 2024;

WHEREAS, the Council has considered the land use implications and other policy issues relating to the Decision and Application; and

WHEREAS, the Council has considered the relevant environmental issues, including the Positive Declaration issued December 8, 2022 (CEQR No. 23DCP065X) and a Final Environmental Impact Statement (FEIS) for which a Notice of Completion was issued on June 14, 2024, in which significant adverse impacts related to hazardous materials, air quality, and noise would be avoided through the placement of (E) designations (E-750) on selected projected and potential development sites as specified in Chapters 9, 14, and 16, respectively of the FEIS. The FEIS determined that the proposed actions would have identified significant adverse impacts with respect to community facilities (schools), open space (total, passive, and active), shadows (Pelham Parkway, the Greenstreet at Sacket Avenue, and a small portion of the Parkchester Special Planned Community Preservation District), historic and cultural resources (archaeological and architectural), transportation (traffic, transit, and pedestrians), and construction (traffic, noise, and architectural and archaeological resources).The

identified significant adverse impacts and proposed mitigation measures under the proposed actions are summarized in Chapter 21, "Mitigation" of the FEIS. A Technical Memorandum was issued on June 21, 2024 in relation to a City Planning Commission modification to the boundary affecting the proposed C4-3, C2-4, and R6 boundaries affecting Block 4205, Lots 2 and 40, and concludes that these additional changes do not alter the conclusions presented in the FEIS (the "Technical Memorandum I"). The Council has also considered a technical memorandum dated [____], 2024 ("Technical Memorandum II").

RESOLVED:

Having considered the FEIS and Technical Memorandum I and Technical Memorandum II with respect to the Decision and Application, the Council finds that:

1. The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;
2. The environmental impacts disclosed in the FEIS were evaluated in relation to the social, economic, and other considerations associated with the actions that are set forth in this report; and
3. Consistent with social, economic, and other essential considerations from among the reasonable alternatives available, the action is one which avoids or minimizes adverse environmental impacts to the maximum extent practicable; and

The Decision, together with the FEIS, issued June 14, 2024, the Technical Memorandum I dated June 21, 2024, and the Technical Memorandum II dated [____], 2024, constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Sections 197-d and 200 of the City Charter and on the basis of the Decision, Application, the environmental determination, considerations described in the City Planning Commission report, N 240016 ZRX, incorporated by reference herein, and the record before the Council, the Council approves the Decision of the City Planning Commission, with the following modifications:

Such portion of the #building# utilizing bonus #floor area# shall be designated by the Commission in drawings included in the declaration of restrictions filed pursuant to this paragraph.

No permanent certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# until all improvements have been completed in accordance with the approved plans, as determined by the Chairperson.

145-412**Authorization for additional modifications in Subdistrict A**

In conjunction with an application pursuant to Section 145-411 (Certification for public realm improvements in Subdistrict A), the City Planning Commission may, by authorization, allow the total #floor area#, #lot coverage#, #dwelling units# or #rooming units# permitted by the applicable district regulations for all #zoning lots# within Subdistrict A to be distributed without regard for #zoning# lot lines. Additionally, the Commission may modify other #bulk# regulations, other than #floor area ratio#.

All such modifications shall be subject to the conditions and limitations set forth in paragraph (a), the application requirements of paragraph (b) and the findings set forth in paragraph (c) of this Section.

(a) Conditions and limitations

~~Where maximum #building# height limitations apply, modifications to the maximum permitted #building# height shall not result in an increase that exceeds 25 percent of the maximum #building# height as set forth in applicable district regulations.~~

For #zoning lots# or portions thereof within 150 feet of Bronxdale Avenue, modifications to maximum permitted #building# height shall not apply. For #zoning lots# or portions thereof beyond 150 feet of Bronxdale Avenue, the maximum permitted #building# height may be modified provided that such modification does not result in an increase that exceeds 13 percent of the maximum #building height#, as set forth in paragraph (b) of Section 145-23 (Height and Setback Regulations).

(b) Application requirements

Applications for an authorization for modifications pursuant to this Section shall contain materials, of sufficient scope and detail, to enable the Commission to determine the extent of the proposed modifications.

(c) Findings

The Commission shall find that:

- (1) such distribution of #floor area#, #lot coverage#, #dwelling units#, or #rooming units# will result in a better site plan, and will not:

 - (i) unduly increase the #bulk# of #buildings# to the detriment of the occupants of #buildings# in the #block# or nearby #blocks#; or
 - (ii) adversely affect any other #zoning lots# outside of the Subdistrict, by restricting access to light and air; and
- (2) modifications to other #bulk# regulations will not unduly obstruct the access of light and air to surrounding #streets# and properties nor adversely affect the character of the surrounding area, and will result in an improved distribution of #bulk# that is harmonious with the surrounding area.

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

145-42

Special Approvals in Subdistrict B

For certain portions of Subarea B1, a transfer of #floor area# from a granting site to a receiving site shall be allowed by certification of the Chairperson of the City Planning Commission, pursuant to Section 145-421 (Certification for transfer of floor area).

For #qualifying public realm improvement sites# in Subarea B1, the City Planning Commission may grant, by authorization, a #floor area# bonus for transit and station area improvements pursuant to Section 145-422 (Authorization for qualifying public realm improvement sites). In conjunction with such #floor area# bonus, the Commission may authorize #bulk# modifications, other than modifications to the #floor area ratio#, pursuant to Section 145-423 (Authorization for additional modifications on qualifying public realm improvement sites).

145-421

Certification for transfer of floor area

The Chairperson of the City Planning Commission shall allow, by certification, a transfer of #floor area# from the Improvement Area located in Subarea B1, as shown on Map 4 (Subdistrict B, Morris Park Avenue Site Plan) in the Appendix to this Chapter, to a #zoning lot# fronting on Morris Park Avenue or other #zoning lots# on the #block# contiguous to the Improvement Area. Such certification for a transfer of #floor area# shall be subject to the conditions of paragraph (a), and application requirements of paragraph (b) of this Section.

For the purposes of this Section, the “granting site” shall mean the Improvement Area that transfers #floor area# pursuant to this Section, and a “receiving site” shall mean a #zoning lot# that receives additional #floor area# pursuant to this Section.

(a) Conditions

- (1) the maximum amount of #floor area# that may be transferred from the granting site shall equal the area designated on Map 4 multiplied by the maximum #floor area ratios# pursuant to the zoning district within Subdistrict B. Each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be transferred; and
- ~~(2) the maximum #building# height for a receiving site shall be increased by 25 percent; and~~
- (3) all certificates of occupancy have been surrendered for such granting site, and all structures on such granting site have been demolished.

(b) Application requirements

An application filed with the Chairperson for certification pursuant to this Section shall be made jointly by the owners of the granting site and the receiving site. Such application shall include site

plans and zoning calculations for the granting site and receiving site showing the additional #floor area# associated with the transfer.

Additionally, at the time of certification, the owners of the granting site and the receiving site shall submit to the Chairperson a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer. Notice of the restrictions upon further #development# or #enlargement# of the granting site and the receiving site shall be filed by the owners of the respective lots in the Office of the Register of the City of New York (County of New York). Proof of recordation shall be submitted to the Chairperson. Both the transfer instrument and the notices of restrictions shall specify the total amount of #floor area# transferred and shall specify, by #block# and lot numbers, the granting site and the receiving site that are a party to such transfer.

The Chairperson shall certify to the Department of Buildings that a #development# or #enlargement# is in compliance with the provisions of this Section only after the transfer instrument and notice of restrictions required by this paragraph have been executed and recorded with proof of recordation provided to the Chairperson. Such certification shall be a precondition to the filing for or issuing of any building permit allowing more than the basic maximum #floor area ratio# for such #development#.

No temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing #floor area# associated with the transfer on the receiving site until the granting site has been conveyed to the City for improvement, as a #street#, as provided on the City Map.

A separate application shall be filed for each transfer of #floor area# to any receiving site pursuant to this Section.

145-422

Authorization for qualifying public realm improvement sites

For #qualifying public realm improvement sites# in Subarea B1, the City Planning Commission may authorize an increase in the maximum permitted #floor area ratio#, up to a maximum of 20 percent, where transit and public realm improvements are provided to enhance access, circulation and complementary open spaces between a future #mass transit station# and its surrounding area. All applications pursuant to this Section shall be subject to the rules and limitations set forth in paragraph (a), conditions set forth in paragraph (b), application requirements set forth in paragraph (c), findings set forth in paragraph (d), and additional requirements set forth in paragraph (e) of this Section.

(a) Rules and limitations

The following rules and limitations on bonus #floor area# and other bulk modifications shall apply:

- (1) Where a #zoning lot# contains multiple #uses# with different #floor area ratios#, the bonus may be applied to any individual #use#, and the total of all #floor area ratios# shall not exceed 20 percent of the greatest #floor area ratio# permitted on the #zoning lot#; and

(2) For #MIH developments#, as defined in Section 23-911 (General definitions), the requirements of Section 23-154 shall not apply to the bonus #floor area# granted under the provisions of this Section.

(b) Conditions

All applications shall include on-site or off-site improvements that will enhance access to and circulation between such #mass transit station# and its surrounding areas. Such improvements may consist of:

- (1) accessibility or capacity-enhancing improvements to the #mass transit station#, including, but not limited to, the provision of elevators and escalators, widening, straightening, expanding or otherwise enhancing the existing pedestrian circulation network, or reconfiguring circulation routes to provide more direct pedestrian connections to #the #mass transit station#; or
- (2) publicly accessible open spaces, of ample size, for public use and enjoyment, at or around the #mass transit station#. Such improvements may include pedestrian plazas and other types of active or passive open spaces and shall be characteristic of best practices in plaza design, as set forth by the Department of Transportation.

(c) Application requirements

All applications shall include a site plan indicating the area and dimensions of the proposed improvements to the #mass transit station# or proposed publicly accessible open spaces. In addition, for applications involving accessibility or capacity-enhancing improvements to the #mass transit station#, the following shall be provided:

- (1) Prior to submitting an application, the applicant shall submit a schematic or concept plan for the proposed improvement to the Metropolitan Transportation Authority and the Chairperson of the City Planning Commission. Such schematic or concept plan shall include such materials and information sufficient to provide the basis for the Metropolitan Transportation Authority to evaluate and determine the constructability of such proposed improvement.
- (2) At the time of application referral, the Commission shall be provided with the following application materials:
 - (i) a letter from the Metropolitan Transportation Authority containing a conceptual approval of the improvement, including a statement of any considerations regarding the construction and operation of the improvement;
 - (ii) all information and justification sufficient to provide the Commission with the basis for evaluating the benefits of such improvements to the general public; and
 - (iii) initial plans for the maintenance of the proposed improvements.

(d) Findings

In order to grant such #floor area# bonus, the Commission shall find that:

- (1) the public benefit derived from such improvements merits the amount of additional #floor area# being granted to the proposed #development# pursuant to the authorization;
- (2) for accessibility or capacity-enhancing improvements for the #mass transit station#, newly created or expanded accessible routes for persons with physical disabilities, or measures to improve station ingress and egress routes or platform capacity, such improvements will constitute significant enhancements to connectivity from the pedestrian circulation network to and through the #mass transit station#; and
- (3) for publicly accessible open spaces, the proposed improvements will, to the extent practicable:
 - (i) consist of a prominent space of generous proportions and quality design that is inviting to the public, resulting in high-quality public space;
 - (ii) provide comfortable places for resting, suitable amenities for occupants and opportunities for planting; and
 - (iii) be designed in a manner that is cohesive and harmonious with the pedestrian circulation network.

(e) Additional requirements

For all applications, additional requirements set forth in this paragraph shall apply

- (1) For applications involving accessibility or capacity-enhancing improvements to the #mass transit station# the following requirements shall be met prior to the granting of such #floor area# bonus:
 - (i) To the extent required by the Metropolitan Transportation Authority, the applicant shall execute an agreement, setting forth the obligations of the owner, its successors and assigns, to establish a process for design development and a preliminary construction schedule for the proposed improvement; construct the proposed improvement; establish a program for maintenance and capital maintenance; and establish that such improvements shall be accessible to the public during the hours of operation of the station or as otherwise approved by the #transit agency#. Where the Metropolitan Transportation Authority deems necessary, such executed agreement shall set forth obligations of the applicant to provide a performance bond or other security for completion of the improvement in a form acceptable to the #transit agency#; and
 - (ii) The City Planning Commission shall be provided with a final letter of approval from the Metropolitan Transportation Authority stating that the drawings and other documents submitted by the applicant have been determined by such #transit agency# to be of sufficient scope and detail to describe the size and character of the improvement as to architectural, structural, mechanical and electrical systems, materials, relationship to existing site conditions and such other conditions as may be appropriate, and that the construction of the improvement in accordance with such submission is feasible.

- (2) Prior to obtaining a foundation permit or building permit from the Department of Buildings, a written declaration of restrictions, in a form acceptable to the Chairperson of the City Planning Commission, containing complete drawings of the improvements and setting forth the obligations of the owner, its successors and assigns, shall be recorded against such property in the Borough Office of the City Register of the City of New York. Proof of recordation of the declaration of restrictions shall be submitted in a form acceptable to the Department of City Planning.
- (3) No temporary certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# granted pursuant to the provisions of this Section until the required improvements have been substantially completed, as determined by the Chairperson, where applicable, and such improvements are usable by the public. Such portion of the building utilizing bonus #floor area# shall be designated by the Commission in drawings included in the declaration of restrictions filed pursuant to this paragraph.

No permanent certificate of occupancy shall be granted by the Department of Buildings for the portion of the #building# utilizing bonus #floor area# until all improvements have been completed in accordance with the approved plans, as determined by the Chairperson.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

145-423

Authorization for additional modifications for qualifying public realm improvement sites

In conjunction with an application pursuant to Section 145-422 (Authorization for qualifying public realm improvement sites), the City Planning Commission may, by authorization, modify bulk regulations, other than #floor area ratio# and maximum #building height#, provided that the Commission determines that ~~the conditions and limitations set forth in paragraph (a)~~, the application requirements of paragraph ~~(b)~~ (a) and the findings set forth in paragraph ~~(c)~~ (b) of this Section are met.

~~(a)~~ Conditions and limitations

~~Where maximum #building# height limitations apply, modifications to the maximum permitted #building# height shall not result in an increase that exceeds 25 percent of the maximum #building# height as set forth in applicable district regulations.~~

~~(b)~~(a) Application requirements

Applications for an authorization for modifications pursuant to this Section shall contain materials, of sufficient scope and detail, to enable the Commission to determine the extent of the proposed modifications.

~~(c)~~(b) Findings

The Commission shall find that:

- (1) such proposed modifications are necessary to accommodate the additional #floor area# granted pursuant to Section 145-422; and
- (2) any modifications to #bulk# regulations will not unduly obstruct the access of light and air to surrounding #streets# and properties nor adversely affect the character of the surrounding area, and will result in an improved distribution of #bulk# that is harmonious with the surrounding area.

