Introduction

The Committee on City Healthcare Services (the “Committee”) is pleased to submit this report. It is provided pursuant to the City Council mandate of Local Law 6 of 2018 (“Local Law 6”). The law, which went into effect in May 2018, requires the creation of this Committee and the development of this initial report by October 15, 2018.

Per the law, the Committee includes representatives from each of the City agencies that provide healthcare services (whether directly or by contracting with another entity), two representatives from the City Council, and key external partners appointed by the Mayor and the Council. The law specifies that the Committee shall “review community-based health indicators in New York City [NYC], and evaluate community-level health needs that can be addressed by city healthcare services.” The law further stipulates that the Committee shall issue a report every two years with specific required components, including recommendations for utilization and coordination of City healthcare services. This is the first such report. For reference, the full text of Local Law 6 is included in Appendix A, and a list of the Committee members appointed as of October 2018 is included in Appendix B.

The Committee met in the summer and fall of 2018, supported by the prior and ongoing work of City agencies providing healthcare services. Per its charge, the Committee compiled, reviewed, and evaluated mandated information and data, adding additional areas of focus based on members’ insight and priorities. Following these discussions and additional opportunities for input, the Committee has advised on recommendations for long-term planning and study to utilize, coordinate, and optimize City healthcare services. The Committee is energized by this mission and looks forward to continuing its work well beyond this first report.

Background and Context

Most healthcare in NYC is provided in hospitals, clinics, and independent physician practices. However, these settings may not be best positioned to meet the healthcare needs of some of NYC’s most vulnerable populations. There are unique considerations for serving these diverse communities, and City healthcare services are an important resource to address their specific needs.

The Committee identified seven City agencies that provide healthcare services, though there are necessarily variations in the services provided, the populations served, and the length and extent of the clinical relationship. For example, City agencies such as the Administration for Children’s Services (ACS) and the Department of Homeless Services (DHS) only provide healthcare to individuals who are already in their care, either awaiting placement in foster care or in homeless shelters or programs, respectively.

Other New Yorkers receive more traditional care in City settings like the school-based healthcare provided by the Department of Education (DOE) in collaboration with the Department of Health and Mental Hygiene (DOHMH) or the hospitals and clinics run by NYC Health + Hospitals¹ (H+H). Though these are extensive enterprises, the City does not attempt to supplant all private

¹ Note that H+H is not a normative City agency. It is a State-created public benefit corporation. As such, its participation on this Committee and process is voluntary, per the underlying law.

healthcare services with them. Rather, much of the City's healthcare system is strategically tailored to best serve specific healthcare needs that otherwise go unmet. The City's objective is to facilitate the provision of quality and culturally competent care, as well as the coordination and integration of care across City agencies, and when appropriate, to connect individuals to primary and preventive care in traditional healthcare settings. The Committee has reviewed the existing City healthcare services and, per its mandate, deliberated on recommendations for utilizing these services to address the needs of, and engage in outreach to, vulnerable populations. Many of these recommendations include proposals to improve coordination across City agencies and make optimal use of existing services, in keeping with the law's requirements.

The City's healthcare services function within the context of the larger local healthcare delivery system, and State and Federal oversight thereof. Inasmuch as the City cannot regulate private healthcare providers, its focus is on effectively serving the vulnerable populations who access public services and facilitating access to care overall. In one step to advance these goals, the City works extensively to enroll New Yorkers into health insurance to enable them to receive healthcare services at both public and private providers. Since the Affordable Care Act's first open enrollment period in 2014, the City has implemented multiple iterations of GetCoveredNYC, an on-the ground and media campaign that helps New Yorkers sign up for health insurance. This effort has resulted in historically low rates of uninsurance in NYC. In 2016, 7.8 percent of all NYC residents were uninsured, compared to 11.4 percent in 2014.^[1] Of course, City agencies and H+H continue to provide services regardless of insurance status.

Further, the direct provision of individual healthcare services is only one way in which the City protects and promotes the health and well-being of vulnerable New Yorkers. City public health efforts like Take Care New York 2020, plus non-health-specific initiatives like Universal Pre-K and expanding a Living Wage, are more systemic approaches to the environmental, social, and economic factors that affect health in NYC. The Committee recognizes that addressing these social determinants of health can impact health and wellness in NYC communities and notes that more City agencies than are represented in this Committee contribute to New Yorkers' health. This broader context is critical to understanding the role of City healthcare services, and it is an important part of Committee discussion and analyses. However, these important initiatives are not City healthcare services *per se* and are thus outside the scope of this report.

That said, the Committee is deliberate about framing its recommendations and future work within a larger policy context. Committee members are mindful of recent Federal administrative and legislative attempts to weaken the Affordable Care Act, reduce available funding for health services, inhibit access to benefits, and take other actions that negatively impact vulnerable populations. Now more than ever, the Committee finds it is critical to study, support, and coordinate City healthcare services in the face of those policy and financial pressures. We are hopeful that the Committee's work will play a key role in understanding the healthcare needs of vulnerable populations and providing meaningful, viable recommendations on how the City can make optimal use of its healthcare resources to meet these needs.

Health Data Summary

To inform its work, the Committee has reviewed and discussed the following community-based health indicators. The majority of these indicators are provided pursuant to the Council’s legal mandate, and the Committee has added additional elements for study based on their questions and priorities. Where applicable, this report presents city-wide rates and a listing of the five neighborhoods most negatively impacted by the indicator, based on the most recently available existing reportable agency data, disaggregated geographically to the Community District level, unless otherwise noted, per the law’s mandate. As demonstrated by the data included in this report, and well documented in other data published by DOHMH and others, significant disparities in health outcomes persist across communities and often cluster geographically. Per the law’s requirement, the report also includes certain recent indicators of H+H utilization. These are necessarily framed a bit differently than the community-level indicators, due to the information conveyed. For further study, tables with all community district data are in Appendix C, and additional DOHMH data on NYC health indicators are available through the Epiquery data portal located here <https://a816-healthpsi.nyc.gov/epiquery/>.

Insurance Coverage

As noted, health insurance can help facilitate access to needed healthcare. There have been advancements in health insurance coverage rates since the passage of the Affordable Care Act in 2010. GetCoveredNYC, a program to enroll people in health insurance, has helped to increase insurance coverage rates across the city. Overall, 88% of NYC adults have health insurance. However, these rates vary across some communities. This may be due to a number of factors, including that some NYC residents do not qualify for public insurance or subsidies under the Affordable Care Act.

Percent of Adults Without Insurance	
NYC Overall: 12 percent	
Poorest Performing Community Districts	Percent

Bushwick, Brooklyn	18
Sunnyside and Woodside, Queens	16
Description: Percentage of adults ages 18 and older who report not having health insurance coverage. Source: New York City DOHMH, Community Health Survey, (2015 -2016).	

Infant Mortality Rates per 1000 Live Births

Although the City’s infant mortality rate is the lowest it has ever been, there remain disparities across race and neighborhoods. Bay Ridge, Brooklyn has the lowest infant mortality rate at 1.0 per 1,000 live births, compared to East Flatbush, Brooklyn, which has a rate of 8.5 per 1,000. Babies born to black mothers are still three times as likely to die in their first year of life as babies born to white mothers. The City is working to address these inequities with programs such as the Baby-Friendly Hospital Initiative to support women in the prenatal and post-partum period. The Nurse Family Partnership and the Newborn Home Visiting Program both offer safe-sleep education, provide cribs, promote women’s health and screen and refer new mothers for depression and anxiety.

Infant Mortality Rate per 1,000 Live Births	
NYC Overall: 4.1	
Poorest Performing Community Districts	Rate
East Flatbush, Brooklyn	8.5
Pelham Parkway, Bronx	7.8
Central Harlem, Manhattan	6.7
East New York, Brooklyn	6.2
Williamsbridge, Bronx	6.2

Description: Infant mortality rate by 1,000 people by community district (CD) of residence.
Source: New York City DOHMH, Bureau of Vital Statistics, (2014-2016).

Immunizations

Three indicators are presented here for immunizations: HPV vaccination rates, influenza vaccination rates, and the percent of public school students with up to date immunizations. The City monitors immunization rates by other methods as well, and additional information and data can be found at <https://www1.nyc.gov/site/doh/health/health-topics/vaccines-and-immunizations.page>

HPV Vaccination Rate

The human papilloma virus (HPV) is the most common sexually transmitted infection in the country, and nearly half of new infections occur among teens and young adults aged 15-24. Untreated, HPV infection can lead to genital warts and cancer. The HPV vaccine can prevent up to 99 percent of cancers caused by HPV infection. The HPV vaccination rate among this age cohort is 65 percent, though rates remain relatively low in some NYC communities.

HPV Vaccination Rate	
NYC Overall: 65 percent	
Poorest Performing Community Districts	Percent
Tottenville, Staten Island	19
Greenpoint / Williamsburg, Brooklyn	23
Willowbrook / South Beach, Staten Island	27
Borough Park, Brooklyn	28
Sheepshead Bay, Brooklyn	32

Description: Percentage of adolescents ages 13 to 17 who completed the human papillomavirus (HPV) vaccination series.
Source: New York City DOHMH Citywide Immunization Registry, (updated as of 5/31/2018).

Influenza Vaccination Rate

An annual flu vaccine remains the best protection against the influenza virus and its severe symptoms and complications, including hospitalization and death. It is particularly important that adults most at-risk for influenza, including adults 65 and older, people with high-risk conditions, and pregnant women get the flu vaccine each year. The City conducts an annual mass media flu campaign to promote vaccination for the general population and high risk groups.

