EXECUTIVE SUMMARY

Introduction

In January 2016, the Department of Education (DOE) proposed a \$14.9 billion Capital Plan Amendment for FY2015 – 2019. This amendment proposes the same funding level, which represents an increase of \$1.4 billion from the Spring 2015 Adopted Amendment. Through this plan, we will invest in New York City’s future, continuing to create the school buildings and facilities that the City’s children need and deserve. This plan will allow for the continued advancement of our goals of growth, sustainability, equity and resilience by creating more than 44,000 seats in areas of current overcrowding and projected enrollment growth as well as taking significant steps to address pre-kindergarten need. We will continue to make investments in our infrastructure, thereby providing the framework for enhanced educational services and better facilities for the City’s more than one million school children and the teachers and staff who serve them.

Recently, methodology changes were incorporated into the DOE’s Enrollment, Capacity, and Utilization report, more commonly known as the Blue Book. More information about the methodology changes may be found in the introductory pages of the recently released 2014-15 Blue Book. As a result of the methodology changes and updated enrollment projections, the January 2016 Amendment identifies a seat need of approximately 83,000 seats, which is an increase of over 33,000 seats from the last amendment that was adopted in June 2015. We are pleased to share that this proposed amendment funds the creation of an additional 11,800 seats, which allows us to site and create new capacity in areas with persistent or projected overcrowding.

As the demand for capital investment always exceeds available funding, needs must be prioritized to ensure the most critical issues are addressed first and that we are leveraging all possible funding sources. New York State’s Executive Budget recommended a \$2 billion general obligation bond act, known as the Smart Schools Bond, which was brought before voters and passed in 2014. New York City is anticipated to receive approximately \$783 million from this bond. Bond proceeds may fund enhanced technology, expansion of pre-kindergarten classroom capacity, and the removal of Transportable Classroom Units (TCUs), including capacity required to enable their removal. We have engaged with parents and communities for their suggestions regarding the most strategic use of this funding. Based on the community input we have received, a detailed plan will be developed and submitted to the New York State Smart Schools Review Board for review and approval.

The DOE is faced with both a growing student population in pockets of some districts and an aging infrastructure. The DOE and the School Construction Authority (SCA) annually undertake a comprehensive assessment of alternatives to address the need to balance the City’s economic conditions with the projected demand for public school education. The construction of new facilities is designed to address the most critical existing and anticipated capacity needs and to

address pre-kindergarten need and class size reduction, with priority given to existing overcrowding at the neighborhood or district level. The DOE also undertakes an annual assessment of the condition of our existing buildings. This evaluation allows for the prioritization of projects for our current inventory in order to provide safe and comfortable learning environments.

KEY CHANGES: In this Proposed Amendment, key changes include new capacity projects to create approximately 11,800 additional seats, the addition of Pre-Kindergarten projects to create over 7,600 Pre-Kindergarten seats, the display of additional TCU removal projects completed and identified, as well as the identification of one additional year of Capital Investment projects.

The FY2015 – 2019 Capital Plan Amendment features the following proposed investments:

- **\$5.7 billion for Capacity.** The Capacity Program includes four elements. They are:
 - **\$4.5 billion for New Capacity,** funding more than 44,300 new seats in an estimated 81 projects will help us alleviate existing over-crowding, respond to ongoing pockets of growth in some neighborhoods, and support our goal to remove all TCUs. In addition, the DOE has secured the opportunity to include new public school facilities across the City within several major, predominantly residential development projects undertaken by private developers in areas of existing or projected overcrowding.
 - **\$670 million for Pre-Kindergarten Initiative** – A robust and comprehensive approach that identifies new opportunities to increase our pre-kindergarten seat capacity by more than 7,600. This is achieved by expanding the projected capacity within new build projects and by identifying additional new locations.
 - **\$490 million for Class Size Reduction,** by targeting additional resources to areas in need, we are proposing an additional 4,900 new seats and making a significant investment in reducing class sizes system-wide.
 - **\$62 million for Facility Replacement Program** – provides funding for the development of seats for schools that must be relocated during this Plan. In some instances, a landlord may refuse to renew a lease. In other instances, we may choose to relocate students from a site that is no longer appropriate for those students. Funds in this category cover the costs to construct a new building or to build out a new leased location.
- **\$5.5 billion for Capital Investment.** The Capital Investment portion of this Plan includes two main categories:

- **\$3.6 billion for the Capital Improvement Program (CIP)**, which includes exterior and interior building upgrades and other necessary capital repairs to our buildings.
- **\$1.4 billion for School Enhancement Projects** is designed to enhance the educational opportunities for our children. This category includes funding to support technology enhancements, realignment of existing facilities and the addition of pre-kindergarten capacity. Also included in this category are bathroom upgrades, physical fitness projects, science labs, accessibility and other necessary improvements.
- In addition, funding in the amount of approximately \$490 million has been provided from the City Council, Borough Presidents, and Mayor/Council sources.
- **\$3.7 billion for Mandated Programs.** This program provides funding in order to meet requirements by local law, City agency mandates and other required elements such as remediation and building code compliance projects, insurance, and emergencies. Under this program, all remaining light fixtures containing polychlorinated biphenyls (PCBs) in school buildings will be replaced. In addition, funding is allocated to continue boiler conversions as required by the NYC Department of Environmental Protection's (DEP) regulation to phase out the use of Number 4 oil by 2030.

PUBLIC REVIEW: The Proposed FY2015 – 2019 Capital Plan will continue the public input process implemented under the FY2005 – 2009 Plan and continued under the FY2010 – 2014 Plan. During this process, a draft plan or amendment will be released and during the public review period, the DOE meets with Community Education Councils (CEC), Community Boards, New York City Council Borough Delegations and other elected officials. An update incorporating the results of those meetings is released in the Spring. The Panel for Education Policy reviews the Spring amendment and following PEP approval, it is forwarded to the Mayor and the City Council for review and approval as part of the City's annual budget adoption process. This allows for increased transparency and results in expanded review and dialogue.

FY2010 – 2014 Capital Plan: New Capacity Projects in Construction

New Capacity Status:

- Between September 2010 and September 2015, 21,807 seats funded by the FY2010 - 2014 Plan became available in schools across all five boroughs.

- In the next two years, more than 5,000 additional seats will open.
 - September 2016: 2,733
 - September 2017: 2,675

A table providing geographic detail of seats coming online in the next two years is provided in the appendices.

Structure of the FY 2015 – 2019 Capital Plan

The FY2015 – 2019 Capital Plan enhances the structure of the FY2010 – 2014 Capital Plan by combining all code, mandate and regulation related programs under a new top level category: Mandated Programs. Therefore, there are now three major categories: Capacity, Capital Investment and Mandated Programs. **Capacity** includes all initiatives that create new school facilities, **Capital Investment** includes all programs undertaken to improve and upgrade existing facilities and **Mandated** includes all initiatives to comply with new mandates and existing, local laws and codes as well as prior plan completion costs, wrap up insurance and emergencies.

As in the FY2010 – 2014 Plan, the proposed new Capacity projects are identified for all five years. Capital Investment projects that renovate existing buildings, however, are identified only for the first four years of the plan (FY2015, FY2016, FY2017, and FY2018), with funding allocations for the remaining one year. Each annual plan amendment will identify individual projects for one additional year of the Capital Plan. The annual amendment process allows the DOE to reassess priorities and to take into account shifts in enrollments, variations in housing growth, changes in building conditions, new educational initiatives, adjustments in the construction marketplace, and incorporate any impact from financial changes implemented by the City or State. This annual review has proven to be the most effective way to make the Capital Plan a living, working document that, within budgetary constraints, keeps pace with the needs of the educational system.