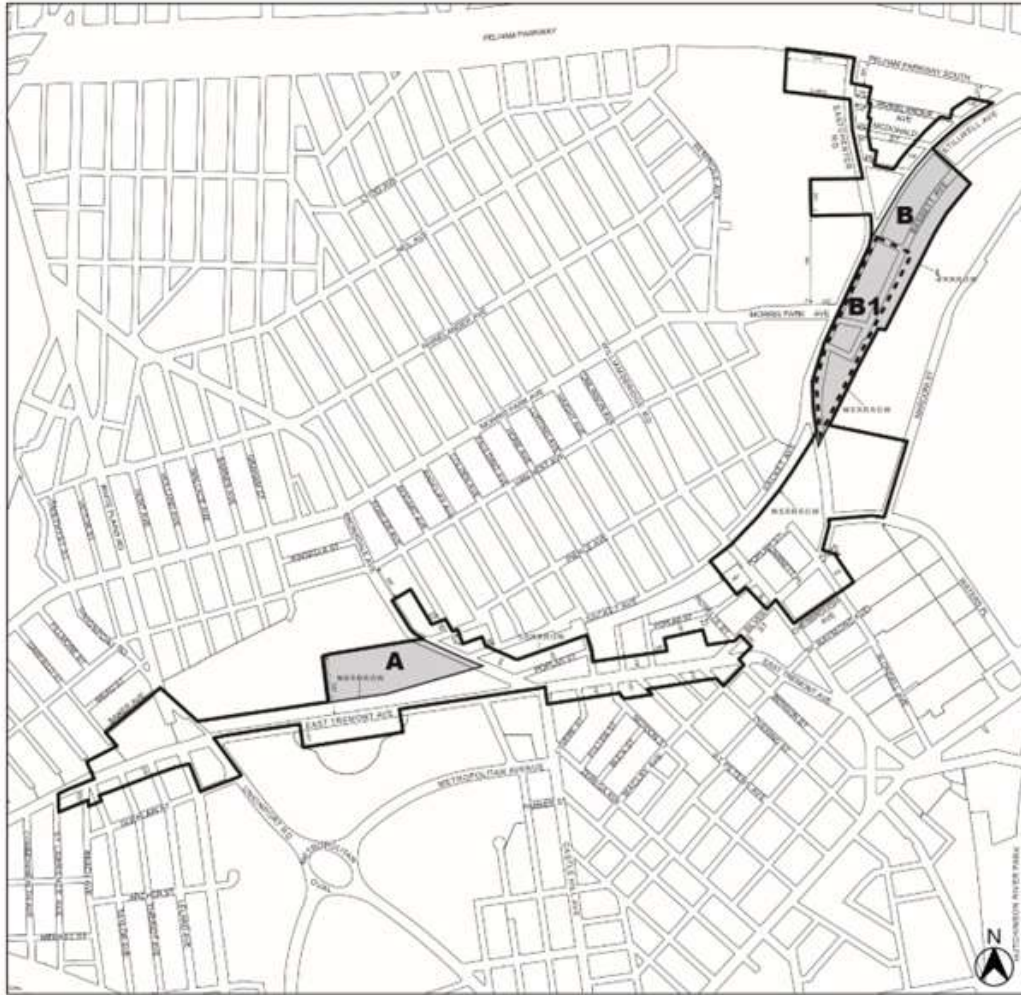

The City Planning Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

The Committee on Education, to which the annexed resolution was referred on April 18, 2024 (Minutes, page 1878), respectfully

REPORTS:

I. INTRODUCTION

On August 15, 2024, the Committee on Education, chaired by Council Member Rita Joseph, considered Resolution Number (“Res. No.”) 372, sponsored by Council Member Joseph, calling on the New York City Department of Education to provide support for a student newspaper at every high school. The Committee previously held a hearing on Res. No. 372 on June 18, 2024. At that hearing, the Committee heard testimony from advocates, students and members of the public. On August 15, 2024, the Committee adopted this resolution by a vote of ten in the affirmative, zero in the negative, and zero abstentions.

Accordingly, this Committee recommends its adoption.

(The following is the text of Res. No. 372:)

Res. No. 372

Resolution calling on the New York City Department of Education to provide support for a student newspaper at every high school.

By Council Members Joseph, Gennaro, Brannan, Louis, Rivera, Brewer, Riley, De La Rosa, Hudson, Abreu, Banks, Brooks-Powers, Schulman, Cabán, Ossé, Salaam, Narcisse, Nurse, Farías, Sanchez, Avilés, Won, Hanif, Bottcher and Dinowitz.

Whereas, The New York City (NYC) Department of Education (DOE) is the largest school district in the United States, providing primary and secondary education to nearly one million students, from early childhood to grade 12 in over 1,800 schools; and

Whereas, A school newspaper provides students with a platform to express their ideas and creativity while also helping to develop critical thinking skills; and

Whereas, Student journalism advocates assert that student journalism programs are essential to helping students develop writing skills, build community, hold school leaders accountable, and develop a more racially and socioeconomically representative pipeline of professional journalists; and

Whereas, However, a November 2022 research report on Newspaper Prevalence among New York City Public High Schools by Baruch College (“Baruch Report”) found that only 26.9% of non-Charter public high schools have a student newspaper; and

Whereas, Moreover, among the 100 non-charter public high schools with the highest poverty rates, only 7% percent have a student newspaper; and

Whereas, Meanwhile, 62% of the 50 non-charter public high schools with the lowest poverty rates and 100% of NYC’s specialized high schools have newspapers; and

Whereas, Additionally, high schools with high percentages of Black and Hispanic students—according to DOE demographic data and classifications—are less likely to have a student newspaper than high schools with low rates of poverty and economic need and higher percentages of white and Asian students; and

Whereas, Overall, high schools with high four-year graduation rates are more likely to have a student newspaper than schools with the lowest four-year graduation rates: 58% of the 50 high schools with the highest graduation rates compared to 6% of the 50 high schools with the lowest graduation rates; and

Whereas, While the Baruch Report does not assert a causal relationship between rates of poverty or graduation, or rates of racial and ethnic composition of high schools and student newspaper prevalence, its analysis of the data reveals that high schools with poverty rates of 78% or higher, which includes nearly two-thirds of NYC non-Charter public high schools, tend to have higher graduation rates when they have a student newspaper; and

Whereas, NYC non-Charter public high schools in the Bronx and Brooklyn are less likely than high schools in Manhattan, Queens, and Staten Island to have a student newspaper; and

Whereas, The Baruch Report’s findings are consistent with findings published by journalism educator Jessica Siegal, which were based on data collected from 263 NYC public high schools between 2007 and 2009; and

Whereas, Between the Baruch Report and Siegal’s findings, one can conclude that student newspaper prevalence has declined among NYC public high schools over the past 14 years; and

Whereas, Potential reasons for the loss of a student newspaper at a NYC public high school, according to the experience of Baruch College’s High School Journalism Program over the past decade, include (1) a failure to name a trained replacement whenever a student newspaper advisor leaves their school; (2) a reallocation of resources that once supported a student newspaper; and (3) a lack of journalism training and experience among teachers and administrators; and

Whereas, However, according to outreach conducted by the Baruch Report authors, teachers and administrators recognize the value of journalism and new literacy education, they are receptive to the idea of launching a student newspaper with assistance and training, and online platforms make publishing a student newspaper easier and less expensive than ever before; and

Whereas, All NYC public school students deserve the opportunity to gain leadership and civic engagement experience, news judgment, research and writing proficiency, news literacy, and many other skills and benefits afforded through student newspaper participation; and

Whereas, Participation in a student newspaper not only expands a student’s knowledge and abilities but also contributes to a future of democratic freedoms, government accountability, and a more news-savvy, better informed society; now, therefore, be it

Resolved, That the Council of the City of New York calls on the New York City Department of Education to provide support for a student newspaper at every high school.