Flu Vaccination Rate for Adults Ages 18 and Older

Percent of School Age Children With Up-to-Date Immunizations

Children attending school and daycare in NYC are required to receive certain vaccines under New York State law. As of June 2018, compliance with required school immunizations in NYC public schools was 99 percent. Data here is presented disaggregated by school district, as that is how the City maintains this data.

NYC Public School Compliance Rate	
NYC Overall: 99 percent	
Poorest Performing Community Districts	Percent

Smoking

Cigarette smoking is a leading cause of preventable, premature death. NYC is a national leader in tobacco control, taking actions such as raising the minimum cigarette pack price to \$13, prohibiting sales of any tobacco products or electronic cigarettes to anyone under the age of 21, addressing sales of tobacco products in pharmacies and smoking in residential settings. Because of these and other actions, the adult smoking prevalence has steadily declined in New York City from 21.5 percent in 2002 to 13.1 percent in 2016.

Percent of Adults who Report Current Smoking	
NYC Overall: 14%	
Poorest Performing Community Districts	Percent
Lower East Side, Manhattan	20
Ridgewood and Glendale, Queens	20

Coney Island, Brooklyn	19
Astoria and Long Island City, Queens	19
Description: Percentage of adults ages 18 and older who report being current smokers (smoking at least 100 lifetime cigarettes and now smoking every day or some days).	
Source: New York City DOHMH, Community Health Survey, (2015 - 2016).	

Obesity

Obesity has been linked to increased risk for diabetes, heart disease, stroke, high blood pressure, arthritis, and cancer. Body weight is affected by diet and exercise, both of which can be harder to manage in communities without access to healthy foods or spaces for physical activity. NYC's obesity rate of 24.6 percent is lower than the national average of 37.9 percent. The City promotes healthy eating through policies, such as the NYC Food Standards, which set nutrition criteria for all foods and beverages served by City agencies, and through childcare and children's camp regulations. The City also works to ensure all New Yorkers have access to spaces to be physically active by enhancing schoolyards and parks and promoting design strategies in buildings to encourage physical activity.

Description: Percentage of adults ages 18 and older who have obesity (Body Mass Index of 30 or greater) based on self-reported height and weight.	
Source: New York City DOHMH, Community Health Survey, (2015 - 2016).	

Hypertension

Hypertension (high blood pressure) is a leading risk factor for heart disease and stroke, and can lead to complications including kidney disease, sexual dysfunction and vision loss. Overall, 28 percent of NYC adults report being told by their provider that they have hypertension.

New Yorkers can use the NYC Health Map (an online, searchable tool) to find over 1,200 free blood pressure check locations across the City. In addition, NYC Health + Hospitals (H+H) created the Treat-to-Target program for those with uncontrolled hypertension. Patients enrolled in this nurse-driven program receive additional support to achieve blood pressure control.

Description: Percentage of adults ages 18 and older who report ever being told by a healthcare professional that they have hypertension, also known as high blood pressure.
Source: New York City DOHMH, Community Health Survey, (2015 - 2016).

Asthma

Asthma is a chronic respiratory disease that disproportionately affects marginalized communities, and is the leading cause of inpatient hospitalizations for children in NYC where 13.3 percent of children under age 12 suffer from asthma.

Preventing asthma emergency room visits requires a comprehensive approach including avoiding asthma triggers both in and outside the home, properly using asthma medications, and working with healthcare providers, schools, and other service providers. The City works with schools, healthcare providers, landlords, and parents to make sure children have access to the care they need and live in environments free of asthma triggers. One example of this work is the efforts of schools to have families complete a Medication Administration Form (MAF) for children with asthma. The forms are filed with the child's school, which can then provide medication to prevent or treat asthma attacks during the school day. Additional information and data on asthma in NYC can be found at <https://www1.nyc.gov/site/doh/health/health-topics/asthma.page>

Children's Visits to Emergency Department for Asthma Rate per 10,000 Children	
NYC Overall: 223

Central Harlem, Manhattan	545
Brownsville, Brooklyn	475
East Tremont, Bronx	464

Description: Rate of emergency department visits for asthma among children per 10,000 children ages 5 to 17.
Source: New York State Department of Health, Statewide Planning and Research Cooperative System (SPARCS), (2015).

Hepatitis C

There are an estimated 116,000 people living with hepatitis C in NYC; people who use drugs, people who are justice-involved, people of color, and people who reside in high poverty neighborhoods are disproportionately impacted. Since 2014, direct acting antiviral therapy has been available to cure hepatitis C and is highly-effective and well-tolerated, with cure rates greater than 90 percent including among people living with HIV, people with cirrhosis, and people with current drug use. Direct acting antiviral therapy and other factors has led to 20.8 percent a decline in NYC hepatitis C prevalence since 2010.

New Hepatitis C Reports	
NYC Overall: 71.8	
Poorest Performing Community Districts	Rate
Clinton and Chelsea, Manhattan	144.9
Belmont and East Tremont, Bronx	140.6
Morrisania and Crotona, Bronx	131.0
East Harlem	129.5
Hunts Point and Longwood	129.5

Description: Rate of new chronic hepatitis C reports per 100,000 people..
Source: New York City DOHMH, Communicable Disease Surveillance Registry, 2016.

Diabetes

The City takes a holistic, prevention-focused approach to diabetes; including efforts such as improving housing conditions, increasing access to healthy food, supporting breastfeeding empowerment programs, implementing nutrition standards in a variety of community settings, discouraging the consumption of sugary drinks, and support for plant-based diets. Lifestyle change is a key factor in the prevention of diabetes and related chronic diseases, and the City has increased the availability of the National Diabetes Prevention Program in neighborhoods with high rates of obesity and chronic disease. The City also increases neighborhood walkability by placing art in public spaces, and increases access to free Shape Up classes with the Department of Parks and Recreation.

Diabetes

Source: New York City DOHMH, Community Health Survey, 2015-2016

Cancer Mortality

Cancer is the leading cause of premature death in NYC, at 57.5 deaths per 100,000 of those younger than age 65. Getting regular screenings for certain cancers can reduce the risk of developing those cancers or may help to detect it early, when treatment is easier. Breast cancer and lung cancers account for the highest cancer-related death rates in NYC, at 11.6 and 9.1 deaths per 100,000 people respectively. Breast cancer and lung cancer death rates declined by 13.8 percent and 31.4 percent, respectively, since 2007. Lymph and blood, colon, and liver cancers account for the third, fourth, and fifth highest rates of cancer-related death, at 6.6, 5.6, and 4.0 deaths per 100,000 people, respectively. Death rates for these cancers have declined modestly since 2007.

Premature Mortality Due to Cancer	
NYC Overall: 46.2	
Poorest Performing Community Districts	Rate
Brownsville, Brooklyn	80.8
Central Harlem, Manhattan	69.2
Bedford Stuyvesant, Brooklyn	66.8
Morrisania and Crotona	66.3

Preventive Care Visits: Patients Seen in Primary Care at NYC Health + Hospitals

Primary care consists of preventive care and attention to acute or chronic physical or mental conditions. The number of unique patients seen in primary care at H+H has declined from 425,000 in FY17 to 417,000 in FY18. H+H is working to increase primary care patients over time through a series of new initiatives to expand access to primary care, to make it easier for patients to schedule visits with the same primary care provider, and to recruit new primary care providers with the DOCS4NYC campaign launched in May 2018.

Unduplicated Number of Patients seen in Primary Care (Health + Hospitals)
<u>417,000</u> patients
Data are given for Fiscal Year 2018. As a result of Health + Hospitals calculation methodology, these numbers are rounded.
Source: NYC Health + Hospitals

Emergency Room Visits at NYC Health + Hospitals

Emergency room visits are visits with providers for acute unplanned care, including trauma care. H+H saw 978,850 emergency room visits between April 2017 and March 2018, which is consistent with the numbers from the prior fiscal year. H+H’s goal is to decrease the need for acute unplanned care over time by expanding primary care services.

Emergency Room Visits (Health + Hospitals)
<u>978,850</u> Visits
Data are given for Fiscal Year 2017 Q4 through Fiscal Year 2018 Q3 due to time lags in the compilation of data for Fiscal Year 2018 Q4.
Source: NYC Health + Hospitals

Number of Unique Inpatient and Outpatient Visits at Facilities Operated by NYC Health + Hospitals

Inpatient and outpatient visits are composite indicators of the types of visits that occur in the H+H system, separating hospital admissions (including emergency room visits that result in a hospital admission) from non-hospital admissions (including emergency room visits that result in the patient being discharged to home). There were stable numbers of total inpatient and outpatient visits this fiscal year compared with the prior fiscal year. H+H expects the numbers of visits for outpatient care to increase over time.

Inpatient and Outpatient Visits (Health + Hospitals)
Total Inpatient: <u>186,902</u> Visits
Total Outpatient: <u>5,144,392</u> Visits
Data are given for Fiscal Year 2017 Q4 through Fiscal Year 2018 Q3 due to time lags in the compilation of data for Fiscal Year 2018 Q4. Source: NYC Health + Hospitals

Summary of City Healthcare Services

This section includes a summary of healthcare services provided or contracted by City agencies. Though not all of the information here is required by law, the Committee sought many of these details to better understand the current provision of healthcare by City agencies. As per the law, this section includes agency budget allocations and the number of persons served for Fiscal Year 2018, as well as locations of healthcare services.² Specific location information is provided in Appendix E when too voluminous for inclusion in the main text.

Administration for Children's Services

Agency Mission: The Administration for Children's Services (ACS) protects and promotes the safety and well-being of New York City's children and families by providing child welfare, juvenile justice, and early care and education services.