Each section has a summary table showing the proposed funding for each category of the Plan.

Capacity

The **Capacity** category includes all programmatic elements related to creating, expanding or replacing school buildings, or capacity in our school system. Four key elements of the Capacity category in this Plan include: accommodating existing overcrowding and projected enrollment growth at the neighborhood level within districts with identified need, creating a far reaching

expansion in pre-kindergarten capacity, investing in new capacity to reduce class size, and replacing seats.

The analysis for this Plan includes a multi-dimensional review and analysis of localized capacity and enrollment patterns within each district. The result is a set of recommendations for each district that take into account the needs within each area of the district within funding limitations. These recommendations will be reviewed annually based on updated enrollment projections, capacity changes and housing information.

This *New Capacity Program* proposes a \$4.5 billion investment for an estimated 81 projects adding over 44,300 seats Citywide. The program includes:

- 48 projects for small primary school buildings, grades pre-kindergarten – 5
- 25 projects for larger buildings which can be flexibly programmed for PK-5, middle schools, or support two organizations, one serving PK-5 and the other 6-8.
- Four projects for middle/high school buildings to serve secondary or high schools
- Four buildings with 2,641 seats will be funded for design in this plan and construction in the next plan.

This new capacity, coupled with strategies to align current facilities with enrollment needs will assist the DOE in:

- Reducing localized overcrowding within districts
- Enabling removal of all TCUs

Continuing the practice initiated under the FY2005 – 2009 Plan, the design of the larger facilities to be built will provide the flexibility to program spaces to serve PK-5, middle school, or support two organizations, one serving PK-5 and the other serving 6-8. In order to meet the growing demand, and consistent with the goal of serving students with disabilities in the least restrictive, appropriate setting, new PS and larger PS/IS facilities will continue to include facilities designed to serve students with disabilities.

The *New Capacity Program* also includes a \$490 million investment in class size reduction, which will generate an additional 4,900 seats.

The Capacity category also includes the *Pre-Kindergarten Initiative* (\$670 million). These funds will enable the creation of over 7,600 new pre-kindergarten seats.

The final element of our Capacity category, the *Facility Replacement Program* (\$62 million) continues the initiative begun under the FY2005 – 2009 Plan to provide replacement sites for those schools or administrative facilities that must vacate their current locations.

Capital Investment

The **Capital Investment** category (**\$5.5 billion**) includes the *Capital Improvement Program* (CIP) (\$3.6 billion) and *School Enhancement Projects* (\$1.4 billion). CIP projects cover infrastructure work in our existing buildings. Our current inventory of facilities is mainly comprised of older assets and includes over 170 buildings that are at least 100 years old. The needs identified under this Plan are based on several factors, including the annual Building Condition Assessment Survey (BCAS) which provides an evaluation of the condition of our building systems. We use this evaluation in conjunction with recommendations from facility personnel, school administration and the community in developing the projects to be included in this Capital Plan. While we will continue to maintain our focus on ensuring that buildings are watertight and safe, we will also ensure funding to facilitate the removal of all remaining TCUs.

School Enhancement Projects (\$1.4 billion) continue the work from the FY2010 - 2014 Plan to upgrade instructional spaces in existing buildings. The two main programs in this category are Facility Enhancements and Technology.

Facility Enhancements support key initiatives such as restructuring under-used spaces to increase capacity for programmatic uses such as safety and security, expanded accessibility, and middle school science lab upgrades. In addition, this category includes upgraded physical fitness spaces and upgrades for libraries and auditoriums. The Facility Enhancement Program also provides funding for new initiatives such as cafeteria serving lines and bathroom upgrades.

The DOE will continue developing and expanding its technology infrastructure in school buildings to provide all its students and educators with the necessary tools for academic achievements and professional success in today's environment. This Capital Plan will allow the DOE to build on the success and investments of prior Capital Plans to ensure that schools will be able to continue to meet new technological challenges in the coming years, especially the ability to ensure equitable access for all students and educators.

Mandated Programs

The **Mandated Programs** category (**\$3.7 billion**) includes funding for non-discretionary elements such as remediation/code compliance work, prior plan completion costs, emergency work, building condition assessments, and contractor insurance. This category also includes funding for projects required by local law or City agency mandates.

In April 2011, the City finalized a Department of Environmental Protection (DEP) rule that phases out the use of two highly polluting forms of heating oil – Number 6 oil and Number 4 oil.

The phase out of Number 6 oil was completed in 2015. Phase out of Number 4 oil is mandated by 2030. In this Proposed Amendment, we have allocated \$750 million to convert boilers at approximately 125 of 380 buildings currently using Number 4 oil. Eliminating the use of heavy oils and transitioning to the cleanest fuels will comply with this mandate. This level of spending paces boiler conversions evenly across the Capital Plans between now and the 2030 mandate.

The DOE is on track to fulfill its agreement with the City to replace all polychlorinated biphenyl (PCB) containing light fixtures by the end of December 2016 rather than by 2021 as originally envisioned. The DOE is allocating \$480 million to complete the replacement and removal of all remaining PCB containing lighting fixtures. The anticipated total cost of this program, since its inception, will be approximately \$1 billion.

CAPACITY

Capacity

Introduction

SUMMARY
Proposed Amendment
\$5,683.1 mm
2015 Adopted Amendment
\$4,810.0 mm

The **Capacity Category** encompasses all aspects of creating new seats necessary to provide for the expansion of our system and the replacement of seats no longer available. This new capacity provides the infrastructure necessary to continue advancing our goals of growth, sustainability, equity and resilience. In doing this, the City will meet local enrollment demands, strategically grow facilities to meet future demand, and eliminate our reliance on temporary facilities.

As a result of additional funding that has been made available by the City, we are able to fund the design and construction of 11,800 additional seats. The DOE will also work with the administration on two Mayoral initiatives which may lead to capacity needs: “Housing New York: A Five-Borough, 10-Year Plan” to build or preserve 200,000 affordable housing units throughout New York City, and the investment in Community Schools which may result in adjustments to enrollment projections or capacity needs. The DOE will continue to work with the New York City Department of City Planning (DCP) as well as other partners in the Administration on any land use proposal or other actions as part of the Housing New York plan and will assess the impacts of the investment to Community Schools on school enrollment and utilization.

Although public school enrollment is projected to only slightly increase Citywide, localized growth may be higher in some areas. This growth, combined with existing overcrowded areas and methodology changes to the Blue Book, requires new construction to meet capacity needs in certain areas of the City. As a result, through the new Capacity Program, over 44,300 new seats will be created in areas within districts that have or are projected to experience overcrowding in the next five years in the absence of the additional capacity.

During the prior two Capital Plans, the DOE also secured the opportunity to include new public school facilities across the City within several major, predominantly residential, development projects undertaken by

private developers in areas of existing or projected overcrowding. The partnerships with these developers allow the DOE to provide new school facilities in areas of need with contributions of land or space by those developers. Continuing this practice, over 5,000 seats within developments projected to begin during this Five-Year Plan are funded for design or design and construction including: Hudson Square Rezoning, Trinity Place Holdings, and Hudson Yards in Manhattan; Crotona Park East/West Farms Rezoning in the Bronx; Atlantic Yards, Greenpoint Landing and Domino Redevelopment in Brooklyn, and Halletts Point Rezoning in Queens. Finally, the DOE will continue to monitor conditions at the NYU Core development, as well as in the vicinity of the City's Seward Park Mixed-Use Redevelopment Project (both in Manhattan), where City-owned land has been reserved for future school construction should it be determined necessary. The inclusion and schedule of each of these developer projects in the Plan is contingent upon the advancement of each of the developments.