Res. No. 518

Resolution declaring October as Jamaican Heritage Month in New York City.

By Council Members Brooks-Powers, Cabán, Hanif and Gutiérrez.

Whereas, Jamaicans are the third-largest foreign-born group in New York City, according to the Census American Community Survey 2020; and

Whereas, Jamaican Immigrants have made neighborhoods like Crown Heights and East Flatbush in Brooklyn; Eastchester and Wakefield in the Bronx; the Laurelton-Rosedale area in Queens and many other areas of the city their home; and

Whereas, Jamaican immigrants have contributed greatly to the economic development in New York City and the U.S. as notably hard workers, business owners and entrepreneurs; and

Whereas, For example, according to a 2010 American Community Survey and the U.S. Census Bureau, Jamaicans are among the three immigrant populations to own the greatest number of businesses in the U.S. from 2002 to 2008, contributing \$348 billion to the U.S. economy from 2002 to 2007; and

Whereas, New York City had the largest number of black-owned Jamaican businesses during this period and these businesses contributed about \$12.8 billion to New York City economy; and

Whereas, Many Jamaican Americans have contributed significantly to the arts, music, culture, and politics in New York City and the U.S.; and now, therefore, be it

RESOLVED, That the Council of the City of New York declares October as Jamaican Heritage Month in New York City.

Referred to the Committee on Cultural Affairs, Libraries and International Intergroup Relations.

Res. No. 519

Resolution calling on the New York State Legislature to pass, and the Governor to sign, S.8672/A.9250, in relation to electronic appearances for parking violations

By Council Members Brooks-Powers and Dinowitz.

Whereas, The New York City (City or NYC) Department of Finance (DOF) is responsible for collecting and processing payments for parking tickets and camera violations issued in the City; and

Whereas, The Parking Violations Bureau (PVB), established under State law, is an administrative tribunal within DOF responsible for accepting pleas to and hearing and determining charges of traffic infractions relating to parking violations within the City, providing for monetary fines, penalties and fees for such violations, and entering and enforcing its judgments in the same manner as the enforcement of money judgments in civil actions; and

Whereas, According to the Rules of the City of New York, guilty pleas for parking tickets must be entered within 30 days after service of the notice of violation and accompanied by a check, money order, or other form of payment, and no hearing is held; and

Whereas, According to the Rules of the City of New York, parking tickets can be contested if a respondent pleads not guilty and if DOF receives a hearing request; and

Whereas, Currently, when an individual wishes to dispute a ticket, the individual must submit a request for a hearing, which can be done online, by mail, on a smartphone using the NYC Parking Ticket Pay or Dispute App, or in person; and

Whereas, In Fiscal Year 2023, out of a total of approximately 17.2 million parking tickets and camera violations issued, 1.7 million had hearings, of which 508,750, or approximately 30 percent, were dismissed because of a not guilty hearing decision; and

Whereas, Although disputing parking tickets online, by mail, or on smartphones allows the defendant to remotely submit evidence such as photographs and a description of the scene to support the claim that the ticket should be dismissed, the defendant is not present for the hearing or judgment; and

Whereas, During the COVID-19 pandemic, courts around the country transitioned to virtual operations, including the use of teleconferencing, and in 2020, the New York State Unified Court System began scheduling virtual court appearances in consumer credit cases using Microsoft Teams and the New York State Department of Motor Vehicles (DMV) Traffic Violation Bureau (TVB) began offering virtual hearings using WebEx; and

Whereas, in July 2021, the Conferences of Chief Justices and the Conferences of State Court Administrators released a report titled “Guiding Principles for Post-pandemic Court Technology” and stated that courts should “[m]ove as many court processes as possible online” and “[a]llow for remote attendance at hearings”; and

Whereas, The City should follow the example of the State’s Unified Court System and the TVB by offering virtual hearings for ticket disputes; and

Whereas, According to the Rules of the City of New York, the Director of the PVB, as appointed by the DOF Commissioner, already may determine certain classes of alleged violations as appropriate for adjudication using virtual but contemporaneous videographic means; and

Whereas, S.8672, introduced by State Senator John Liu, and companion bill A.9250, introduced by Assembly Member Jeffrey Dinowitz, would amend the New York State vehicle and traffic law to authorize the parking violations bureau to adopt rules and regulations which would allow a person charged with a parking violation to enter a plea of not guilty to obtain a hearing either in person or through electronic appearance; and

Whereas, S.8672/A.9250 would further require a video recording to be made contemporaneously with any electronic appearance or hearing, which may be introduced as evidence in any further proceedings relating to such a violation; and

Whereas, With advancements in video conferencing technology, virtual court appearances under S.8672/A.9250 could allow a person charged with a parking violation who might not otherwise have been able to appear in person to argue their case and explain any submitted documentation to a judge at a hearing; and

Whereas, Allowing video recordings of virtual appearances for ticket dispute hearings and allowing the recordings to be introduced as evidence in any further proceedings could potentially aid New Yorkers in appealing parking ticket judgements; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to pass, and the Governor to sign, S.8672/A.9250, in relation to electronic appearances for parking violations.

Referred to the Committee on Transportation and Infrastructure.

Res. No. 520

Resolution recognizing July 2 annually as Thurgood Marshall Day in the City of New York to promote his contributions and legacy as a pillar of the Civil Rights movement.

By Council Members Farías, Hudson, Brooks-Powers, Riley, Williams, Joseph, Nurse, Narcisse, Ossé, Cabán, Ung, Hanif and Gutiérrez.

Whereas, Thurgood Marshall, the first African American Supreme Court Justice, was born on July 2, 1908, to William Canfield, a country club steward, and Normal Williams Marshall, an elementary school teacher, in Baltimore, Maryland; and

Whereas, Justice Marshall is a prominent figure of the Civil Rights Movement in the United States who deserves to be recognized for his accomplishments and actions; and

Whereas, Growing up, Thurgood Marshall did not allow racial segregation to discourage him from his dreams of being a lawyer: enrolling at Howard University Law School after being denied the ability to attend the University of Maryland Law School due to his race; and

Whereas, Justice Marshall transformed his experiences with the evils of segregation into becoming an advocate for positive change by using the legal arena to remove injustice; and

Whereas, As a young lawyer, Thurgood Marshall joined the National Association for the Advancement of Colored People (NAACP) where he litigated against racial inequalities; and

Whereas, Thurgood Marshall’s legal career with NAACP would lead him to move to New York City in 1936 where he spent many prime years of his legal career; and

Whereas, In conjunction with NAACP and other lawyers, Justice Marshall became a lead on *Murray v. Pearson*, which led to the racial integration of the University of Maryland Law School—correcting an inequity that was especially personal to him; and

Whereas, Justice Marshall founded the Legal Defense Fund (LDF) in 1940, which eventually became a separate entity from the NAACP; and

Whereas, To this day, LDF continues to protect the civil rights of African-Americans through litigation across the country, including but not limited to voting rights, criminal justice reform, and expanded access to education; and

Whereas, Justice Marshall’s reputation as a civil rights advocate and lawyer continued to grow as he argued before the Supreme Court against segregation in public schools in the 1954 landmark *Brown v. Board of Education* case where “separate but equal” was ruled unconstitutional by the Supreme Court; and

Whereas, The fall of “separate but equal” led to integration of New York City public schools leading to increased diversity and cultural enrichment; and

Whereas, *Brown v. Board of Education* led to national fame for Justice Marshall, and he became an American giant in the struggle for civil rights; and