Healthcare Services at ACS: ACS provides healthcare services for a specific subpopulation of children: children in Detention Settings, Non-Secure Detention Schools, Limited Secure Settings, and Pre-placement Settings. These services are only available to or accessible by children who are in the child welfare system. ACS maximizes ACS-provided services for the ACS population and works to ensure that children receiving services from ACS are connected to appropriate non-City healthcare services when needed.

(1) Healthcare in Detention Settings, Non-Secure Detention Schools, and Limited Secure Settings

ACS contracts with a healthcare provider to provide screenings, assessments, evaluations, and care to youth in these settings.

FY18 Volume: 1,310 children

FY18 Budget Allocation: \$3.6 million

Service Locations:

Crossroads Juvenile Center (17 Bristol St. Brooklyn NY 11212)
Belmont Academy (619 Belmont Ave, Brooklyn, NY 11207)
Horizon Juvenile Center (560 Brook Ave, Bronx NY 10455)
Bronx Hope (108 West 174th St, Bronx NY 10452)

Backup medical emergency services are provided at H+H's
Lincoln Hospital (234 E 149th St, Bronx, NY 10451)
Kings County Hospital (451 Clarkson Ave, Brooklyn, NY 11203)

² Though the Committee acknowledges that social services, care coordination, and other interventions to address social determinants of health are critical initiatives and areas of ongoing municipal focus, they are not healthcare services *per se*. Budget allocations were provided by healthcare service-providing agencies, based on agency operation budgets and contracted service provider budgets funded by the City. Whenever possible, costs not associated with direct healthcare services (as healthcare is defined here) are excluded from the allocation figures.

(2) Healthcare in Pre-placement Setting

Nicholas Scoppetta Children's Center is a temporary residential facility for children awaiting foster care placement. Nurses provide the following services: initial pre-placement health assessments; implementation of "home-based" health plans, including administration of medications; ongoing monitoring of any health concerns; and appropriate primary care, subspecialty and emergency referrals as needed. Most emergency referrals are directed to Bellevue Hospital. Outpatient referrals depend on the existence or identification of each individual child's known primary care physician or subspecialist, if any.

FY18 Volume: 3,182 children

FY18 Budget Allocation: \$4.2 million

Service Locations: N. Scoppetta Children's Center: 492 First Ave, New York, NY 10016.

Borough Nursing facilities located:
165-15 Archer Ave., Jamaica NY 11433
2554 Linden Blvd, Brooklyn NY 11208
2501 Grand Concourse, Bronx NY 10468

(3) Healthcare for Children in Foster Care

Foster parents provide temporary homes for children until they can be reunited with their families or, if that is not possible, adopted. Contracted agencies are mandated to ensure children in their care receive appropriate healthcare, but this is not paid for by NYC.

Human Resources Administration (Department of Social Services)

Agency Mission: The Human Resources Administration/Department of Social Services (HRA/DSS) is dedicated to fighting poverty and income inequality by providing New Yorkers in need with essential benefits. HRA helps more than 3 million New Yorkers annually with services like food assistance, cash assistance, emergency rental and utility assistance, job placement and training, public health insurance, child care, adult protective services, domestic violence shelter and assistance, HIV/AIDS support services, child support enforcement, and legal services.

Healthcare Services at HRA/DSS: HRA provides targeted healthcare services directly to clients of the following programs: Home Care, Adult Protective Services (APS), and Wellness Comprehensive Assessment, Rehabilitation, and Employment (WeCare). These services are limited in scope and provided to recipients based on categorical eligibility.

HRA's larger role in the healthcare system includes connecting NYC residents to public benefits and health insurance. HRA is in the process of modernizing and streamlining how individuals apply for, renew, and receive public benefits like Cash Assistance and Supplemental Nutrition Assistance Program (SNAP). The agency is moving to a model in which clients can access services virtually, or in one physical space (instead of multiple locations). This model will improve access to public health insurance and access to health care services.

(1) Healthcare for WeCARE Clients

The WeCARE program provides comprehensive and individualized services to Cash Assistance clients with medical and/or mental health issues. WeCARE uses contracted vendors with staff psychiatrists, nurses and other healthcare professionals for the completion of medical assessments, as well as case management services, assistance with obtaining federal disability benefits, and wellness planning and follow up.

FY18 Volume: 31,000 assessments.

FY18 Budget Allocation: \$1.5 million

Service Locations: The assessments described above have been completed at the below locations:

FedCap R1, 334 W. 51st st. New York, NY 10019

FedCap R1 Bronx Health Center 253 142nd St, Bronx, NY 10451

FedCap RII Site, 1420 Bushwick Ave, Brooklyn, NY 11207

FedCap RII site, 89-56 162nd St, Jamaica, NY 11432

(2) Healthcare for Home Care Clients

The HRA Home Care program helps individuals who are frail, elderly, and/or have disabilities remain safely in their homes with non-institutional alternatives to nursing home care. HRA staff nurses conduct home visits to perform assessments for the clients enrolled in this program.

FY18 Volume: 5,900 clients.

FY18 Budget Allocation: \$3.0 million

Service Locations: Various locations in all five boroughs in clients' homes

(3) Healthcare for clients of Adult Protective Services (APS)

HRA employs staff nurses who conduct home visits for a limited number of extremely high-risk clients referred to and enrolled in the APS program. APS serves adults with mental and/or physical impairments who are unable to care for or protect themselves from abuse, neglect, or exploitation, and who have no one willing and able to responsibly assist them, providing referrals for health examinations, assistance in obtaining and recertifying for benefits and entitlements, and eviction prevention and financial management.

FY18 Volume: 53,200 assessments.

FY18 Budget Allocation: \$0.3 million

Service Locations: Various locations in all five boroughs in clients' homes

Department of Homeless Services (Department of Social Services)

Agency Mission: The Department of Homeless Services / Department of Social Services (DHS/DSS) works to prevent homelessness before it occurs, reduce street homelessness, and assist New Yorkers in transitioning from shelter into permanent housing.

Healthcare Services at DHS/DSS: DHS/DSS provides a limited set of healthcare services in some of its shelters and street programs through contracts with clinical providers. Families with children are offered clinical services for acute needs during the intake process, and adults are offered medical and behavioral assessments (history and physical) and infectious disease screening tests at assessment shelters. Some shelters offer onsite or mobile medical services, and all families and individuals are referred to, and supported in seeking care from, their primary care physicians or a local clinic of their choice. In addition, Drop-In Centers, Safe Havens and Outreach teams serving street homeless individuals offer medical care, crisis intervention, assessment services and referrals to clinical care through contracted clinical providers.

(1) Healthcare provided at the Family Intake Center (PATH)

DHS has a contract with a medical provider to operate the clinic providing assessment and services. Clinical staff includes registered nurses, nurse practitioners, physician assistants, and medical doctors.

FY18 Volume: 13,918 patient visits

FY18 Budget Allocation: \$1.0 million

Service Location: 151 E 151st St, Bronx NY 10451

(2) Healthcare provided at a Single Adult Assessment Shelter

DHS has a contract with a medical provider to operate the on-site clinic providing assessments and services at this shelter. Clinical staff includes registered nurse(s), nurse practitioner(s), physician assistant(s), and medical doctor(s).

FY18 Volume: 2,995 patient visits

FY18 Budget Allocation: \$1.0 million

Service Locations: Location confidential

(3) Healthcare provided in Family Shelters

Healthcare services are funded by DHS in a limited number of contracted shelters for families with children. Services include clinical care, assessments, and referrals to appropriate care outside of the shelter. Services are provided by clinical provider staff, including physicians, nurse practitioners, psychologists and psychiatrists.

FY18 Volume: Services were located in five contracted shelters for families with children, with a total shelter capacity for 400 families at a time.

FY18 Budget Allocation: \$0.4 million

Service Locations: Locations are confidential

(4) Healthcare provided in Single Adult Shelters

Healthcare services are funded by DHS in some contracted shelters for single adults. Services include assessments, clinical care, and referrals to care outside of the shelter. Services are provided by contracted clinical provider staff, including physicians, and nurse practitioners, psychologists, and psychiatrists.

FY18 Volume: Services were provided in 41 contracted shelters for single adults, with total shelter capacity for 6,000 individuals.

FY18 Budget Allocation: \$9.8 million

Service Locations: Locations are confidential

(5) Healthcare provided for Street Homeless Individuals

Healthcare is provided by outreach teams, and at Drop-In Centers and Safe Haven programs for street-homeless individuals. Services include clinical care, assessments, and referrals to outside providers as needed. Services are provided by sub-contracted clinical providers, including physicians, nurse practitioners, psychologists and psychiatrists.

FY18 Volume: Services were provided in five contracted Drop-In centers and 15 Safe Haven programs and by outreach programs in all five boroughs and the subway system. The Drop-In Centers and Safe Haven programs have capacity to serve 1,100 individuals on any night, and outreach programs served about 14,500 unique individuals.

FY18 Budget Allocation: \$3.5 million

Service Locations: Outreach teams provide services across all five boroughs, Safe Haven locations are confidential, and Drop-In Centers are at the following locations:

Mainchance Drop-In Center: 120 E 32nd St, NY, NY 10016

Olivieri Drop-In Center: 257 W 30th St NY, NY 10001

The Gathering Place Drop-In Center: 2402 Atlantic Ave, Brooklyn, NY 11233

The Living Room Drop-In Center: 800 Barretto St, Bronx, NY 10474

Project Hospitality Drop-In Center: 25 Central Ave, Staten Island, NY 10301

[Department for the Aging](#)

Agency Mission: DFTA is committed to eliminating ageism and ensuring the dignity and quality of life of diverse older adults. The agency works to support caregivers through service, advocacy, and education. As the nation's largest Area Agency on Aging, DFTA partners with a network of over 400 contracted community-based organizations for the provision of programs and services. DFTA also directly offers information and assistance through a variety of programs and provides active older adults training, and paid and volunteer opportunities.