The schools and programs to inhabit these facilities will be determined on the basis of extensive discussions with community stakeholders. Details regarding new schools and the ability to provide input can be found at: <http://schools.nyc.gov/community/planning/default.htm>

In addition to new construction, the DOE will continue to employ, wherever possible, two strategies undertaken in the prior two Capital Plans to create new capacity. These strategies were designed to maximize our resources and included revitalization of the Education Construction Fund (ECF) and expansion of leasing as a means to build seats in districts and neighborhoods where finding new construction sites has proven to be difficult. The DOE will also work closely with other City agencies to ensure that major residential developments provide appropriate resources to assist in mitigating the impact created by these projects.

As part of the Capacity Program, the DOE has allocated \$670 million specifically for the support and development of pre-kindergarten seats. The Pre-Kindergarten Initiative supports capital investment for the creation of new pre-kindergarten seats in all five boroughs and investing in closing the access gap to pre-kindergarten in neighborhoods throughout the City.

Funding in the amount of \$490 million has been allocated towards Class Size Reduction. We are proposing a significant investment in reducing class sizes system-wide by creating an additional 4,900 new seats. To date, three projects have been identified and are located in districts 11, 19, and 29.

Funding under the Replacement Program of the Capacity category allows us to provide for the development of seats for schools that must be relocated. These sites will be included in the Plan as they are identified.

New Capacity Program

SUMMARY	
Proposed Amendment	\$4,461.1 mm
2015 Adopted Amendment	\$3,450.0 mm

The creation of additional capacity is directly connected with the goals of supporting student enrollment growth, sustainability, equity and resilience. In the service of these goals, the DOE has identified prospective investments by gathering the best possible information about capacity needs in local communities and the available resources in the system to meet those needs.

This process starts with understanding challenges that can be solved through structural and systems solutions. Such challenges might include school quality, current learning conditions such as overcrowding, patterns of student enrollment, and unmet demand for particular types of schools or programs within schools. The City will seek solutions to these challenges first through the resources that already exist within the DOE. Thus, where the DOE proposes future investment in this Plan, it does so having assessed its ability to change structures, and having concluded that capital investment is the optimal – perhaps only – means by which to address current or future needs.

There are areas where growth is projected to continue or where over-enrollment persists. These are local conditions, requiring truly local analysis. Therefore, in creating this Plan, the DOE has analyzed current capacity figures, capacity scheduled to become available over the next several years, and long-term enrollment and housing projections. The DOE further assessed spaces below maximum utilization – building by building – to determine the viability of plans to change the instructional usage or enrollment constraints for those spaces. Such analysis yields understanding of both problems – such as over-enrollment or lack of student choice – and solutions, which include a capital investment or the

repurposing of current resources. This type of local analysis and planning is ongoing and will be continually responsive to local enrollment and facilities conditions, just as the Capital Plan is amended annually.

As a result of methodology changes to the Blue Book and updated enrollment projections, the DOE's capacity analysis has changed since the 2015 Spring Amendment was published. The DOE has identified an overall need of approximately 83,000 seats Citywide, which represents a 33,000 seat need increase.

We are pleased to share that this proposed amendment funds the creation of an additional 11,800 seats over the 32,629 seats funded in the 2015 Adopted Amendment, so that a total of 44,348 seats are funded in this proposed amendment. The additional funded seats allow us to site and create new capacity in areas with persistent and projected overcrowding. Total new capacity funding in this proposed amendment does not allow us to address the total need, but we are confident that the additional funded seats will further our goal of addressing the seat need across the City. Of the 44,348 new capacity seats, 41,707 seats are funded for design and construction and 2,641 seats for design only during this Plan. These 44,348 seats include seats that were funded but not started in the prior Plan. The chart below identifies the new capacity currently funded in the Plan and the additional need by district for elementary and middle schools and by borough for high schools. The chart also includes the status of the seats already in process.

District	Sub-District	Total January 2016			Number of Seats in Scope / Design
		Identified Need	January 2016 Funded Need	Additional Need (Unfunded)	
2	Tribeca / Village	1,970	1,928	42	1,492

Staten Island High School		400	345	55	345
Total		82,811	44,348	38,463	13,556

*Area includes the project funded for design only.

Note: 2,641 seats identified above are funded for design in this plan and construction in the next plan.

The new school buildings funded for construction in the Proposed Amendment are:

- 48 projects for small primary school buildings, grades pre-kindergarten–5
- 25 projects for larger buildings which can be flexibly programmed for primary, middle or planned two separate schools to be co-located
- Four projects for middle/high school buildings to serve secondary or high schools

The Plan provides for the creation of seats in every borough. This includes five projects for PS or PS/IS school buildings in Manhattan, ten in the Bronx, 26 in Brooklyn, 28 in Queens, and four in Staten Island. Of the four projects for IS/HS school buildings proposed, one will be located in Staten Island and three in Queens. In addition, 2,641 seats (in four buildings) are funded for design in this plan and construction in the next plan.

*District which includes seats that are funded for design in this Plan and construction in the next Plan.

Notes: Number of projects may vary depending upon availability and configuration of sites and appropriate leased spaces.

All dollar amounts are represented in millions.

Excludes \$4.22 mm for potential site specific/environmental/code costs.

In recent years, our population of students with disabilities has been increasing. This is true of students served by District 75 and those included in district-based programs located in schools that serve both general education and students with disabilities. The FY2005–2009 and FY 2010–2014 Capital Plans provided approximately 6,800 seats in newly constructed buildings for District 75 use with additional classrooms provided for district-based programs. In this Plan we continue the DOE’s responsiveness to the enrollment growth of students with disabilities by designing capacity for students with disabilities in all new capacity projects.

Pre-Kindergarten Initiative

SUMMARY	
Proposed Amendment	\$670.0 mm
2015 Adopted Amendment	\$520.0 mm

The Capital Plan recognizes the commitment and desire to implement a truly universal full day pre-kindergarten program. The DOE has identified the major expansion and enhancement to the existing pre-kindergarten program as a critical objective. In order to support this goal, the Pre-Kindergarten Initiative will address the capital investments needed Citywide to increase the number of seats for full day pre-kindergarten.

This funding will allow expansion of the number of pre-kindergarten classrooms in new buildings that are being constructed for elementary use, as well as leasing space for pre-kindergarten centers. In seeking opportunities to lease non-traditional space we open a new avenue of possibilities that previously went untapped. These investments in our future will ensure a greater availability and distribution of pre-kindergarten seats than currently available.

The Pre-Kindergarten Initiative provides for the creation of seats in every borough, opening high quality opportunities, and closing the access gap for neighborhoods throughout the City. The list of Pre-Kindergarten centers that are in design or construction can be found in the appendices.

Class Size Reduction Program

SUMMARY
Proposed Amendment
\$490.0 mm
2015 Adopted Amendment
\$490.0 mm

The Class Size Reduction Program recognizes the need for targeted investments to build additions or new buildings near school buildings that would significantly benefit from additional capacity. By investing additional resources, we not only address a critical issue, but we bring a greater level of equity to our school usage within districts. The \$490 million program signals a significant investment and commitment to reducing class sizes system wide by creating approximately an additional 4,900 seats.