Whereas, In 1961, Thurgood Marshall was nominated by President Kennedy to serve on the U.S. Court of Appeals for the Second Circuit; and

Whereas, President Johnson nominated Justice Marshall to be the U.S. Solicitor General in 1965: where he used his position to eliminate injustices like the poll tax; and

Whereas, Thurgood Marshall was nominated to the U.S. Supreme Court in 1967 by President Johnson becoming the first Black Supreme Court justice—serving as an inspiration for millions; and

Whereas, Justice Marshall continued to use his voice and power in the Supreme Court to advance African-American rights and protect liberty and equality for all Americans; and

Whereas, The majority of United States Senator on the Senate Judiciary Committee reported that Justice Marshall “demonstrated those qualities which we admire in members of our highest judicial tribunal: thoughtfulness, care, moderation, reasonableness, a judicial temperament, and a balanced approach to controversial and complicated national problems;” and

Whereas, Justice Marshall used the Constitution as an instrument against Jim Crow on the Supreme Court; and

Whereas, Justice Marshall retired from his role on the Supreme Court in 1991 after 24 years of service, leaving behind him a career of insurmountable influence in the fight for racial justice and equality; and

Whereas, After he retired from the Supreme Court, Justice Marshall was awarded the American Bar Association’s highest honor: the ABA Medal; and

Whereas, To quote Former Chief Justice William Rehnquist: “inscribed above the front entrance to this Court [U.S. Supreme Court] building are the words, ‘Equal Justice Under Law.’ Surely no individual did more to make these words a reality than Thurgood Marshall;” now, therefore, be it

Resolved, That the Council of the City of New York recognizes July 2 annually as Thurgood Marshall Day in the City of New York to promote his contributions and legacy as a pillar of the Civil Rights Movement.

Referred to the Committee on Civil and Human Rights.

Res. No. 521

Resolution calling on the United States Department of Labor to expand the number of Occupational Safety and Health Administration (OSHA) authorized outreach trainers in New York City’s ten designated languages.

By Council Members Farías, Hanif, Ossé, De La Rosa, Narcisse, Ung, Joseph, Won, Cabán and Gutiérrez.

Whereas, The Occupational Safety and Health Administration (OSHA) is a federal agency under the United States Department of Labor (DOL), which is responsible for regulating federal and private sector workplaces to ensure safe and healthy conditions; and

Whereas, In New York State, an OSHA-approved State plan further regulates both state and local government working conditions; and

Whereas, In addition to performing inspections, OSHA certifies workers in particular sectors and provides outreach trainings for four primary industries, including construction, general industry, maritime, and disaster sites; and

Whereas, These trainings provide guidance on safety practices in an industry as well as information on basic rights in the workplace; and

Whereas, In New York City, most construction and demolition workers are also required to complete 40 hours of site safety training (SST) through 30 and 10-hour OSHA courses; and

Whereas, In New York City Local Law 196 of 2017 mandates 40 hours of SST for certain construction and demolition sites through Local Law (LL) 196 of 2017, which was passed in response to increased injuries and deaths on construction sites; and

Whereas, These SST's are facilitated by OSHA authorized trainers who are authorized through OSHA Training Institute (OTI) Education Centers; and

Whereas, According to OSHA's website, OTI Education Centers are selected through a national competitive process with the closest of the current 36 centers to New York City being Somerset, New Jersey, Baltimore, Maryland and Bethlehem, Pennsylvania; and

Whereas, Pricing on several OTI Education Centers websites indicates that these courses cost \$895; and

Whereas, OSHA also lists the names, locations, industries taught, and languages spoken by their authorized trainers; and

Whereas, In New York State there are 1,044 OSHA-authorized outreach trainers in construction, 347 in general industry, 20 in disaster sites, and 4 in maritime; and

Whereas, New York City is one of the most linguistically diverse cities in the United States; and

Whereas, In 2017 the City designated 10 languages spoken most by New Yorkers with limited English proficiency and required that City agencies to provide resources and services in these languages; and

Whereas, Only 123 construction outreach trainers in New York can train in a language other than English, 35 in general industry, 5 in disaster sites, and none in maritime; and

Whereas, Additional breakdowns of OSHA's outreach trainers in New York City's 10 designated languages shows further limitations; and

Whereas, Spanish-language trainers are more prevalent according to OSHA, with 88 in construction, 29 in general industry, and 3 in disaster sites; and

Whereas, Of the OSHA authorized outreach trainers in constructions, only two speak Korean, four speak Russian, one is a Bengali-speaking trainer, three speak Urdu, and nine construction trainers can train in Chinese, although OSHA's website does not specify if the Chinese is Mandarin, Cantonese, or Taiwanese, which are the specific languages indicated in the City's Chinese language designation; and

Whereas, Of the OSHA authorized outreach trainers in general industry and disaster sites, only two Arabic-speaking trainers can perform general industry training, and only one Urdu-speaking can provide disaster site training; and

Whereas, There are no outreach trainers in any industry in New York who can train in Haitian-Creole, French, or Polish; and

Whereas, Additionally, the City continues to see rising numbers of individuals coming from Spanish, French, Arabic, Cantonese, Mandarin, and Haitian-Creole speaking countries and if they are interested in engaging with New York City professions that require OSHA safety trainings, these trainings must be available to them in their preferred languages; and

Whereas, In a city rich with languages, with ten specifically designated as the most spoken in the City, limited access to trainings that provide life-saving practices in the workplace can severely jeopardize a worker's safety or limit access to professions that desperately need workers; and

Whereas, Reporting from Associated Builders and Contractors has shown that the construction industry, which historically has been a sector with a significant number of immigrant workers, is dealing with a massive shortage of workers; and

Whereas, According to Associated Builders and Contractors, in 2025 the construction industry needs to hire over 450,000 workers, in addition to their normal hiring pace, to meet the growing demand for labor; and

Whereas, Additionally, more than 1 in 5 construction workers are 55 or older and likely to retire soon, threatening an even larger shortage; and

Whereas, Empowering immigrant workers through information on basic worker rights and safety practices that could save their lives is imperative to ensuring that immigrant workers are protected in the workplace; now, therefore, be it

Resolved, That the Council of the City of New York calls on the United States Department of Labor to expand the number of Occupational Safety and Health Administration (OSHA) authorized outreach trainers in New York City's ten designated languages.

Res. No. 522

Resolution calling on the New York State Legislature to pass and the Governor to sign A.10225/S.9376, also known as *The Good Jobs Guarantee Act*, which would establish certain workforce training programs and increase employment opportunities for New Yorkers.

By Council Members Menin and Williams.

Whereas, According to *The New York Times*, nearly two-thirds of American workers do not have a four-year college degree including 76 percent of Black adults and 83 percent of Latino adults; and

Whereas, New York City's economic and employment landscape present considerable obstacles for individuals without a four-year college degree to secure a high-quality job; and

Whereas, According to a 2023 *U.S. News* report, the median annual salary for New York City is \$74,108; and

Whereas, The majority of jobs in New York that pay at least \$60,000 require a four-year college degree; and

Whereas, Creating a program that seeks to remedy the disparities and promote access to high-quality job placement is greatly needed; and

Whereas, A.10025, introduced by New York State Assemblymember Nily Rozic, and S.9376, introduced by New York State Senator Michael Gianaris are pending in the New York State Legislature and seek to establish a job placement program for low-income individuals who do not have a four-year degree; and

Whereas, A.10025/S.9376 are also known as *The Good Jobs Guarantee Act*; and

Whereas, *The Good Jobs Guarantee Act* would amend the New York State Economic Development Law and the New York State Urban Development Corporation Act by establishing the Good Jobs Guarantee program within the Empire State Development Corporation; and

Whereas, The Good Jobs Guarantee program would provide both workforce training opportunities and post-training employment to individuals, specifically those who are low-income without four-year college degrees; and

Whereas, This pathway to employment would be structured through a public-private partnership providing participants the prospects with high-quality employment without incurring debt; and

Whereas, Enacting *The Good Jobs Guarantee Act* will help underserved individuals and communities that would otherwise not be afforded such high-quality employment opportunities without being saddled with large amount of debt; now, therefore, be it

Resolved, That the Council of the City of New York calls on the New York State Legislature to pass and the Governor to sign A.10225/S.9376, also known as *The Good Jobs Guarantee Act*, which would establish certain workforce training programs and increase employment opportunities for New Yorkers.