Healthcare Services at DFTA: DFTA offers healthcare services in individual homes to a limited number of frail older adults who live with chronic conditions and disabilities. Specifically, these healthcare services are included in the following programs: case management, home care, and Naturally Occurring Retirement Communities (NORCs).

(1) Healthcare for Home Care clients

Four home care agencies are contracted by DFTA to provide home care and housekeeping to frail clients who are not eligible for Medicaid. These services include in-person nurse assessment visits at least once a year.

FY18 Volume: 3,646 clients

FY18 Budget Allocation: \$0.6 million

Service Locations: Various locations in all five boroughs in clients' homes

(2) Healthcare for Case Management clients receiving Home Meds Program

A contracted case management agency offers this evidence-based medication safety program that provides an in-home medication review and intervention, including a computerized risk assessment and alert process, plus a pharmacist review and recommendation for improvement. Medication alerts occur if the pharmacist is needed to review the medications, which occasionally require the pharmacist to contact the client's doctor.

FY18 Volume: 198 clients

FY18 Budget Allocation: \$0.02 million

Service Locations: Various locations in clients' homes within Manhattan Community Districts 9, 10, and 12.

(3) Healthcare for individuals living in Naturally Occurring Retirement Communities (NORCs)

NORCs are multi-age housing developments or neighborhoods not originally built for older adults, but which now house a significant number of older adults. DFTA funds supportive-services programs at many of the city's NORCs, where residents can access health-related programming from nurses located on staff, such as individual healthcare management and assistance (e.g., assessments and consultations, monitoring of specific conditions, and information and coordination with other healthcare providers).

FY18 Volume: 1,368 clients

FY18 Budget Allocation: \$0.2 million

Service Locations:

Penn South NORC: 290 Ninth Avenue, NY, NY 10001

Union Settlement Franklin Plaza NORC: 2090 Second Ave, NY, NY 10029

Beth Abraham Parkchester Enhance (PEP) NORC: 1525 Union Port Rd, Bronx, NY 10462

Samuel Field Y Deepdale Gardens NORC: 57-17 Marathon Pkwy Flushing, NY 11362

Samuel Field Y Clearview Gardens NORC: 163-59 17th Ave, Flushing, NY 11357

Isabella Geriatric Ft George Vistas NORC: 17 Ft. George Hill, NY, NY 10040

Department of Health and Mental Hygiene

Agency Mission: The New York City Department of Health and Mental Hygiene (DOHMH) works to protect and promote the health of 8.6 million diverse New Yorkers. While most DOHMH activities are public health oriented, and not healthcare oriented, the agency does provide some limited healthcare services.

Healthcare Services at DOHMH:

(1) Sexual Health Clinics

These eight clinics provide low- to no-cost services for sexually transmitted infections (STIs), including HIV.

FY18 Volume: 81,000 visits

FY18 Budget Allocation: \$27.5 million

Service Locations:

Central Harlem 2238 Fifth Ave, 1st Floor, New York, NY 10037

Riverside 160 W. 100th Str, New York, NY 10025

Chelsea 303 Ninth Ave, New York, NY 10001

Morrisania 1309 Fulton Ave, 2nd Floor, Bronx, NY 10456

Crown Heights 1218 Prospect Pl, 2nd Floor, Brooklyn, NY 11213

Fort Greene 295 Flatbush Ave Ext., 2nd Floor, Brooklyn, NY 11201

Corona 34-33 Junction Blvd, Jackson Heights, NY 11372

Jamaica 90-37 Parsons Blvd, 1st Floor, Jamaica, NY 11432

(2) Immunization Clinic

The immunization clinic at Fort Greene Health Center provides required vaccinations for children (ages 4 and older) to attend school and for adults to attend college. The clinic also offers seasonal flu shots and other recommended vaccines.

FY18 Volume: 26,331 visits

FY18 Budget Allocation: \$13.3 million

Service Locations: 295 Flatbush Ave Ext., 5th Floor, Brooklyn, NY 11201

(3) Tuberculosis Chest Centers

The tuberculosis (TB) Chest Centers provide free TB evaluation and treatment to individuals at high-risk for TB throughout NYC. Services include TB testing and diagnosis, treatment for both latent TB infection and active TB disease, and treatment monitoring via in-person and video directly observed therapy. In addition to clinic-based healthcare services, DOHMH also provides field-based clinical services including in-person directly observed therapy, TB testing, medication injections, and physician/nurse home visits for non-ambulatory patients (this includes blood draws, physical exams, and distribution of medications).

FY18 Volume: 35,845 clinic visits

FY18 Budget Allocation: \$6.9 million

Service Locations:

Morrisania 1309 Fulton Ave, 1st Floor, Bronx, NY 10456
Fort Greene 295 Flatbush Ave Ext., 4th Floor, Brooklyn, NY 11201
Washington Heights 600 W. 168th St, 3rd Fl, New York, NY, 10032
Corona 34-33 Junction Blvd, 2nd Fl, Jackson Heights, NY 11372

(4) Nurse Family Partnership (NFP)

Nurse-Family Partnership® (NFP) is a national, evidence-based home visiting program. DOHMH began implementing NFP in 2003 and the NYC program is the largest urban NFP program in the United States. NYC NFP serves first-time, low-income mothers and their children from pregnancy through age 2. NFP is an evidence-based, community health program that serves low-income women pregnant with their first child. Early in her pregnancy, each new mom is partnered with a registered nurse and is eligible to receive nurse home visits throughout the course of her pregnancy and up to the child's second birthday.

FY18 Volume: 2,742 families

FY18 Budget Allocation: \$16.4 million

Service Locations: Services are delivered across the city, in home based settings as well as to adolescents in foster care, adolescents and women in homeless shelters and adolescents and women who are either incarcerated on or recently released from Rikers Island.

(5) Early Intervention

The Early Intervention Program helps young children (birth to 3 years) who are not learning, playing, growing, talking or walking like other children their age. The program is available to infants and toddlers who have been diagnosed with a condition that will likely result in a developmental delay or who have a developmental delay that meets eligibility criteria set by the New York State Department of Health. Early Intervention services are provided by therapists and teachers who are employed by, or subcontract with, agencies that have agreements with the State Department of Health and which are administered by DOHMH.

FY18 Volume: 54,754 children

FY18 Budget Allocation: \$70.0 million

Service Locations: Various locations in all five boroughs in clients' homes

Department of Education

Agency Mission: The New York City Department of Education (DOE) is committed to working collaboratively with parents, educators, school communities, and external stakeholders to improve student achievement and ensure that every child graduates from high school prepared for college, a career, and a future as a productive, critically thinking adult.

Healthcare Services at DOE: Healthcare in DOE facilities is provided by the Office of School Health (OSH), a joint office of the DOE and DOHMH. Services are available during school hours for enrolled students.

(1) School Based Health Centers

There are 159 School-Based Health Centers (SBHC) serving 396 schools in the five boroughs of New York City. SBHCs bring the comprehensive medical services of a doctor's office to the school so that students can avoid health-related absences and get the support they need to succeed in the classroom.

FY18 Volume: 207,900 students

FY18 Budget Allocation: \$6.5 million

Service Locations: See Appendix E

(2) School Based Nursing and Clinical Services

OSH provides healthcare services and preventive services to DOE students. OSH places nurses in approximately 90 percent of NYCDOE sites (excluding sites with School-Based Health Centers) and an addition 200 non-public schools each year. School nurses provide medication administration, case finding by review of new entrant exams, nurse and teacher observations, and scheduling students for physician evaluations. School nurses also send referrals to parents and guardians if further assessment is needed. School health physicians conduct clinical assessments, sports and working paper physical exams, and chronic disease case management.

FY18 Volume: Approximately 1.2 million school aged children

FY18 Budget Allocation: \$177.6 million

Service Locations: See Appendix E

(3) Vision Services

The OSH Vision Screening Program provides free vision screening for pre-K, kindergarteners, and first graders in all public schools and to all students in community schools, as well as free eye exams and eyeglasses in select schools. OSH provides vision services to ensure that those with serious vision problems receive the evaluation and treatment they need.

FY18 Volume: Approximately 400,000 students annually

FY18 Budget Allocation: \$7.5 million

Service Locations: See Appendix E

(4) Oral Healthcare Services

OSH has developed robust public-private partnerships to offer preventive and restorative dental services to over 100,000 students in 600 public schools and funds SBHCs to expand and increase their dental services to students. OSH also monitors quality control of services and offers technical assistance to SBHCs and vendors and provides case management to students and families in need of referrals to community providers for more extensive services

FY18 Volume: Over 100,000 students

FY18 Budget Allocation: \$1.2 million

Service Locations: See Appendix E

[NYC Health + Hospitals](#)

H+H Mission: NYC Health + Hospitals (H+H) is the largest public healthcare system in the United States. It provides essential inpatient, outpatient, and home-based services to more than one million New Yorkers every year in more than 70 locations across the city's five boroughs. H+H is a public benefit corporation under New York State law and thus operates under a different governance structure than do City agencies.