A multi-disciplinary group comprised of representatives from the Office of Space Planning, the Office of Student Enrollment, the Division of Operations, and the School Construction Authority meet on a regular basis to discuss and evaluate which school buildings may benefit most from the funding in this category and to establish the criteria to be used when choosing school buildings. Some of the criteria to be considered include:

1. High rate of overutilization per enrollment and capacity figures established by the latest Enrollment, Capacity, and Utilization Report
2. Unfunded seat need in the sub-district where school building is located
3. Use of Transportable Classroom Units
4. Geographic isolation

With this amendment we identify the first Class Size Reduction projects:

Borough	District	Building Name	Address
Bronx	11	P.S.19	4318 Katonah Avenue
Brooklyn	19	East New York Family Academy	2057 Linden Boulevard
Queens	29	P.S. 131	170-45 84th Avenue

Facility Replacement Program

SUMMARY
Proposed Amendment
\$62.0 mm
2015 Adopted Amendment
\$350.0 mm

The Facility Replacement Program allocates \$62 million to provide for the development of seats for schools that must be relocated. While this amount is less than the allocation made in the 2015 Adopted Amendment, the Facility Replacement Program will be closely monitored for any sites that may require the identification of replacement seats. As sites are identified, the locations will be included in the Capital Plan. The seats will be provided

through new construction or alternative leasing opportunities, similar to new capacity. Projects identified as part of this program are provided in the appendices.

CAPITAL INVESTMENT

Capital Investment

Introduction

SUMMARY
Proposed Amendment
\$5,514.7 mm
2015 Adopted Amendment
\$5,230.8 mm

The **Capital Investment** category includes two elements: the Capital Improvement Program and School Enhancement Projects. The capital improvements for existing facilities included in the FY2015–2019 Proposed Amendment continue the DOE’s effort to provide a safe and comfortable learning environment which helps to maximize every student’s opportunity to learn. The Capital Improvement Program (CIP) consists of a wide range of construction projects, including building repairs and system replacements. Our efforts to improve the quality of our school buildings have been effective, but the size and age of our building inventory drives the continuing need to invest. School Enhancement Projects provide enhancements to existing facilities to support modern instructional models.

Capital Improvement Program

SUMMARY
Proposed Amendment
\$3,616.8 mm
2015 Adopted Amendment
\$3,306.7 mm

The emphasis of the FY2010-2014 Five-Year Plan was on exteriors, in order to safeguard existing buildings from water infiltration and interior improvements. Because of the size and age of our inventory, the efforts to safeguard existing buildings from water infiltration will continue and, to the extent our funding allows, additional resources are proposed to fund interior improvements.

The Capital Improvement Program for existing buildings totals \$3.7 billion. This funding allows DOE to address essentially only the most critical building elements: those rated a “5” (poor) by the Building Condition Assessment Survey (BCAS). In addition, a small number of building elements that were rated “3” (fair) or “4” (fair to poor), but have deficiencies that may adversely impact life safety or the structure of the building, will also be included. In some cases, exterior components rated “3” or “4” at buildings that are slated for extensive exterior work may be included as well.

Capital Improvement Program Overview		
Program	Proposed Amendment	2015 Adopted Amendment
Exterior	\$2,146.5 mm	\$1,859.7 mm
Interior	\$830.0 mm	\$758.0 mm
Other	\$65.3 mm	\$84.0 mm
TCU Removal and Playground Redevelopment	\$450.0 mm	\$480.0 mm
Athletic Field Upgrades	\$125.0 mm	\$125.0 mm
TOTAL	\$3,616.8 mm	\$3,306.7 mm

HURRICANE SANDY UPDATE: While the devastating effects of Hurricane Sandy continue to be felt throughout the City, State and northeast region, we are happy to share that the majority of our Sandy repair projects will be completed by next year.

Many of our school buildings sustained varying degrees of damage as a result of this storm. The Division of School Facilities (DSF) personnel undertook efforts in several buildings to address the storm damage. In more severely damaged buildings, emergency work was performed by the SCA. These efforts enabled the DOE to reopen these buildings in the fastest time frame possible to our school children, many of whom were displaced from their homes.

While this work allowed us to ensure the buildings were safe for occupancy, many buildings required more extensive work, and we are well on our way to repairing the damage incurred. We continue to work with the Federal Emergency Management Agency (FEMA) to obtain assistance for the restoration and resiliency of the infrastructure in the Sandy affected buildings. We remain committed to ensuring all our Sandy impacted buildings are restored and strengthened and will work with our partners at the Federal, State and City level to secure this. Our commitment extends to all Sandy work, from the removal of the temporary heating systems to finishes in our school buildings. In the appendices, a separate list of the proposed projects is included in this Proposed Amendment.

Exteriors

SUMMARY	
Proposed Amendment	\$2,146.5 mm
2015 Adopted Amendment	\$1,859.7 mm

Water infiltration is the single greatest cause of accelerated deterioration of existing facilities. The costs stemming from water infiltration include measures needed to correct damage to interior walls, floors and ceilings, and also include related asbestos and lead abatement. The disruption of teaching and learning in classrooms damaged by water leaks is even more concerning than the cost implications. For that reason, the last Five-Year Plan focused on making schools watertight. This Plan continues that important effort.

The major components of a building's exterior are roofs, parapets, windows, and masonry. If the BCAS ratings for any building indicated that any of these four major components were in "poor" condition, then most of the other major exterior components rated "3" or worse will be included in the project.

The proposed funding for exterior components is summarized below:

Exteriors Overview		
Program	Proposed Amendment	2015 Adopted Amendment
Flood Elimination	\$325.5 mm	\$218.8 mm
Reinforcing Support Elements	\$15.0 mm	\$21.3 mm
Reinforcing Cinder Concrete Slabs	\$17.8 mm	\$32.4 mm
Roofs	\$345.6 mm	\$285.9 mm
Parapets	\$340.3 mm	\$389.1 mm
Exterior Masonry	\$929.1 mm	\$689.6 mm
Windows	\$173.2 mm	\$222.6 mm
TOTAL	\$2,146.5 mm	\$1,859.7 mm

Interiors

SUMMARY	
Proposed Amendment	\$830.0 mm
2015 Adopted Amendment	\$758.0 mm

The Five-Year Plan for interiors includes capital work identified by the BCAS and work required to support educational needs.

Components of the interior program include electrical upgrades, plumbing, low-voltage electrical systems, and mechanical systems that may be replaced rather than repaired based on age, condition and future ability to maintain. Under this Proposed Amendment, funding is dedicated to the replacement of antiquated fire alarms, as well as installation of building wide public address systems.

Interior work in occupied buildings continues to be one of our most challenging undertakings. We have developed extensive protocols to perform the most intrusive work over the summer months, schedule work after normal

school hours during the year and work closely with the school communities to schedule work during holidays. This is not always the most cost effective means of performing the required work, but it assures the safety of our students and teachers and minimizes the disruption to the instructional program.

The major interior system needs being addressed are summarized below:

Interiors Overview		
Program	Proposed Amendment	2015 Adopted Amendment
Low-Voltage Electrical System	\$147.9 mm	\$224.1 mm
Interior Spaces	\$54.8 mm	\$28.7 mm
Cafeteria/Multipurpose Room (excludes SchoolFood's Initiative)	\$0.8 mm	\$32.3 mm
Climate Control (excludes Mandated Program)	\$67.4 mm	\$29.8 mm
Air Conditioning Retrofit	\$11.1 mm	\$7.9 mm
Boiler Conversions (excludes Mandated Program)	\$39.5 mm	\$30.3 mm
Elevators & Escalators	\$8.8 mm	\$18.5 mm
Floors	\$3.4 mm	\$16.5 mm
Electrical Systems (excludes projects under Facility Restructuring)	\$40.2 mm	\$77.3 mm
Toilets – Staff	\$0.1 mm	\$0.0 mm
Heating Plant Upgrade	\$406.5 mm	\$252.6 mm
Domestic Piping (non-mandated projects)	\$42.8 mm	\$28.2 mm
Safety Systems	\$6.7 mm	\$11.8 mm
TOTAL	\$830.0 mm	\$758.0 mm

Transportable Classroom Unit Removal/ Playground Redevelopment

SUMMARY
Proposed Amendment
\$450.0 mm
2015 Adopted Amendment
\$480.0 mm

The DOE continues its commitment to remove all the Transportable Classroom Units (TCUs) across the City. The Proposed Amendment supports this effort by allocating funding for the removal of all units. The schedule of removal of each unit is contingent upon capacity constraints within the area and the desires of local school communities.