Res. No. 523

Resolution calling upon the New York State Legislature to introduce and pass, and the Governor to sign, legislation requiring greater and more consistent disclosure of medical estimates by hospitals operating in the State of New York.

By Council Members Narcisse, Menin, Cabán and Gutiérrez.

Whereas, Hospitals across New York State vary widely in their price estimates for medical items and services provided in connection with inpatient admissions and outpatient visits, despite similarities in hospital size, range of services offered, and available resources; and

Whereas, Inconsistent and misleading disclosures surprise consumers with higher-than-estimated medical bills, putting them at risk for accruing medical debt and worsening socioeconomic health care disparities; and

Whereas, Inaccurate reporting in turn delays the provision of timely medical care by extending the decision-making process for potential patients; and

Whereas, A statewide survey on health care affordability conducted by PerryUndem in 2022 illustrates the concerns that New Yorkers have about the current system, as 38 percent of the 805 participants said they or a family member are sacrificing necessary health care due to costs; and

Whereas, To combat this issue, the U.S. Centers for Medicare and Medicaid Services (CMS) promulgated 45 C.F.R. part 180 (Part 180), which requires hospitals operating in the United States to provide clear, accessible pricing information online about the items and services they provide; and

Whereas, Part 180 instructs hospitals to make public a “machine-readable file” that contains the standard charges for all items and services, as well as a consumer-friendly list of “shoppable services” written in plain language; and

Whereas, Although CMS audits hospitals for compliance with Part 180 and issues civil monetary penalties to noncompliant institutions, hospitals nevertheless have been slow to comply with the price transparency rules; and

Whereas, According to a September 2022 article in Health Affairs, between July and September 2021, fewer than 6 percent of hospitals had disclosed prices as required; and

Whereas, Even when hospitals had complied with the rules, experts found the data to be inconsistent in terms of how data elements were defined and displayed, thereby making it difficult for consumers to compare across hospitals; and

Whereas, The Kaiser Family Foundation (KFF) and the Peterson Center on Healthcare published a study in February 2023 aimed at measuring how well hospital price disclosures facilitate price comparisons for consumers; and

Whereas, The study indicated that the chief difficulty in assessing the value of the price transparency data was identifying comparable items and services across hospitals, largely because the data and descriptions were inconsistent and unstandardized; and

Whereas, The KFF study concluded that hospitals should focus on facilitating simple and accessible price comparisons, and that standardization in reporting requirements would improve reliability and usability of the data; and

Whereas, A separate study published in the Journal of the American Medical Association: Internal Medicine in September 2023 examined 60 U.S. hospitals of varying rank and calculated the differences between each hospital’s online and phone prices for vaginal childbirth and brain MRI; and

Whereas, Among the hospitals where prices were available online, the online price often did not match the prices provided over the phone, and many hospital staff members were unable to provide a price despite it being available on the hospital website; and

Whereas, The results of the study demonstrate hospitals’ continued problems in knowing and communicating their prices for specific services, as well as the challenges for consumers to accurately comparison-shop for health care; and

Whereas, In an effort to ensure compliance with Part 180, the Arizona State Legislature directed the Arizona Department of Health Services in 2023 to annually verify each hospital’s compliance with federal statute and to publish a public list of all noncompliant institutions; and

Whereas, The Colorado State Legislature declared in 2022 that if a hospital is not in material compliance with hospital price transparency laws on the date that items or services are provided to a patient, that hospital shall not be permitted to pursue collection action against the patient for debts owed for those items or services; and

Whereas, In 2023, the Texas State Legislature enacted its own enforcement mechanism by authorizing the Texas Health and Human Services Commission to impose administrative penalties against noncompliant hospitals; and

Whereas, Legislation creating an independent state regulatory body in New York would lead to improvements in medical estimates because such a body could enforce standardized reporting requirements, verify each hospital's compliance with price transparency laws, and administer penalties against noncompliant institutions; and

Whereas, Such a bill should also condition certain funds for hospitals on their material compliance with the federal hospital price transparency law, rules, and regulations; and

Whereas, A.7775, also known as the Transparency in Health Care Fees Act, introduced in the New York State Assembly by Assembly Member Jo Anne Simon, would require health care providers, before performing any health care services, to advise patients in writing of the fee to be charged to the patient for the services to be rendered in the event such fee is not paid for by insurance; and

Whereas, S.8988, introduced in the New York State Senate by Senator James Skoufis, would require the State Commissioner of Health to report monthly on hospital compliance with federal hospital price transparency law, rules, and regulations, and would prohibit noncompliant hospitals from receiving funds from the state general hospital indigent care pool; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to introduce and pass, and the Governor to sign, legislation requiring greater and more consistent disclosure of medical estimates by hospitals operating in the State of New York.

A Local Law to amend the administrative code of the city of New York, in relation to the use of certain oleoresin capsicum sprays in facilities operated by the department of correction

Be it enacted by the Council as follows:

Section 1. Chapter 1 of title 9 of the administrative code of the city of New York is amended by adding a new section 9-168 to read as follows:

Res. No. 524

Resolution calling on the New York State Legislature to pass, and the Governor to sign, A.8591/S.1709, in relation to legal representation in certain mortgage foreclosure actions.

Council Members Riley and Williams.

Whereas, The Chief Administrator of the New York Courts has stated that there was a nearly 100 percent increase in foreclosure cases between 2022 and 2023, rising from 7,621 in their 2022 foreclosure report to 15,235 in their 2023 foreclosure report (2023 foreclosure report); and

Whereas, According to the National Bureau of Economic Research, a nonprofit organization that conducts research on economic issues, since the COVID-19 foreclosure moratorium was lifted in January 2022, the number of properties in pre-foreclosure has significantly increased across New York City, with Brooklyn seeing the most foreclosures; and

Whereas, For homeowners facing foreclosure, a lawyer can help them keep their home, but many homeowners struggle without legal representation due to the high cost of attorneys; and

Whereas, New York State law requires residential foreclosure parties to attend settlement conferences, which may help homeowners stay in their homes, but many homeowners attend these conferences unrepresented, increasing the risk of homeowners losing their homes; and

Whereas, In 2023 foreclosure report, 44 percent of New York homeowners in foreclosure settlement conferences lacked legal representation; and

Whereas, Navigating foreclosure without an attorney can be confusing, and homeowners often need help negotiating a repayment plan; and

Whereas, Under New York State law, no such right to have a legal counsel exists when a New York State resident is threatened with the loss of their home in a foreclosure, though the right exists in certain other types of civil proceedings, including certain family court or surrogate court matters; and

Whereas, A.8591, sponsored by Assembly Member Rodneyse Bichotte Hermelyn and pending in the New York State Assembly, and companion bill S.1709, sponsored by State Senator Leroy Comrie and pending in the New York State Senate, would provide homeowners in foreclosure proceedings who cannot afford legal representation the right to counsel assigned by the court; and

Whereas, The right to counsel in certain mortgage foreclosure proceedings, as established by A.8591/S.1709, could help homeowners negotiate more favorable terms with lenders or even avoid foreclosure altogether; now, therefore, be it

Resolved, That the Council of the City of New York calls on the New York State Legislature to pass, and the Governor to sign, A.8591/S.1709, in relation to legal representation in certain mortgage foreclosure actions.