(1) Health + Hospitals

FY18 Budget Allocation: H+H is a public benefit corporation with revenues and expenditures outside of the City budget. In FY18, H+H had total expenditures of \$7.3 billion.

FY18 Volume: 1.2 million

Service Locations: see Appendix E

(2) Correctional Health Services

CHS provides for the care, custody, and control of people accused of crimes or convicted and sentenced to one year or less of jail time.

FY18 Volume: 43,000

FY18 Budget Allocation: \$260.2 million

Service Locations: see Appendix E

Review of Reports Pertaining to the Provision of Healthcare

As required by law, below is a summary of the reports published by the City over the past two years pertaining to the provision of healthcare services provided by City agencies. Inasmuch as many of these reports have a broad scope, they may include information on subjects beyond healthcare. In summary, these reports fall into two categories: citywide reports such as the Mayor’s Management Report (MMR) and OneNYC, and agency-specific reports. Links to the reports are included below or, if the reports cannot be found online, are included in Appendix D.

Mayor’s Management Report (MMR) is mandated by the City Charter, serves as a public account of the performance of City agencies. The MMR is released twice a year and measures whether City agencies are delivering services efficiently, effectively and expeditiously. The Preliminary MMR (PMMR) provides an early update of how the City is performing four months into the fiscal year. The full-fiscal MMR, published each September, looks retrospectively at the City’s performance during the prior fiscal year. The MMR and PMMR can be accessed at this link: <https://www1.nyc.gov/site/operations/performance/mmr.page>

One New York: The Plan for a Strong and Just City (OneNYC), is the City’s strategic plan for inclusive growth and climate action, which was originally issued in 2015. In OneNYC, the City made significant commitments: lifting 800,000 New Yorkers out of poverty or near poverty; creating new job opportunities; dramatically reducing greenhouse gases and waste sent to landfills; achieving the cleanest air of any large U.S. city; and ensuring that those on the front lines of climate change—often the most vulnerable New Yorkers—are protected against its risks. Though OneNYC is not primarily about the provision of healthcare, it includes references to and analyses of some City health and healthcare services. Each year, the City publishes a report on progress made, and can be located at this link: <https://onenyc.cityofnewyork.us/>

District Resource Statement (Office of Management and Budget) is prepared annually by the Office of Management and Budget. Sections 2707 and 2708 of the New York City Charter require that agencies report expense budget and service information to the City’s 59 community boards at the agency’s service district level. The reporting levels vary by agency and by program, and include some references to healthcare services. Reports for each agency are voluminous and can be requested from the Office of Management and Budget’s Community Board Unit.

Clinic Cycle Times for Services (DOHMH) DOHMH has performed this review for its Sexual Health Clinics, Tuberculosis Chest Centers, and Immunization Clinics. For the purposes of this report, “cycle time” is defined as the time elapsed from the moment patient arrives at a healthcare facility to the time the last service provided is complete. Clinic Cycle Times are also submitted to City Council annually and presented in the Mayor’s Management Report (described above). A copy of the report can be found in Appendix D.

Hepatitis Report: DOHMH publishes a Hepatitis B and C annual report, per Council mandate, which includes data on people reported with those diseases, clinical information, mortality rates, and a summary of health department Hepatitis B and C prevention and screening services, patient navigation and care coordination activities, community engagement highlights, recent policy and health code amendments, publications, and presentations. The report can be found at the following link: <https://www1.nyc.gov/assets/doh/downloads/pdf/cd/hepatitis-b-and-c-annual-report-2016.pdf>

Tuberculosis Report: DOHMH publishes an annual summary of data about people diagnosed with tuberculosis, their associated demographic, clinical and social history information as well as treatment outcomes and mortality. The report also includes a summary of DOHMH tuberculosis control and prevention activities including case management, public health investigations, community engagement highlights, clinical services, research and publications. The report and associated slide deck can be found at the following link: <https://www1.nyc.gov/site/doh/health/health-topics/tuberculosis-historical-reports.page>

H+H Community Health Needs Assessment: All non-profit hospitals in the United States are required to conduct a Community Health Needs Assessment every three years. H+H completed their most recent assessment in 2016, which can be found at the following link: <https://www.nychealthandhospitals.org/publications-reports/2016-community-health-needs-assessment/>

CHS Access to Health Services Reports (Correctional Health Services): The Board of Correction, with assistance from Correctional Health Services (CHS), developed a series of metrics that show utilization of jail healthcare services. The reports include a description of a wide range of services including nursing, medical services, social work, and dental care. It also includes data on reasons for missed visits that may affect access to care. The report can be found at the following link: https://www1.nyc.gov/assets/boc/downloads/pdf/Reports/Correctional-Health-Authority-Reports/2018/chs_access_report_july_2018.pdf

CHS Specialized and Segregated Housing Report: This is a quarterly report, per Council mandate, that provides data on statutorily defined metrics concerning specialized and segregated housing units in NYC Department of Correction facilities. CHS provides information including medical encounter data, patients on the mental health service, medication, and aggregate patient morbidity and mortality information. The data on this report is a combination of medical utilization and facility incident information and is provided in coordination with NYC Department of Correction. A copy can be found in Appendix D.

CHS LL 58 Report: This is a quarterly report, per Council mandate, on statutorily defined metric categories concerning intake, patient safety, preventable hospitalizations, and follow-up. Unique metrics to this report include patient intakes, medication variances, medication orders, average length of stay, and census information. A copy can be found in Appendix D.

School Health Report: Per Council mandate, this annual report provides school district-level data on various indicators of healthcare provision and health outcomes in students, including the number of school buildings with a full time Office of School Health nurse, ratio of students to nurses, total and average number of student encounters, breakdowns of body-mass index (BMI), number of medication orders reviewed, numbers of students with certain medical conditions, total number of students served in school based health centers (SBHCs), and the counts of the different types of SBHC providers. A copy of the report can be found in Appendix D.

Summary of Coordination Projects

The law requires the inclusion of a summary of projects or programs to coordinate healthcare services across agencies, with a particular emphasis on vulnerable populations. City agencies coordinate on individual patient care and across administrative systems to provide tailored and efficient healthcare, and the Committee identified further coordination as an important area of focus. The following are formal FY18 coordination projects to better coordinate care for specific vulnerable populations, with the participating agencies noted.

Neighborhoods with High Disease Burden (DOHMH and H+H)

DOHMH's Neighborhood Health Action Centers are revitalizing underutilized Health Department buildings by co-locating healthcare providers, community-based organization services, and public agency programs. The agency manages three Action Centers in communities with high burden of disease – which are also low income communities of color – to provide a space for direct service provision. Action Centers are located in East Harlem, Brownsville, and Tremont. Healthcare services at the Centers are provided through contracts with external providers, including H+H. DOHMH provides space, but not funding, for these services.

Homeless Pregnant and Parenting Women (DHS/DSS and DOHMH)

DOHMH's Newborn Home Visiting Program is a service for mothers residing in DHS shelters. Through the program, a health worker visits the shelter to provide maternal and infant health education, home environmental assessments, and community resource connection. Educational topics include breastfeeding, safe sleep and maternal depression. While this coordination project is specific to serving women in shelter, this program is also available more broadly.

Homeless Individuals and Families (DHS/DSS, DOHMH, and H+H)

Homeless Health Care Workgroup: In January 2018, DHS/DSS launched the Homeless Health Care Workgroup along with partners from DOHMH, H+H, the Office of Management and Budget and the Office of the Deputy Mayor for Health and Human Services. The goal of the Homeless Health Care Workgroup is to develop and implement recommendations on how the City can best provide sustainable healthcare services for homeless adults in DHS programs, including facilitating insurance enrollment and utilization.

Ward's Island on-site clinic: As of September 2018, H+H operates an Article 28/31 clinic on-site at a DHS/DSS men's single adult mental health shelter on Ward's Island. The clinic offers healthcare services for residents of that shelter, as well as other homeless and unstably housed individuals on Ward's Island. Along with the provision of services, this initiative will support the study of the viability of future H+H and DSS/DHS partnerships.

Young Adults in the Correctional System (ACS and H+H Correctional Health Services)

H+H/CHS is assisting ACS with planning and oversight of health services at Specialized Secure Detention Facilities in accordance with the "Raise The Age" legislation that mandates removal of 16 and 17 year olds from Riker's Island. Under the partnership, H+H/CHS is assuming general oversight of the ACS contracted healthcare providers that were already working within the juvenile detention centers.

Children in Schools (DOE and DOHMH)

The Office of School Health (OSH) is a joint program of the DOE and DOHMH, and provides health services to DOE students. Those services are described elsewhere in this report.

Children in the Child Welfare System (ACS and Health + Hospitals)

Pursuant to Article 29-I of Section 1 of the New York State Public Health Law, Voluntary Foster Care Agencies (VFCAs) must be licensed by the New York State Department of Health to provide limited health-related services to children in foster care, enabling VFCAs to contract with and bill Medicaid Managed Care Plans. As part of their licensure, VFCAs must create policies and procedures for the management of emergency healthcare that must include:

- Referring children whose needs exceed what the VFCAs can provide
- Agreements with hospitals for healthcare needs
- Documentation for the healthcare provider to treat children including signed consent
- Responses to suspected or diagnosed communicable disease

To support these efforts, ACS and H+H work to ensure that all VFCAs have access to immediate emergency medical services at any H+H facility, and that as patients are preparing for discharge, coordination occurs between H+H and the VFCAs to ensure appropriate transition and ongoing care. H+H facilities are available to ACS clients as a back-up medical resource for specified services that are outside the scope of other providers the patients might see. H+H also provides dental services to children served by VFCAs through a subcontract.