Several new capacity projects in the form of additions have been created in sites that currently contain TCUs. As a result of these additions, 24 TCUs will be removed and the costs of the TCU removal will be included with the

addition projects, which allow us to shift 30M in funding from the TCU category to the New Capacity category.

To date, 73 TCUs have been removed, and 113 out of the approximately 280 remaining TCUs are identified for removal. Below chart displays the TCUs that have been removed

DISTRICT	BUILDING NAME	NO OF TCUS	REMOVAL STATUS

Athletic Field Upgrades

SUMMARY	
Proposed Amendment	\$125.0 mm
2015 Adopted Amendment	\$125.0 mm

The DOE is expanding the physical fitness opportunities for our school children by undertaking a new initiative to upgrade existing athletic fields. We are currently evaluating the condition of all existing athletic fields and will leverage limited resources to maximize the reach of this program.

School Enhancement Projects

SUMMARY	
Proposed Amendment	\$1,410.1 mm
2015 Adopted Amendment	\$1,336.0 mm

The projects in this category continue the work from the FY2010 - 2014 Plan to upgrade instructional spaces in existing buildings. The two main programs in this category are Facility Enhancements and Technology.

School Enhancement Overview		
Program	Proposed Amendment	2015 Adopted Amendment
Facility Enhancements	\$760.1 mm	\$686.0 mm
Technology	\$650.0 mm	\$650.0 mm
TOTAL	\$1,410.1 mm	\$1,336.0 mm

Facility Enhancements

SUMMARY	
Proposed Amendment	\$760.1 mm
2015 Adopted Amendment	\$686.0 mm

The Facilities Enhancement Program funds facility adjustments that enable changes to instructional offerings in particular buildings. This program complements new capacity investment by ensuring that space already in service is aligned with the goals of meeting demand, improving learning conditions, using resources efficiently, and improving student achievement.

The Facilities Enhancement Program provides funding to enhance our safety and security systems, expand the functional accessibility of our facilities, and upgrade science, library, auditorium, bathroom and physical fitness facilities.

Facility Enhancements Overview		
Program	Proposed Amendment	2015 Adopted Amendment
Facility Restructuring	\$365.4 mm	\$215.0 mm
Safety & Security	\$100.0 mm	\$100.0 mm
Middle School Science Lab Upgrades	\$50.0 mm	\$50.0 mm
Accessibility	\$100.0 mm	\$100.0 mm
Physical Fitness Upgrades	\$29.8 mm	\$49.0 mm
Library Upgrades	\$0.9 mm	\$35.3 mm
Auditorium Upgrades	\$14.0 mm	\$36.7 mm
Bathroom Upgrades	\$100.0 mm	\$100.0 mm
TOTAL	\$760.1 mm	\$686.0 mm

Facility Restructuring

SUMMARY
Proposed Amendment
\$365.4 mm
2015 Adopted Amendment
\$485.0 mm

The Facilities Enhancement Program funds facility adjustments that enable changes to instructional offerings in particular buildings. This program complements new capacity investment by ensuring that space already in service is aligned with the goals of meeting demand, improving learning conditions, using resources efficiently, and improving student achievement.

In the Proposed FY2015-2019 Capital Plan, the restructuring of existing buildings will include:

- Conversion of unused shops/extra-large classrooms to create more capacity.
- Construction of School Based Health Centers in Renewal Schools
- Electrical upgrades to buildings experiencing large increases in utilization rates that tax their electrical systems.
- A program to renovate cafeterias to support School Food’s mission to promote healthy and attractive food choices to students while serving students more quickly and efficiently.
- Creation of community school features in existing schools in support of the Mayoral initiative.

Safety and Security

SUMMARY
Proposed Amendment
\$100.0 mm
2015 Adopted Amendment
\$100.0 mm

The Safety Enhancements Program provides schools with state-of-the-art security technology as a key component of the DOE’s comprehensive strategy to promote and sustain a climate of safety in all New York City public schools. Enhancements have been implemented through the prior two Capital Plans in the areas of network-based video surveillance, ID-card access control, radio communications, and metal detection. Innovation in these areas will continue throughout the Proposed Capital Plan

During the FY 2015-2019 Plan, the DOE plans to continue the implementation of Internet Protocol Digital Video Surveillance (IPDVS). As of March 1, 2016, this application has been successfully implemented in 638 buildings serving 1,024 schools, with a total of 27,041 cameras online. The IPDVS application allows authorized school officials to view live and archived camera images directly on their computer stations and provides remote viewing capability to authorized personnel from borough and central offices. Updated IPDVS standards were issued in July 2015 to provide megapixel cameras with far superior image quality compared to cameras deployed in earlier years.

Middle School Science Lab Upgrades

SUMMARY
Proposed Amendment
\$50.0 mm
2015 Adopted Amendment
\$50.0 mm

One of the DOE’s priorities is to provide quality instruction in the sciences. The FY2010–2014 Capital Plan completed its goal of providing science facilities in all buildings housing high schools students, where appropriate. The FY2015–2019 Proposed Amendment will continue the effort by ensuring all middle school students have access to grade appropriate science facilities within their buildings.

Accessibility

SUMMARY
Proposed Amendment
\$100.0 mm
2015 Adopted Amendment
\$100.0 mm

The DOE strives to offer access to a range of programs for students with mobility impairments and other physical disabilities. In keeping with prior Plans, the DOE will continue the program to provide additional accessible facilities throughout the City. In this Proposed Amendment, 18 accessibility projects have been identified. 16 accessibility projects are identified in the appendices of this plan. Both Q071 and K263 are not shown in the appendices because they are funded from alternative sources. A cross-functional committee including the Space Management Group, School Construction Authority, Division of School Facilities, Office of Student Enrollment, Division of Specialized Instruction, and the Office of the General Counsel’s legal office works to identify specific projects and ensure

equity across districts in providing access for students with physical disabilities.

Physical Fitness Upgrades

SUMMARY
Proposed Amendment
\$29.8 mm
2015 Adopted Amendment
\$49.0 mm

The DOE understands the importance of incorporating physical fitness into the daily routine of school children. As such, we are allocating funding to swimming pools and gymnasium upgrades as specified below. Other physical fitness upgrades include TCU Removals/Playground Redevelopment and Athletic Field Upgrades under Capital Improvements.

Physical Education Upgrades Overview		
Program	Proposed Amendment	2015 Adopted Amendment
Swimming Pools	\$15.9 mm	\$15.3 mm
Gymnasium Upgrades	\$13.9 mm	\$33.7 mm
TOTAL	\$29.8 mm	\$49.0 mm

Library Upgrades

SUMMARY
Proposed Amendment
\$0.9 mm
2015 Adopted Amendment
\$35.3 mm

Library upgrades include work related to refurbishing existing library facilities within our schools. School libraries provide resources to support curriculum, instruction, and specialized efforts geared to improving student literacy.

Auditorium Upgrades

SUMMARY
Proposed Amendment
\$14.0 mm
2015 Adopted Amendment
\$36.7 mm

Auditorium upgrade projects may include stage and auditorium lighting, sound system upgrades, replacement of seating, stage curtains and rigging, and renovation of the stage. These spaces serve an important function as central gathering places for the school population and often serve as a vital community resource for the surrounding neighborhood as well. As such, the resources identified in this category will be applied strategically to ensure the maximum benefit possible.