Resolution calling on the New York State Legislature to pass and the Governor to sign, S.9867/A.10057, in relation to concealment of identity in a lawful or unlawful assembly or riot.

By Council Members Vernikov, Yeger, Paladino, Ariola, Holden, Marmorato, Carr, Borelli and Dinowitz.

Whereas, Maintaining public order and ensuring accountability during assemblies and protests is essential in safeguarding individual rights and providing for public safety; and

Whereas, The right to assemble and protest are essential to a democratic society, allowing individuals to express their views and advocate for change; and

Whereas, However, the concealment of individual identity during protests and assemblies, especially through the use of masks or disguises can escalate unlawful behavior and hinder law enforcement efforts to provide a safe environment for all; and

Whereas, In response to the COVID-19 pandemic, the Department of Health mandated the wearing of masks in public spaces in 2020, leading to the repeal of § 240.35(4) of the Penal Law which prohibited individuals from being masked or disguised in public; and

Whereas, According to various reports, people are more inclined to behave irresponsibly when their actions cannot be traced back to them, especially in times of high tension and civil unrest; and

Whereas, The five District Attorneys' offices of New York City have indicated the wearing of masks and other face coverings at demonstrations have complicated or obstructed the prosecution of people acting unlawfully because their identities were obscured; and

Whereas, S.9867/A.10057 sponsored by New York State Senator James Skoufis and New York State Assemblymember Jeffrey Dinowitz seeks to reinstate and amend provisions related to the prohibition of masks and disguises in public gatherings, ensuring that individuals cannot hide their identities while engaging in unlawful behavior; and

Whereas, The proposed State legislation includes provisions to safeguard health-related exemptions; and

Whereas, S.9867/A.10057 would support efforts to prevent the escalation of unlawful conduct during assemblies and enhance the ability of law enforcement to maintain order while respecting constitutional rights; now, therefore, be it

Resolved, That the Council of the City of New York calls on the New York State Legislature to pass and the Governor to sign, S.9867/A.10057, in relation to concealment of identity in a lawful or unlawful assembly or riot.

Resolution recognizing August as Black Business Month in New York City.

By Council Members Williams, Riley and Stevens.

Whereas, According to the latest data from the United States Census Bureau’s Annual Business Survey (ABS), there are over 160,000 Black-owned businesses in the United States, up from 124,000 in 2017; and

Whereas, The ABS estimates that Black-owned businesses contribute \$183.3 billion in annual receipts to the national economy and \$53.6 billion in annual payroll to their workers; and

Whereas, Black-owned businesses are often smaller businesses with less than 10 employees, and the ABS estimates that Black-owned businesses in the United States have employed roughly 1.4 million employees; and

Whereas, However, data from Goldman Sachs reported that Black small business owners are often more likely to face barriers accessing capital to start and run their businesses; and

Whereas, Despite difficulties securing capital, according to the United States Small Business Administration, Black business ownership rates are growing at their fastest pace in 30 years; and

Whereas, August was established nationally as “Black Business Month” in 2004 and observances of this month provide additional opportunities to highlight Black-owned businesses for consumers and investors to support and help grow; and

Whereas, Elected officials across the country have celebrated this designation or established their own; and

Whereas, In 2023, a resolution expressing support for the designation of August as National Black Business Month and honoring Black-owned businesses was introduced by Representative Jasmine Crockett in the 118th Congress; and

Whereas, In May 2024, the New Jersey Senate Commerce Committee passed a resolution designating August as “Black Business Month”; and

Whereas, In New York City, Black-owned businesses are an integral and vibrant part of the business landscape; and

Whereas, According to data from the Center for an Urban Future, between 2012 and 2017 Black-owned businesses grew by 30 percent in New York City; and

Whereas, Recent Pew Research Center data shows 3-5% of businesses in New York are Black-owned; and

Whereas, Pew Research Center also reported that the New York City metropolitan area has the largest Black population in the United States; and

Whereas, New York City hopes to increase the number of Black-owned businesses in the City by boosting Black entrepreneurship through SBS specific programming; and

Whereas, In 2023, the New York City Department of Small Business Services released a directory of over 3,300 black-owned businesses in the City, including restaurants, cafes, bars, barber shops, hair salons, clothing stores, and wine shops; and

Whereas, Recognition of Black Business Month by city officials will encourage New Yorkers to support these local black-owned businesses and boost the small business economy; now, therefore, be it

Resolved, That the Council of the City of New York recognizes August as Black Business Month in New York City.

By Council Members Williams, Riley and Stevens.

Whereas, Due to years of discrimination, women and members of minority groups have historically been shut out of contracting opportunities with government; and

Whereas, Government agencies can use their substantial contracting needs to accomplish social and economic goals like encouraging female and minority entrepreneurship through special programs to offer work to certified Minority and Women-Owned Business Enterprises (MWBEs); and

Whereas, Local Law 174 of 2019 established goals for awarding qualifying contracts to MWBEs every year; and

Whereas, Despite longstanding programs to offer more public agency work to MWBEs, the Comptroller's Annual Report on MWBE Procurement from February 2024 found only ten percent of the contract value subject to Local Law 174 goals actually went to MWBEs; and

Whereas, Certified MWBEs bidding on city contracts subject to Local Law 174 goals are frequently rejected without explanation; and

Whereas, New York State Senate Bill S.1087A would require all public corporations and agencies to provide unsuccessful bidders that are certified MWBEs with an explanation for their rejection, allowing changes to future bids that could improve the rate at which MWBEs are actually awarded qualifying contracts; now, therefore, be it

Whereas, Certified MWBEs bidding on city contracts subject to Local Law 174 goals are frequently rejected without explanation; and

Whereas, New York State Senate Bill S.8497 would require all agencies to provide unsuccessful bidders that are certified MWBEs with an explanation for their rejection, allowing changes to future bids that could improve the rate at which MWBEs are actually awarded qualifying contracts; now, therefore, be it

Resolved, That the Council of the City of New York calls on the New York State Legislature to pass, and the Governor to sign, Senate Bill S.8497, requiring agencies to provide unsuccessful bidders that are certified minority and women-owned business enterprises with a written statement articulating the reasons for rejection.

Referred to the Committee on Contracts.

Res. No. 529

Resolution calling on the United States Congress to pass, and the President to sign, H.R. 7420, the Ensuring Diversity in Community Banking Act of 2024.

By Council Members Williams, Riley and Stevens.

Whereas, Minority communities often struggle to access financial institutions, credit and investment, and have seen a loss of local bank branches in recent years, making access to banking services more challenging in these communities; and

Whereas, Community banks and credit unions often fill the gaps left in minority communities by national financial institutions; and

Whereas, Community banks also account for some of the few minority-owned financial institutions in the country; and

Whereas, New York State Department of Financial Services analyses of Federal Deposit Insurance Corporation data shows that New York has a consistently higher rate of unbanked residents than the national average; and

Whereas; New York State Department of Financial Services data indicates there are more than 452,000 unbanked households in the state, who are disproportionately Black and Hispanic; and

Whereas, New York City Department of Worker and Consumer Protection finds that 305,700 unbanked households reside in the five boroughs; and

Whereas; Community banks must be strengthened to reach these hundreds of thousands of unbanked households; and

Whereas; H.R. 7420, the Ensuring Diversity in Community Banking Act of 2024, would create an “Impact Bank” designation to distinguish those community banks that mostly serve low-income borrowers, direct regulators to create minority depositories advisory committees to advise community banks, and set rules for directing federal agencies to make deposits in these institutions; now, therefore, be it

Resolved, That the Council of the City of New York calling on the United States Congress to pass, and the President to sign, H.R. 7420, the Ensuring Diversity in Community Banking Act of 2024.