Pregnant and Parenting Youth in Foster Care (ACS and DOHMH)

ACS and DOHMH are coordinating home visiting nurse services for pregnant and parenting youth in foster care through the Nurse Family Partnership (NFP). NFP is an evidence-based, community health program that serves low-income women pregnant with their first child. Early in her pregnancy, each new mom is partnered with a registered nurse and is eligible to receive nurse home visits throughout the course of her pregnancy and up to the child's second birthday. These two agencies have collaborated since 2006 on serving pregnant teens in foster care.

Young Children with Developmental Delays (ACS, DHS/DSS, and DOHMH)

ACS and DHS/DSS have created an Early Intervention (EI) Referral Coordination process to prevent duplicate referrals to DOHMH's EI program, described earlier in this report. The EI Program also collaborates with the DHS to identify shelters located in zip codes with low rates of EI referral. The collaboration provides outreach and education for shelter staff, child care liaisons and families to increase referrals to EI and ensure coordination between systems.

Older Adults Being Discharged from Hospitals (DFTA and H+H)

Under New York State's Medicaid Delivery System Reform Incentive Payment (DSRIP) program, DFTA has partnered with the NYC Health + Hospitals' OneCity Health (OCH) to reduce avoidable hospital readmissions within 30 days of hospital discharge for Medicaid and uninsured patients. DFTA provides care transition services in two Queens H+H hospitals through contracts with two community-based organizations. Team nurses are responsible for attending hospital rounds, conducting initial assessments for referred patients prior to discharge, and assisting with medication reconciliation. Following discharge, the team (social worker and community liaison) is responsible for services in the community during the 30-day period.

Homebound Older Adults (DFTA, DOHMH, and DSS/HRA)

DFTA case management and elder abuse agencies have coordinated with DOHMH on the delivery of PEARLS (an evidence-based mental health program for depressed seniors who have difficulty leaving their homes), as well as with HRA's Adult Protective Services on elder abuse cases and referrals.

Recommendations

Since the enactment of Local Law 6, the newly-convened Committee has met twice to discuss the community health indicators and descriptions of City healthcare services included in this report, and to discuss recommendations as per the requirements of the law. Committee members, who were also encouraged to share feedback and insight from other community stakeholders, have further engaged with City and agency health leaders individually on specific questions and ideas. Following these discussions and opportunities for input, the Committee advised on the development of the following recommendations for long-term planning and further study to utilize, enhance, and coordinate City healthcare services.

As per the statute, the recommendations below focus on utilizing City healthcare services to address the healthcare needs of, and engage in outreach to, vulnerable populations; improve the coordination of healthcare across City agencies; and make optimal use of existing healthcare services. The Committee is pleased to memorialize many of its discussions in these recommendations and looks forward to its ongoing work. At the same time, the Committee acknowledges that the following are initial recommendations offered in an advisory capacity and generated under time constraints. Thus, as discussed below, the Committee recommends using these as a starting point for future work by subject-specific workgroups and action.

- 1. The Committee recommends enhancing current coordination and information sharing between the agencies providing City healthcare services. More formalized opportunities for information sharing would allow agencies to better analyze community-level needs, develop responsive programs and policies, deploy resources efficiently, and promote alignment to best serve vulnerable populations.**

New York City government, like all large organizational systems, contends with issues of coordination and communication across various participants. The City agencies participating in this Committee have reiterated the importance of strong collaboration and information sharing to better understand and address the healthcare needs of the vulnerable populations they serve, and are eager to engage in more robust coordination to this end. This might be done through standing collaborative meetings, issue-specific workgroups, or one-to-one information sharing sessions. Though this coordination will center on agencies providing healthcare, Committee members note that it may be necessary and appropriate to include non-healthcare agencies at times.

Many of the involved agencies are working to address similar challenges in the populations they serve, and there are clear opportunities to develop partnerships or, when appropriate, a broad approach to specific healthcare services. Similarly, certain programs or approaches undertaken by one agency could have value for other agencies working to accomplish similar goals. For example, Committee members noted that the lessons learned in the Office of School Health to connect more public school students to dental care might be leveraged by the Department for the Aging as they work to meet the dental care needs of the older New Yorkers that they serve.

Further, the Committee discussed City agencies sharing and reviewing data like the community-based health indicators included in this report and less formal community-level observations to support coordinated analysis, planning, and evaluation. Though many data are publicly available, some Committee members feel it will be beneficial for a more structured and regular review to facilitate the development of evidence-driven approaches to chronic diseases and other healthcare needs. These analyses may also benefit from assessing local New York City data in comparison to national goals or rates, such as those included in the federal government's Healthy People 2020. Finally, Committee members have recommended exploring the role of technology, which may also play an important role in facilitating this sharing of information.

These types of cross-agency collaboration and alignment of activities can be targeted to specifically benefit the vulnerable populations the City is committed to serve. Committee members are interested in examining the impact of such coordinated efforts and identifying areas for enhancements based on underlying data.

2. The Committee recommends assessing steps to pursue patient-level data sharing across agencies. Continuing this ongoing work could promote coordinated care for vulnerable populations.

The Committee recognizes the critical importance of patient-level data sharing, as well as the multiple technological, operational, and legal barriers to doing so. Many of the individuals and families served by the City interact with multiple agencies – for example, some homeless adults may cycle between the criminal justice system, the homeless shelter system, and the public hospital system. City residents, particularly our most vulnerable populations, could benefit if the agencies providing services and care have a comprehensive picture, supported by data, about their individual needs and experiences. Likewise, having this capacity could support agencies in better coordinating services to those communities. The Committee also recognizes that the sharing of personally identifying information between agencies must be done in a legally compliant manner, respectful of the potential privacy concerns and based on viable technological and operational systems. Thus, any sharing of patient-level data should be developed to accomplish specific actionable improvements in coordinating service delivery.

In particular, Committee members noted that inter-agency data sharing would support both patients and healthcare providers in ensuring successful transitions across care settings and access to optimal longitudinal care. Data sharing is not the only way that City healthcare services can support individuals as they travel across locations and systems, but it is a meaningful one to enhance care and services to the same individual known to multiple City agencies.

The Committee recognizes that efforts to facilitate this data sharing are ongoing, and encourages this work to continue. For example, the Citywide Data Integration

Initiative, established in 2015, provides a citywide framework which sets forth legal privacy and data security protocols for facilitating multiagency projects, with the goal of better coordinating and delivering needed services to clients receiving care by the City. This legal framework will continue to be leveraged to advance this important work.

- 3. The Committee recommends an assessment of how to continue community engagement to best provide healthcare services to vulnerable populations. These efforts might include building on ongoing agency outreach efforts, exploring innovations to support remote care, or evaluating further opportunities for place-based care.**

Understanding community-specific needs and engaging communities were common topics of Committee discussion. Given the expansive range of potential community-based actions and services, Committee members did not feel comfortable recommending specific actions at this time, but raised the importance of continuing a thoughtful exploration of ways to elevate the voices of communities in future Committee discussions.

Committee members noted that traditional models of healthcare may have required patients to travel out of their neighborhood to get to the locations where the healthcare was provided, like hospitals or government offices. For many low-income people and other vulnerable populations, the geographic and logistical challenges in getting to services may prevent them from accessing the care they want or need, even when available.

Some agencies are thus integrating healthcare and other services more deeply into the communities in which people live. Programs like DOHMH's Neighborhood Health Action Centers and ACS's Family Enrichment Centers are intended to provide community-based access points to a range of services for vulnerable individuals and families. Similarly, DFTA's NORC programs bring healthcare services, screenings, and evidence based health promotion classes to older New Yorker's homes. The Committee discussed the benefits of City agencies more deliberately assessing whether and how the availability of such community-based access points might improve City healthcare services.

On a related point, some Committee members noted that technological innovations such as telehealth services could provide additional ways to bring services to people in their communities. Effective utilization of these innovations could alleviate some of the geographic and logistical challenges.

4. The Committee recommends exploring more opportunities to provide implicit bias training in the settings and programs that serve communities of color, LGBTQ communities, and other vulnerable populations in New York City.

Nationally, extensive literature documents the presence of racially-based health inequities. There is evidence of such disparities in local data as well, as identified in this report. As part of addressing these concerns, Committee members noted that it is important to acknowledge implicit bias – the unconscious attitudes or stereotypes that can affect behaviors, decisions and actions in their treatment of people of color or other vulnerable populations – in healthcare and its impacts on individuals and communities.

New York City recently launched an effort to bring training on such implicit bias to healthcare providers to reduce racial disparities in maternal and child health outcomes. Committee members have suggested further exploration of such trainings, policies, and procedures for application to additional healthcare services.

With that suggestion, though, Committee members emphasize that implicit bias training cannot be a one-off response to these large and complex problems. It is only one step in targeting health inequities in our communities. Nonetheless it is one the Committee recommends exploring as part of a larger effort to ensure that New Yorkers receive the highest quality healthcare services, regardless of their race, ethnicity, or other elements of identity.

5. Acknowledging that this report reflects only its initial work, the Committee recommends the following possible steps to continue its service:

- a. Continue convening roughly every six months to further Committee work and priorities. As of the issuance of this report, the Committee anticipated next meeting in early 2019.
- b. Seek further research on the relevant history and purposes of existing healthcare services provided by the City to better inform future decision-making.
- c. Stratify available community health data as possible, for example by race and ethnicity or insurance status to better explore the specific needs of communities and identify gaps in healthcare services for vulnerable populations.
- d. Develop technical sub-groups to further explore specific topics of interest to the Committee, as noted above.