Bathroom Upgrades

SUMMARY
Proposed Amendment
\$100.0 mm
2015 Adopted Amendment
\$100.0 mm

As our large inventory of buildings age, the need to upgrade certain facilities within our buildings becomes more pressing. Bathroom upgrades are frequently requested. Although bathrooms are functional, some may be outdated. Under this Proposed Amendment, we are continuing the new program to upgrade student bathrooms. A list of the identified buildings receiving bathroom upgrades is included in the appendices.

Technology Enhancements

SUMMARY
Proposed Amendment
\$650.0 mm
2015 Adopted Amendment
\$650.0 mm

Funding in the FY2015-2019 Plan, besides increasing bandwidth connectivity in schools, will also increase the capacity of each classroom to support ever-more widespread and intensive use of web-enabled devices to access a range of digital learning tools. This investment in bandwidth is critically important to the implementation of a range of DOE instructional priorities – including Computer Science for All, the City’s commitment to ensuring that all students have the opportunity to receive computer science instruction, and associated programs including the Software Engineering Pilot and Advanced Placement Computer Science courses.

The integration of technology into instruction is increasingly prevalent not only in computer science, but across subject areas. Digital tools support teaching and learning in subjects ranging from reading, to social studies, to algebra, and beyond. Accordingly, the number of web-enabled devices present in schools is expected to continue to increase substantially over the period of this plan. New devices funded by tech-focused grants from New York State and other entities, coupled with the City’s recent lift of the ban on student cell phones in schools, will place unprecedented demand upon the DOE’s internet infrastructure. Additionally, this investment in infrastructure supports growing use of web-based tools to engage a parent around their students’ academic work, and in the life of their schools more generally.

The New York State Education Department (NYSED) has also communicated to districts its intent to transition to computer-based testing (CBT). Starting in 2016, the New York State Alternate Assessment (NYSAA) will be administered using a computer-adaptive assessment, and there will be field testing of computer-adaptive assessments in English Language Arts (ELA) and Mathematics in grades 3 through 8. Beginning in 2017, NYSED intends to offer the option of completing ELA and Math assessments online, and in the years that follow to transition fully to CBT.

Large portions of a school's student population will be accessing online assessment portals simultaneously, and schools must have the bandwidth capacity to ensure that students do not become disconnected or experience performance issues during assessments.

The DOE will mitigate the risks of any problems occurring as well as strengthen our digital network through investing in the necessary upgrades to provide increased broadband capacity to our schools. 54 percent of the current proposed technology funding in this Plan has been targeted to support the expansion of the existing building infrastructure. This investment will provide for the upgrades to our Wireless/Wide and Local Area Network (W/LAN) to accommodate higher connection speeds with intensive concurrent users in the schools. The existing hardware in schools will need to be upgraded or replaced to allow it to accept new high-speed digital links. Network cabling and Internet links must also be upgraded to handle more capacity. The modern classroom is quickly becoming an "always connected learning atmosphere" and these upgrades will complement and support any upcoming technology challenges and initiatives for schools in addition to supporting the rollout of the online assessment initiative.

Supporting digital learning and teaching initiatives require that our school buildings have the ability to accommodate the ancillary devices and components that allow students and educators to connect to the Internet or servers where digital resources reside. Approximately 40 percent of DOE buildings are over 60 years old and will require modernized electrical systems that can provide the electrical capacity necessary for a digital learning environment. Likewise, the copious amounts of data used by digital learners travel through cables that were installed when schools used considerably less data and had fewer connected devices. Cabling and electrical upgrades are vital aspects of enabling schools to utilize the latest educational technologies. The proposed technology funding allocates approximately 24 percent to upgrade these critical building elements.

This Capital Plan will also invest 22 percent of the technological enhancement budget to upgrade basic education business initiatives that help administrators support the goals and efforts of students and educators throughout the schools. These initiatives will upgrade and improve DOE's existing student information systems, provide greater network security, and allow for greater mobility for its users within the ecosystem. These initiatives will also improve data management systems that will help the DOE better support and meet critical business and programmatic mandates while improving organizational efficiency.

Technological Enhancements Summary		
Enhancement	Proposed Amendment	2015 Adopted Amendment
Next Generation Voice and Data Upgrade	\$246.9mm	\$246.9mm
Next Generation Access Points Upgrade	\$101.8mm	\$101.8mm
Next Generation School Data Wiring Upgrades	\$46.8mm	\$46.8mm
School Electrification Upgrades	\$64.6mm	\$64.6mm
Ancillary Technology Facilities Upgrade	\$44.5mm	\$44.5mm
Non-Infrastructure Projects	\$145.4mm	\$145.4mm
TOTAL	\$650.0mm	\$650.0mm

MANDATED

Mandated

Introduction

SUMMARY
Proposed Amendment
\$3,659.3 mm
2015 Adopted Amendment
\$3,692.0 mm

This new category collects a number of items that were previously included in the Capital Investment category such as lighting replacements, boiler conversions, asbestos remediation, lead paint abatement, funding for projects mandated by local law or City agency mandates, performing building condition surveys, emergency lighting, code compliance, and insurance.

Mandated Programs Overview		
Program	Proposed Amendment	2015 Adopted Amendment
Lighting Replacements	\$480.0 mm	\$480.0 mm
Boiler Conversions and associated Climate Control	\$ 750.0 mm	\$ 750.0 mm
Asbestos Remediation	\$179.8 mm	\$175.0 mm
Lead Paint Removal	\$11.2 mm	\$15.0 mm
Emergency Lighting	\$38.9 mm	\$50.0 mm
Code Compliance	\$124.0 mm	\$150.3 mm
Building Condition Surveys	\$86.4 mm	\$90.0 mm
Wrap Up Insurance	\$831.7 mm	\$830.0 mm
Prior Plan Completion	\$661.6 mm	\$662.8 mm
Emergency, Unspecified & Miscellaneous	\$495.7 mm	\$488.9 mm
TOTAL	\$ 3,659.3 mm	\$ 3,692.0 mm

Lighting Replacements

SUMMARY
Proposed Amendment
\$480.0 mm
2015 Adopted Amendment
\$480.0 mm

The Five Year Capital Plan is allocating \$480 million to implement an expedited program to remove all PCB-containing light fixtures from New York City public school buildings. Although this is mandated, we will continue to seek ways to further support and enhance our sustainability measures by ensuring the current light fixtures are replaced with energy efficient units. On May 21, 2013, the City entered into an agreement to accelerate the original 10-year plan that started in 2011 to complete the lighting replacements by December 31, 2016. The total cost of this program is anticipated to be approximately \$1 billion.

By the end of the FY2010–2014 Capital Plan, the City had started or completed lighting replacements at 412 buildings with T-12 fixtures likely to

have PCB-containing ballasts. Between the 2010-14 and 2015-19 Capital Plans, approximately 610 lighting projects have been completed, and approximately 150 are under construction and will be complete by December 2016. Additionally, the Amendment includes funding to ensure replacement of older High Intensity Discharge (HID) lighting within our buildings.

