Fiscal 2027 Schedule C Introduction

Schedule C

Schedule C reinforces the Council's commitment to supporting our communities above and beyond the core services already provided by City government. Our spending plan complements the long-term stability, performance, and transparency measures the Council negotiated for as part of the larger budget.

Discretionary Funding

Each year, Council Members allocate discretionary funds to not-for-profit organizations and designate funding directly to City agencies in order to meet local needs and fill gaps in City services. While not a large part of the budget, this funding allows the City to take advantage of Council Members' localized knowledge to better target services to City residents. Council rules adopted in 2014 raised the already high standard of transparency by which this funding operates in requiring that the method used to allocate funding among Members be publicly disclosed.

Procedure and Requirements for Designation

Schedule C designates funding for community-based, not-for-profit and other public service organizations and City agencies. For funds designated to organizations, the expenditure of any funds for each organization identified in Schedule C is contingent upon the satisfactory completion of 1) a detailed initial review process; and 2) all applicable City procurement requirements at the time of contract award. Even then, funding may be used only for appropriately reimbursable expenses, as determined by the administering agency.

For-profit entities may not receive discretionary funds, except when the primary not-for-profit funding recipient subcontracts with a for-profit entity as part of the delivery of services. Such proposed subcontracts, however, must be:

- only an ancillary part of the program to be funded - not the primary basis for the discretionary award; and
- pre-approved by the contracting agency and the City Council.

The New York City Council and MOCS have established the following review for all organizations listed in Schedule C:

The Council reviews the public purpose, potential conflicts of interest, compliance with the New York State Charities Bureau, past performance, compliance with laws, rules, regulations, and policies, including not-for-profit status, any reported investigations, audits, inquiries, and other relevant information; and

Fiscal Year 2027 Adopted Expense Budget Adjustment Summary

MOCS reviews organizations which were allocated more than \$5,000 cumulatively in this fiscal year to confirm whether the organization has been prequalified, indicating organizational capability to establish a business relationship with the City of New York and deliver specific services.

While approved subcontractors of organizations that receive discretionary funding are not generally required to submit a prequalification application, they are subject to conflict-of-interest disclosure requirements, as are not-for-profit organizations. Prior to the designation of community-based not-for-profit and other public service organizations, members disclose on the record any potential conflicts of interest with organizations funded by other members.

Organizations subject to the training requirement are those that receive less than \$750,000 in discretionary funds (per fiscal year). Organizations that receive \$750,000 or more in cumulative discretionary funding (per fiscal year) are exempt from completing City Council's Capacity Building Training. MOCS prequalification is administered through PASSPort and renewed every three years. Each organization's compliance with annual filing requirements is reviewed each year to maintain prequalified status. In addition, the Department of Cultural Affairs (DCLA) administers the Cultural Development Fund to establish prequalification for organizations awarded cultural funds through DCLA.

Further restrictions to ensure the appropriate use of City funds will be incorporated through the City's procurement process.

All organizations receiving funding pursuant to an initiative will be subject to prequalification review and approval by the Mayor's Office of Contract Services.

Anti-Poverty

When allocating funding this year, the Council used a poverty indicator to provide a basis for which to fund programs. Poverty was estimated at the Council District level using 2016 American Community Survey data, specifically the number of individuals below the federal poverty level. Funding to the listed organizations will help to address income disparities throughout the five boroughs.