Appendix A: Text of Enabling Statute

Be it enacted by the Council as follows:

Section 1. Chapter 1 of the New York city charter is amended by the adding a new section 20-e to read as follows:

§ 20-e. Committee on city healthcare services.

- a. There shall be a committee on city healthcare services established by the mayor, or the mayor's designee, to review community-based health indicators in New York city, and evaluate community-level health needs that can be addressed by city healthcare services.
- b. Such committee shall consist of, but need not be limited to: a representative from the department of health and mental hygiene; representatives from city agencies that provide healthcare services or that contract with entities for the provision of healthcare services; the speaker of the council or their designee; and the chairperson of the council committee on health, or successor committee, or their designee. A representative of the New York city health and hospitals corporation shall be invited to join. In addition, the mayor and the speaker shall each appoint five members representing healthcare stakeholders throughout the city.
- c. The mayor or the mayor's designee shall designate the chairperson of the committee from among its members who shall preside over meetings. Members will be eligible for reappointment every four years.
- d. The committee shall issue a report on October 15, 2018, and every two years thereafter. Such report shall be submitted to the mayor and the speaker of the council and posted online. The report shall include, but not be limited to, the following information and data:
 1. A review and compendium of reports produced by the city over the previous two-year period pertaining to the provision of healthcare services.
 2. Recommendations for utilizing city healthcare services to address the healthcare needs of, and engage in outreach to, vulnerable populations, including, but not limited to: low-income individuals; the uninsured; the under-insured; homeless individuals and families; incarcerated individuals; communities of color; the aging; lesbian, gay, bisexual and transgender individuals; immigrants; women; people with limited English proficiency; individuals under the age of 21; and people with disabilities;
 3. A summary of any projects or programs undertaken to coordinate healthcare services across city agencies, with particular emphasis on historically underserved or vulnerable populations, and recommendations to improve such coordination and make optimal use of existing healthcare services;
 4. A description for the immediately preceding fiscal year of allocations for healthcare services by the department of health and mental hygiene and all other agencies directly providing healthcare services to anyone other than an employee of such agency, or which contract with entities for the direct provision of healthcare services, and the number of persons served by the department and such agencies. The information described in this subparagraph shall be provided to the mayor and the speaker annually on October 15; and
 5. A review and analysis of existing reportable city agency data for the immediately preceding fiscal year that may include, but need not be limited to, the following

data, disaggregated geographically to the extent the data is available in such a disaggregated format:

- (a) insurance coverage,
- (b) infant mortality rates per 1000 live births,
- (c) immunizations,
- (d) smoking,
- (e) obesity,
- (f) hypertension,
- (g) asthma,
- (h) preventive care visits,
- (i) emergency room visits,
- (j) number of unique inpatients and outpatient visits at facilities operated by health and hospitals corporation, and
- (k) other data or indicators of community health and healthcare service delivery.

- 6. An overview of the locations of clinical healthcare services operated by the city, inclusive of current street addresses.

- e. In carrying out the requirements of this section, the committee shall provide opportunity for meaningful and relevant input from, and duly solicit and consider the recommendations of, additional local providers of healthcare services, healthcare workers and organizations representing them, social service providers, community groups, patient and community advocacy organizations, and other members of the public.

§ 2. This local law takes effect 120 days after it becomes law.

Appendix B: List of Committee Members

As of October 2018

Name	Organization	Title
Lloyd Bishop	Greater New York Hospital Association	Senior Vice President & Executive Director
Louise Cohen	Primary Care Development Corporation	Chief Executive Officer
Guillermo Chacon	Latino Commission on AIDS	President, Executive Staff
Henry Garrido	District Council 37	Executive Director
Dr. Anthony Shih	United Hospital Fund	President
Anthony Feliciano	Commission on the Public Health System	Director
Dr. Judith Salerno	New York Academy of Medicine	President
Patrick Germain	Department of Health and Mental Hygiene	Executive Director of Policy, Planning, and Strategic Data Use
Ellen Levine	Department of Social Services	Chief Program Planning & Financial Management Officer
Dr. Theodore Long	Health + Hospitals	Vice President for Primary Care
Dr. Angel Mendoza Jr	Administration for Children's Services	Agency Medical Director
Dr. Roger Platt	Department of Health and Mental Hygiene	Agency Medical Director
Carin Tinney	Department for the Aging	Director of Program Development
Louis Cholden-Brown	Office of the Speaker of the New York City Council	Director of Policy for the City Council
Council Member Mark Levine	New York City Council, Health Committee	New York City Council Member, Chair of Health Committee

Health insurance coverage - adults

Description: Percentage of adults 18 years and older who report not having health insurance coverage.

Source: NYC DOHMH, Community Health Survey, (2015 -2016).

Data are age-adjusted to the US 2000 Standard Population.

Infant Mortality

Description: Rate of infant deaths (under one year old) per 1,000 live births.

Source: NYC DOHMH, Bureau of Vital Statistics, (2014 - 2016).

Denominator source: NYC DOHMH, Bureau of Vital Statistics.

HPV Vaccination

Description: Percentage of adolescents ages 13 to 17 years old who completed the human papillomavirus (HPV) vaccination series.

Source: NYC DOHMH Citywide Immunization Registry, (updated as of 3/31/2017).

Denominator source: NYC DOHMH population estimates, modified from US Census Bureau interpolated intercensal population estimates, 2015, vintage 2016.

Current smoking - adults

Description: Percentage of adults 18 years and older who report being current smokers (smoking at least 100 cigarettes and now report smoking every day or some days).

Source: NYC DOHMH, Community Health Survey, (2015 - 2016).Data are age-adjusted to the US 2000 Standard Population.

Obesity - adults

Description: Percentage of adults 18 years and older who have obesity (Body Mass Index of 30 or greater) based on self-reported height and weight.

Source: NYC DOHMH, Community Health Survey, (2015 - 2016).Data are age-adjusted to the US 2000 Standard Population.

Hypertension - adults

Description: Percentage of adults 18 years and older who report ever being told by a healthcare professional that they have hypertension, also known as high blood pressure.

Source: NYC DOHMH, Community Health Survey, (2015 - 2016). Data are age-adjusted to the US 2000 Standard Population.

Children's Visits to Emergency Department for Asthma

Description: Rate of emergency department visits for asthma among children per 10,000 children ages 5 to 17 years old.

Source:

Source: New York State Department of Health, Statewide Planning and Research Cooperative System, 2015

Flu Vaccination

Description: Percentage of adults ages 18 and older who report receiving a flu vaccination in the last 12 months.

Source: NYC DOHMH, Community Health Survey, 2015-2016

New Hepatitis C Reports

Description: Rate of new chronic hepatitis C reports per 100,000 people.

Source: NYC DOHMH, Communicable Disease Surveillance Registry, 2016

Premature Mortality due to Cancer

Description: Rate of premature deaths (before the age of 65) due to cancer per 100,000 people.

Source: NYC DOHMH, Bureau of Vital Statistics, 2011-2015

Immunization Compliance

Description: Children in public schools who are in compliance with required immunizations by school district.

Source: Department of Education, Fiscal Year 2018

Diabetes

Description: Percentage of adults ages 18 and older who report ever being told by a healthcare professional that they have diabetes.

Appendix D:

Compendium of Reports

Clinic Cycle Times for Services (DOHMH)

Cycle Times for Services

**Bureau of Sexually Transmitted Disease Control,
Bureau of Tuberculosis Control, Bureau of Immunization
Cycle Time by Clinic: Calendar Year 2015-17**

Bureau of Sexually Transmitted Disease Control

The Bureau of Sexually Transmitted Disease Control (BSTD) operates eight Sexual Health Clinics citywide that serve anyone 12 years or older regardless of ability to pay, parental involvement, insurance coverage or immigration status. Sexual Health Clinics provide low to no-cost STI and HIV testing, treatment and prevention services; immunizations; cancer prevention, reproductive health and contraceptive services; behavioral health services; and navigation for referrals and follow-up care. As part of the City’s strategy and the State’s Blueprint for Ending the Epidemic (EtE) of HIV/AIDS, Sexual Health Clinics have expanded hours, services and access to “Express Visits” for all New Yorkers. Through EtE, Sexual Health Clinics now also offer Pre-Exposure Prophylaxis (PrEP) and Post-Exposure Prophylaxis (PEP) to prevent new HIV infections among patients at risk of infection and, for newly identified infections, immediate initiation of anti-retroviral treatment through the JumpstART program.

Cycle time is defined as the time elapsed from the moment a Sexual Health Clinic patient arrives at the facility to the time the last service provided is complete. Operationally, patients are provided with a triage card upon arrival, which is time stamped upon receipt. This time is recorded in the electronic medical record at the time of patient registration. The end time used is the last service logged into the medical record. The difference between the arrival time and service end time is calculated to give Cycle Time.

Sexual Health Clinic Cycle Time: Calendar Year 2015-17¹

Key Quality/Process Indicators	Goal	Total 2015	Total 2016	Total 2017
Clinic cycle time: HIV testing visits (includes screening for qualified patients) (h:mm) ²	≤1:30	1:09	1:17	1:28
Clinic cycle time: Clinician visits (h:mm) ³	≤2:00	1:57	1:50	2:04

¹ Through EtE, additional services were implemented at clinics beginning in 2016. These services require additional engagement between provider and patient, including the provision of PEP and required counseling.

² HIV visit cycle time visits include those with HIV post-test time stamps recorded. May also include other screening tests without an evaluation by a clinician. Operationally, excludes medical records that lack a clinician’s signature/ timestamp.