The DOE continues to undertake periodic visual inspections of all lighting fixtures suspected of containing older ballasts that may have deteriorated and have visible leaks. When leaking fixtures are identified they are replaced immediately and the building is prioritized for scheduling building-wide lighting replacements. As additional leaks are identified, we will continue to inform school communities, update our records, and take appropriate action. The complete list of buildings with confirmed visual leaks can be found at:

<http://www.nycsca.org/Community/Programs/EPA-NYC-PCB/PCBDocs/CorrectiveActionforVisiblePCBBallastLeaks.pdf>

The list of buildings that have had comprehensive lighting replacement projects completed can be found at:

<http://www.nycsca.org/Community/Programs/EPA-NYC-PCB/PCBDocs/CompletedLightingFixtureReplacements.pdf>

Boiler Conversions

SUMMARY
Proposed Amendment
\$750.0 mm
2015 Adopted Amendment
\$750.0 mm

The DOE will continue to phase out use of Number 4 oil which is mandated to be eliminated by 2030. We have allocated \$750 million to convert boilers at approximately 125 of 380 buildings currently using Number 4 oil. Eliminating the use of heavy oils and transitioning to the cleanest fuels will comply with this mandate. Although this is mandated we will continue to seek ways to enhance our sustainability measures by ensuring more energy efficient units are replacing the current boilers. This level of spending paces these boiler conversions evenly across the Capital Plans between now and the 2030 mandate.

Asbestos Abatement

SUMMARY
Proposed Amendment
\$179.8 mm
2015 Adopted Amendment
\$175.0 mm

The DOE's Asbestos Abatement program is federally mandated by the Asbestos Hazard Emergency Response Act (AHERA) of 1986. The Act requires that every public and private school building be inspected once every three years. The location of any asbestos must be documented and a plan must be developed for the continuous management of the asbestos in the building.

Asbestos abatement removes the potential health hazard presented by airborne asbestos fibers. In schools, asbestos is found most commonly in pipe

and boiler insulation, plaster, floor tiles, and spray-on insulation. Only asbestos in a loosely bound or “friable” condition is dangerous and must be removed. Asbestos must be removed from construction areas prior to being disturbed during construction or maintenance activities.

The cost of asbestos abatement is included in the individual project costs for building modernizations and individual interior and exterior upgrades where asbestos is present. This funding category provides for abatement of disturbed asbestos in buildings where no related major capital projects are planned.

Lead Abatement

SUMMARY
Proposed Amendment
\$11.2 mm
2015 Adopted Amendment
\$15.0 mm

Lead paint abatement is mandated by US Environmental Protection Agency and New York City Department of Health and Mental Hygiene (DOHMH) regulations. The targeted population includes pre-kindergarten, kindergarten, day care in schools, special education, and first grade students. The DOE continues to remediate areas identified by lead inspections and DOHMH referrals.

Lead abatement is included as an integral part of individual capital projects that affect surfaces that may contain lead paint, *e.g.*, window replacement and the removal of paint from exterior walls prior to re-pointing. This proposed funding provides for lead paint abatement in buildings where no related major capital projects are planned.

In addition, the DOE continues to test elementary schools for the presence of lead in drinking water and perform remediation when necessary. While all schools have had initial testing, additional testing will be necessary at some schools.

Emergency Lighting

SUMMARY
Proposed Amendment
\$38.9 mm
2015 Adopted Amendment
\$50.0 mm

This category funds the DOE’s continuing program to bring all school buildings into compliance with the emergency lighting requirements of Local Law 41/78 (Fire Safety in Places of Public Assembly), Local Law 16/84 (Fire Safety in Buildings), Local Law 26/04 (Power Source for Exit Signs). These laws establish minimum standards for emergency lighting, exit lighting, emergency power and elevator safety. These local laws apply retroactively to most school buildings. All school buildings are assessed for compliance with these requirements and necessary upgrades are proposed. Documentation showing compliance is filed at the Department of Buildings when the assessments are completed.

Code Compliance with NYC Building Code and other City Agency Regulations

SUMMARY
Proposed Amendment
\$124.0 mm
2015 Adopted Amendment
\$150.3 mm

Similar to emergency lighting, this category is an ongoing program to bring all school buildings into conformance with safety-related regulations. Although many DOE schools are old enough to pre-date the New York City Building Code, code requirements relating to life and fire safety systems apply retroactively so that buildings that are not in compliance must be retrofitted accordingly. Local Law 10 (Owners’ Inspection of Building Facades) and its successor legislation, Local Law 11, require that the exterior masonry for buildings over a certain height be inspected every five years. If hazardous conditions are discovered during an inspection, a sidewalk shed must be installed immediately and plans to make the necessary repairs must be developed.

Local Law 5 (Fire Safety in High Rise Buildings) mandates the installation of fire alarm systems in buildings over a certain size so that the Fire Department can override the elevators’ operations in the event of an emergency.

Other Code-related capital-eligible projects are also included in this category. For example, other City agencies have retroactive mandates that require the DOE to allocate funding to bring our buildings in compliance with these mandates.

Building Condition Surveys

SUMMARY
Proposed Amendment
\$86.4 mm
2015 Adopted Amendment
\$90.0 mm

Keeping the baseline data of building conditions in school facilities up-to-date is essential to the DOE’s ability to program capital improvement projects. The DOE conducts annual BCAS in preparation for the Five-Year Plan and its Amendments.

Wrap-Up Insurance

SUMMARY
Proposed Amendment
\$831.7 mm
2015 Adopted Amendment
\$830.0 mm

Since 1990, the SCA has maintained an Owner Controlled Insurance Program (OCIP) that provides insurance coverage for the SCA and contractors and subcontractors working on SCA projects. Rather than the traditional approach of having each contractor and subcontractor procure its own insurance, the SCA negotiates and purchases coverage for Worker’s Compensation and Employer’s Liability, General Liability, Excess Liability, and Builder’s Risk. The cost of this program is uncertain. The annual cost will depend upon the ultimate loss experienced.

Prior Plan Completion Cost

SUMMARY
Proposed Amendment
\$661.6 mm
2015 Adopted Amendment
\$662.8 mm

Many projects funded in the FY 2010–2014 Plan will still be in progress during this Five-Year Capital Plan period. Although construction contracts are obligated in the FY 2010–2014 Capital Plan, other costs, such as furniture and equipment purchases, as well as construction change orders, may occur during the FY 2015–2019 Capital Plan period. This category provides the funding to complete these projects after the end of FY2014.

Emergency, Unspecified & Miscellaneous

SUMMARY
Proposed Amendment
\$495.7 mm
2015 Adopted Amendment
\$488.9 mm

Any building condition found to be potentially dangerous will be immediately referred to the SCA for further evaluation. If necessary, sidewalk bridging will be installed immediately as a safeguard for the entire school community. If any condition is found to need immediate attention, capital funding from the Plan’s Emergency, Unspecified & Miscellaneous allocation will be used to remedy the condition without delay.

This lump sum funding allows the DOE to respond to emergencies and unforeseeable needs without having to divert funds from other projects. By law, this amount cannot exceed five percent of the total estimated cost of the Five-Year Plan.

FINANCING STRATEGY

Capital Plan Funding

The Five Year Capital Plan has historically been funded about equally between the City and State, with potential additional funding for specific projects from federal programs, the NYC Education Construction Fund (ECF), and privately raised funds.

This Capital Plan is funded differently than past plans. With \$14.1 billion from Federal, City and State tax levy and \$783 million from the Smart Schools Bond Act, the Plan's total appropriation is \$14.9 billion for fiscal years 2015 - 2019. The breakdown among the funding sources is as follows:

Funding Source	FY 15	FY 16	FY 17	FY 18	FY 19
City	\$ 1.424	\$ 2.979	\$ 2.710	\$ 2.243	\$ 2.717
State	\$ 1.017	\$ 0.257	\$ 0.195	\$ 0.671	\$ 0.195
Federal/Other	\$ 0.314	\$ 0.135			
Total	\$ 2.755	\$ 3.371	\$ 2.905	\$ 2.914	\$ 2.912

Note: \$ in billions

This proposed funding will support the DOE's goals of improving educational performance and sustaining the diverse portfolio of existing facilities in good repair.