Referred to the Committee on Economic Development.

Res. No. 530

Resolution calling on the United States Congress to pass, and the President to sign, H.R. 4177, the Improving Corporate Governance Through Diversity Act of 2023.

By Council Members Williams, Riley and Stevens.

Whereas, Banking and financial services are the lifeblood of New York City’s economy, providing some of the region and country’s best paying jobs, which can be routes to upward social mobility and entrees into the commanding heights of the economy; and

Whereas, Financial services firms have not hired racial minorities at rates representative of their composition of the country's population, with black senior staff members of big banks typically accounting for less than 10 percent of employees despite comprising 14 percent of Americans; and

Whereas, The financial sector's failure to elevate a diverse range of people to senior positions and board seats has meant many communities of color in New York City have not benefitted from the massive expansion of finance over the last several decades; and

Whereas, H.R. 4177, the Improving Corporate Governance Through Diversity Act of 2023, would require certain issuers of securities to disclose the racial, ethnic, and gender composition of their boards of directors and executive officers, as well as the status of any of those directors and officers as a veteran; and

Whereas, H.R. 4177 would also require the disclosure of any plan to promote racial, ethnic, and gender diversity among these groups; and

Whereas, The bill would additionally require the Securities and Exchange Commission to report on strategies to increase gender, racial, and ethnic diversity among board members; now, therefore, be it

Resolved, That the Council of the City of New York calls on the United States Congress to pass, and the President to sign, H.R. 4177, the Improving Corporate Governance Through Diversity Act of 2023.

Referred to the Committee on Economic Development.

Res. No. 531

Resolution calling on the New York State Legislature to pass, and the Governor to sign, Senate Bill S.8139A, which would establish reciprocity between New York City and State registries of Minority and Women-owned Business Enterprises (MWBEs).

By Council Members Williams, Riley and Stevens.

Whereas, Business ownership is a significant source of household wealth creation; and

Whereas, Women and members of many racial minorities are underrepresented in the ranks of New York State's business owners, according to data from the State Comptroller; with only 23.2 percent of the state's firms owned by women, who account for half the state's population; 5.9 percent of firms owned by Hispanics, who are 19.5 percent of the state's population; and 3.4 percent of firms owned by Blacks, who are 14 percent of the state's population; and

Whereas, Programs to direct public contracts to minority and women-owned business enterprises (MWBEs) can provide a substantial source of revenue to those firms which might otherwise struggle to attract business in sectors dominated by white, male-owned legacy companies; and

Whereas, Duplicative certification processes for MWBEs to be eligible for contracts at the state and city level may discourage eligible companies from seeking as many opportunities for public contracts as possible; and

Whereas, Senate Bill S.8139A would authorize the New York State Director of the Division of Minority and Women's Business Development and the Mayor of the City of New York to enter into a memorandum of understanding to allow reciprocity between the state and city for businesses that are certified as minority and women-owned business enterprises; now, therefore, be it

Resolved, That the Council of the City of New York calls on the New York State Legislature to pass, and the Governor to sign, Senate Bill S.8139A, which would establish reciprocity between New York City and State registries of Minority and Women-owned Business Enterprises (MWBEs).

Referred to the Committee on Economic Development.

Res. No. 532

Resolution calling on the New York State Legislature to pass, and the Governor to sign S.3515/A.2220, in relation to requiring police officers to maintain liability insurance.

By Council Members Williams, Stevens and Hudson.

Whereas, Police officers and their departments can face claims of negligence, failure to protect, false arrest, excessive use of force and civil rights violations; and

Whereas, The litigation associated with defending against these claims can be costly as can settlements or judgements; and

Whereas, According to the New York City Comptroller, the number of tort claims filed against the New York City Police Department (“NYPD”) increased from 4,588 in FY 2022, to 6,891 in FY 2023, representing a 50 percent increase; and

Whereas, FY 2023 marks the first time since FY 2014 that the number of tort claims filed against the NYPD increased from the previous year; and

Whereas, According to the Comptroller’s report , NYPD tort claim settlement and judgment payouts increased from \$239.1 million in FY 2022 to \$266.7 million in FY 2023, a 12 percent increase; and

Whereas, The report also indicates the number of NYPD tort claim settlements and judgments decreased by two percent, to 2,821 in FY 2023 from 2,877 in FY 2022; and

Whereas, Payouts on NYPD tort claims accounted for 36 percent of the total overall cost of the City’s resolved tort claims in FY 2023 and the New York City Comptroller anticipates high NYPD expenditures in FY 2024 due to ongoing reversed conviction claim filings, driven by increased efforts from District Attorney’s offices to review past convictions; and

Whereas, Police professional liability insurance covers police officers and departments for acts, errors, and omissions made during their professional duties; and

Whereas, Liability insurance would significantly reduce taxpayer waste and improve police conduct as local governments would benefit saving millions, as the insurance companies and the officer would be responsible for lawsuit payouts; and

Whereas, S.3515/A.2220 sponsored by New York State Senator Nathalia Fernandez and New York State Assemblymember Alicia Hyndman seek to amend the general municipal law to require police officers to maintain liability insurance and to amend the public officers law to exclude police officers from provisions requiring defense and indemnification of state officers and employees; and

Whereas, This State legislation would require all police officers to obtain and maintain liability insurance during their employment, with their employer covering the base rate of the policy and exclude police officers and peace officers from employees indemnified and held harmless by the state; and

Whereas, S.3515/A.2220 aligns with principles of fiscal responsibility, improved public safety, and enhanced accountability, making it a prudent and necessary step for City residents; now, therefore, be it

Resolved, That the Council of the City of New York calls on the New York State Legislature to pass, and the Governor to sign S.3515/A.2220, in relation to requiring police officers to maintain liability insurance.

Referred to the Committee on Public Safety.

Stated Council Meeting

Council Chambers – City Hall.....Agenda – 1:30 p.m.

The following comments were among the remarks made by the Speaker (Council Member Adams) during the Communication from the Speaker segment of this meeting:

The Speaker (Council Member Adams) asked for a moment to remember the life of 41-year old construction worker Henry Alesna who was killed while on the job at the Washington Bridge in Manhattan. She noted that Mr. Alesna leaves behind his wife and one-year old daughter. Mr. Alesna had been struck by an SUV that had swerved into the closed lane where he was working on August 2, 2024. On behalf of the Council, the Speaker (Council Member Adams) offered her thoughts and prayers to his family and loved ones during this difficult time.

The Speaker (Council Member Adams) spoke of the importance of respect for the laws, democratic governance, and the separation of powers -- she emphasized these principles were essential to the foundation of representative democracy underpinning our city's local government. The Speaker (Council Member Adams) criticized the Mayor's Charter Revision Commission as rushed in nature and circumventing the public transparency of the legislative process in order to advance certain changes to law that did not require a Charter Revision Commission or voter referendum.

Whereupon on motion of the Speaker (Council Member Adams), the Majority Leader and Acting President Pro Tempore (Council Member Farías) adjourned these proceedings to meet again for the Stated Meeting of Thursday, September 12, 2024.