38 percent of total funding is for the creation of over 57,600 new seats, which include 44,348 seats in 81 new projects, over 7,600 pre-kindergarten seats, and 4,900 seats specifically targeted towards Class Size Reduction. In addition, over 700 seats will be created to replace sites that must vacate their current locations.

37 percent of the total funding is targeted toward capital investment in basic facility needs and enhancing school facilities, both system-wide and specifically to support instructional programs. These improvements include improved technology, safety enhancements and other general improvements to the learning environments.

The remaining 25 percent of the total funding is dedicated to mandated programs.

To complement the Plan funding, both City and State elected officials generally allocate additional capital funds for specific projects at individual schools. These funds are targeted towards the specific schools' needs in areas such as technology, science laboratories, sports/athletic fields, playgrounds, bathrooms and other quality-of-life facility upgrades/enhancements. The City's elected officials allocated, on average, \$70 million to \$100 million

annually during the FY 2010-2014 Plan period. Some State elected officials have also sponsored capital projects in individual schools through various Grant Programs administered by the NYS Dormitory Authority such as the Community Capital Assistance Program (CCAP), New York State Technology and Development Program (NYS TAD), New York State Economic Development Assistance Program (NYS EDAP), and the State and Municipal Facilities Program (SAM). The DOE greatly appreciates the support of these contributions which are an additional source for enhancements in the buildings throughout the City.

The DOE will continue to work with ECF and its private partners to investigate appropriate financing options to supplement and/or leverage the City and State funding over the five-year Plan period. The DOE will also continue to be diligent in its effort to pursue new federal programs pertaining to financing and funding technology infrastructure.

PROPOSED FIVE-YEAR PLAN PREPARATION

Mayoral Initiatives

The current Administration has made Universal Pre-Kindergarten and class size reduction key priorities in ensuring equitable access to high quality opportunities at all levels of education. These two additional areas will contribute to our new capacity seats. As such, the introduction of targeted funds in the Capital Plan for the reduction of class sizes and the Pre-Kindergarten Initiative collectively support these efforts.

The DOE will also continue to work with the administration on two other Mayoral initiatives which may lead to capacity needs. “Housing New York: A Five-Borough, 10-Year Plan” to build or preserve 200,000 affordable housing units throughout New York City and the investment in Community Schools may result in adjustments to enrollment projections or capacity needs. The DOE will continue to work with the New York City Department of City Planning (DCP) as well as other partners in the Administration on any land use proposal or other actions as part of the Housing New York plan and on the investment to Community Schools to assess the potential impacts on school enrollment and utilization.

As part of the current Administration’s “One City, Built to Last” green building plan, solar power investment at City schools will triple the amount of solar panels currently on City buildings. Funding for new installations will be provided by the City as well as the New York State Energy Research and Development Authority (NYSERDA). This critical environmental initiative will be implemented by the Department of Citywide Administrative Services and the New York Power Authority in partnership with the DOE.

New Capacity

The New Capacity portion of the plan is based upon an enormous volume of data that the DOE collects and analyzes each year in order to accurately forecast when and where additional seats will be needed. These data include the capacity of existing schools, as well as demographic projections of future student enrollment, including increased demand resulting from projected new housing. Ultimately, if the demand is greater than the supply, the school is deemed overcrowded.

Current Utilization

The first step in identifying new capacity needs is to assess existing school facilities. The DOE maintains an inventory of the amount of space and utilization of every DOE facility. This allows the DOE to ensure that space is being used efficiently before proposing to spend capital funds on the creation of additional seats.

Each year the DOE conducts a Principal Annual Space Survey (PASS) to update its information regarding the size, function, and use of each room in every school building. School principals complete the surveys, which are then analyzed to determine capacity. Building capacity is defined as the target number of students who can be accommodated reasonably in a facility without adversely affecting educational services and programs. The utilization rate for each school building is then determined by comparing capacity with actual enrollment figures.

The detailed results of this analysis on a school-by-school basis can be found on the NYC School Construction Authority website, www.nycsca.org, in the report entitled “Enrollment, Capacity, Utilization Report for School Year 2014–2015,” known as the “Blue Book.”

Enrollment Projections

The next task in developing the capacity program is to project the future demand for seats. For the past fifteen years, the DOE has retained a demographic consulting firm to prepare enrollment projections for the entire school system. In 2006, the DOE retained a second demographic firm also to prepare enrollment projections. This was done to confirm the validity of our projections. The enrollment projection process entails 128 separate demographic projections, taking into account the unique migration, birth and enrollment trends in each Community School District. These projections are used to develop total enrollment projections by District, Borough and the City as a whole. Projections are prepared for five years and ten years into the future

in order to ensure that capital funds are not expended to meet only short-term anomalies in enrollment.

These detailed projections can be found on the NYC School Construction Authority website, www.nycsca.org in the report entitled “Enrollment Projections 2012 to 2021 New York City Public Schools.”

New Capacity Needs Assessment

The enrollment projections for year 2019 were used to determine future utilization for this Capital Plan. This is, in effect, a supply and demand analysis. The future enrollment projections are compared to the existing capacity of seats in school buildings. When demand exceeds supply, additional seats must be provided or overcrowding will result. This analysis was performed below the district level. Areas within each district were analyzed to determine need and recommendations were developed accordingly.

In order to project future utilization accurately, it is necessary to fine-tune the analysis. The cohort survival projection methodology used by the DOE’s demographers takes into account, either explicitly or implicitly, most of the factors that affect enrollment. These include migration within the City, in-migration to the City from outside, movement out of the City, births, transfers, long-term absences and dropouts. However, policy changes and international economic and political events can undo even the best projections. For example, dramatic economic trends or changes in federal immigration policy may result in unforeseeable increases or decreases in enrollment. In addition, new housing development projects can stress the local schools by introducing an influx of new students. The DOE carefully tracks new housing starts and builds the expected increase in school-age population into projections.

Existing Facilities

Background

Preparation of the Capital Improvement Program (CIP) begins with a baseline survey of the DOE’s approximately 130,000,000 square feet of space, including school buildings, administrative buildings, leased facilities, annexes, mini-schools, temporary buildings, and field houses.

Methodology

Each year, a detailed visual inspection of each school facility is conducted by a four-person team consisting of two architects, an electrical engineer and a

mechanical engineer. Each team member carries a hand-held computer programmed with over 2,000 possible deficient conditions. Averaging one school per day, the inspectors visually assesses each facility's physical condition. The teams rate each building's main systems and underlying components, identifying and quantifying any deficiencies.

The condition of each building system is assessed in various ways beginning with interviewing building personnel, including the principal(s) and custodian, quantifying the existing deficiencies through a visual inspection, reviewing violation information and assessing the remaining useful life. This assessment is performed at a component level and then the information is combined to present an evaluation of the overall system condition.

After the building deficiencies are identified, a software program is used to assign order of magnitude costs to repair each deficiency. This data is then grouped into capital projects falling into one of 60 capital planning categories. Once the projects are created, an analysis is conducted to ensure that the project costs reflect the approximate budget necessary to accomplish the needed repair.

The 2014-2015 BCAS Reports for every DOE school building can be found on the DOE website, <http://schools.nyc.gov>. These reports are located under the reports section of each school's website.

KEY STEPS AND DATES FOR APPROVAL OF THE PROPOSED AMENDMENT

January 2016	Proposed Amendment released
February 2016	Meet with Community Education Councils and other community representatives
March 2016	Issue a revised Amendment to the Panel for Educational Policy
May 2016	Vote on Proposed Amendment by the Panel for Educational Policy Submit Panel-approved Proposed Amendment to Mayor and City Council
June 2016	Adoption by City Council