³ Clinician visit cycle time are visits that include an evaluation by a clinician. Operationally, includes those medical records with an electronic clinician signature/ timestamp.

Overall	1:58	2:01	1:59	2:08

¹ Information given is the average of measurable cycle time per visit, within each clinic. Overall, measurable cycle time is average for all patient visits throughout all Sexual Health Clinics.

Bureau of Tuberculosis Control

Bureau of Tuberculosis Control (BTBC) operates chest centers in four boroughs. BTBC chest centers are super specialist clinics that provide exclusive tuberculosis care from diagnosis to treatment completion. Patients identified with other medical issues are referred to health care providers of their choice or specialist practitioners as determined by a BTBC physician.

Cycle Time is the period of time a patient is in the BTBC's Chest Center clinic; that is, from the patient's entry to the clinic to the end of the encounter with the last clinic provider. Cycle time is collected by using the CDC's Patient Flow Analysis (PFA) system and the clinic electronic medical record. The primary data collected for PFA is time-based and captured by staff manually as patients enter the clinic and move from one station to the next, up to the time of departure.

Tuberculosis Control Clinic Cycle Time: Calendar Year 2015-17

Key Quality/Process Indicators	Goal	Total 2015	Total 2016	Total 2017
Clinic cycle time: All patient visit type combined (h:mm)	≤2:00	1:19	1:23	1:26

PATIENT CYCLE TIME⁵ (h:mm)

(All patient visits types combined)

Data obtained by conducting a patient flow analysis

Facility	2017 Q1	2017 Q2	2017 Q3	2017 Q4
Corona	1:10	1:15	1:04	1:01
Fort Greene	1:10	1:47	1:03	1:54
Morrisania	1:18	1:37	1:02	2:28
Washington Heights	1:27	1:28	1:28	1:48
Total	1:16	1:32	1:09	1:47

⁵ Class II threshold is ≤ 2:00; Class III, IV and V visits thresholds are ≤ 3:00

Bureau of Immunization

DOHMH's Bureau of Immunization (BOI) operates a walk-in immunization clinic in Fort Greene, Brooklyn. This clinic provides all immunizations required for school attendance (day care, K-12) and most vaccines recommended for adults.

The Bureau of Immunization uses an electronic health record, called the Screening and Immunization System (SIS) at the BOI clinic. SIS is able to capture and report cycle time for all completed patient visits.

Immunization: Clinic Cycle Time Calendar Year 2015-17^{6,7}

Key Quality/Process Indicators	Goal	Total 2015	Total 2016	Total 2017
Clinic cycle time: Median cycle time to complete a patient visit (h:mm)	≤60 Min	0:35	1:10	0:46

Key Quality/Process Indicators	Goal	2017 Q1	2017 Q2	2017 Q3	2017 Q4	Total 2017
Clinic cycle time: Median cycle time to complete a patient visit (h:mm)	≤60 Min	1:09	0:27	0:30	0:58	0:46

⁶ Cycle times are expressed as median times.

⁷ Additional school immunization requirements (including a new 7th and 12th grade meningococcal vaccine) contributed to additional children served in 2016. On average, children require more vaccines and have longer cycle times than adults.

Correctional Health Services – Specialized and Segregated Housing Report

City Council Local Law 42: April 2018 - June 2018			AMKC	GRVC		OBCC		Metric Notes	
Data Owners	Bill Indicator	Measure	CAPS	PSU	RHU	ESHU	ESHU YA		
DOC-H+H Joint Metric	xxvi	# of inmate requests for scheduled medical/mental health treatment	1206	647	735	834	153	# of medical and mental health visits scheduled for medical and nursing follow-up (1230), and MH visits (2345) (C-71 admin, MH visit, Psych meds) disaggregated by facility and housing category.

	xx	# of inmates transferred to psychiatric hospital (H+H) from PSU, PSU Lite and ESHU	N/A	0	N/A	0	0		
	xxi	# of inmates transferred to psychiatric hospital (H+H) from RHU and CAPS disaggregated by program	8	N/A	0	N/A	N/A	# of emergency runs that resulted in admissions to Bellevue and Elmhurst psychiatric wards. Data for discharges to state hospitals reported separately. [Does not include planned transfers to BHC or EHC psych wards.]	
		# of inmates transferred to STATE psychiatric hospital, disaggregated by program	7	0	0	0	0		
	xxv		# of inmates prescribed anti-psychotic medications, mood stabilizers, or anti-anxiety medication disaggregated by medicine type.						
			anti-psychotic	30	12	29	9	1	# of patients by facility and segregation type with active RX orders by medicine type (group). Patients may be counted more than once since patients can have active orders from more than one medicine group and may have been in more than one facility or segregation unit during the time period.
			mood stabilizers	18	1	5	1	0	
anti-anxiety	12	33	16	24	6				
xxxix		# of instances of allegations of staff on inmate sexual assault	3	2	4	4	0	Reports of sexual abuse by inmates involving DOC staff. <u>This metric reflects the total numbers of reports made from segregated housing, not all of these reports are for incidents that occurred in segregated housing areas.</u>	
DOC-H+H Joint Metric	xli	# of instances of allegations of inmate on staff sexual assault	0	4	0	0	0	Reported incidents	

NOTES:

1. RMSC has a combined CAPS/PACE unit. LL42 requirements exclude the PACE program. It is not possible to extract data for CAPS track patients housed in the combined CAPS/PACE unit due to data limitations. Therefore, data for CAPS track patients housed in the combined CAPS/PACE unit is excluded.

2. RMSC has a PSU unit; however, no M patients are housed within it. M patients who are designated as PSU are housed within the RHU by DOC. These patients are represented in the RMSC RHU numbers.

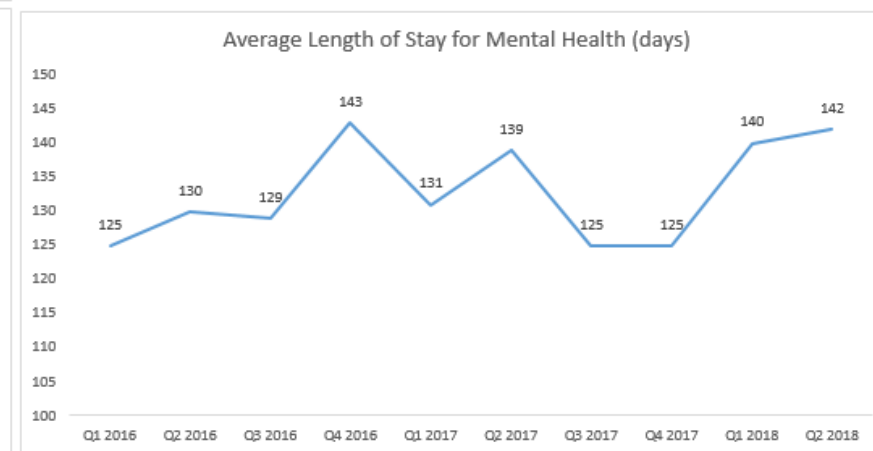

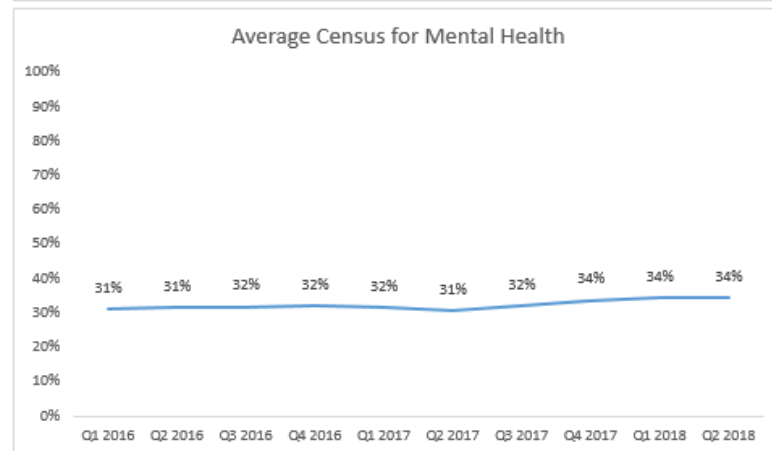

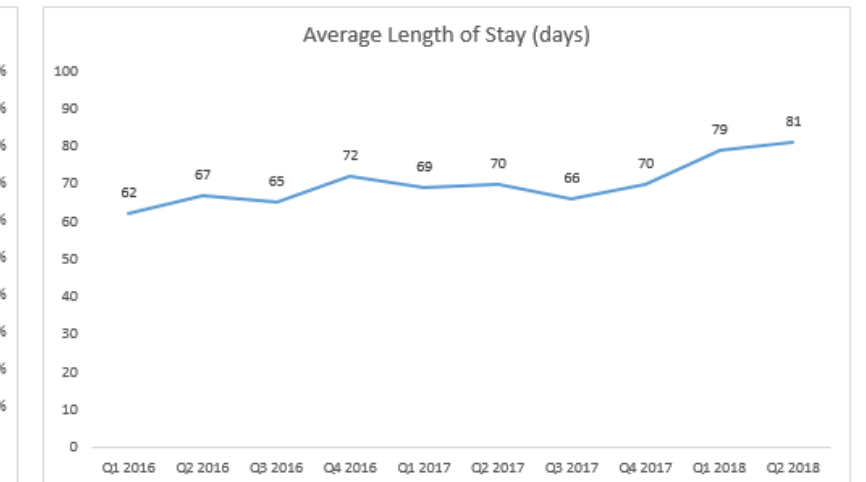

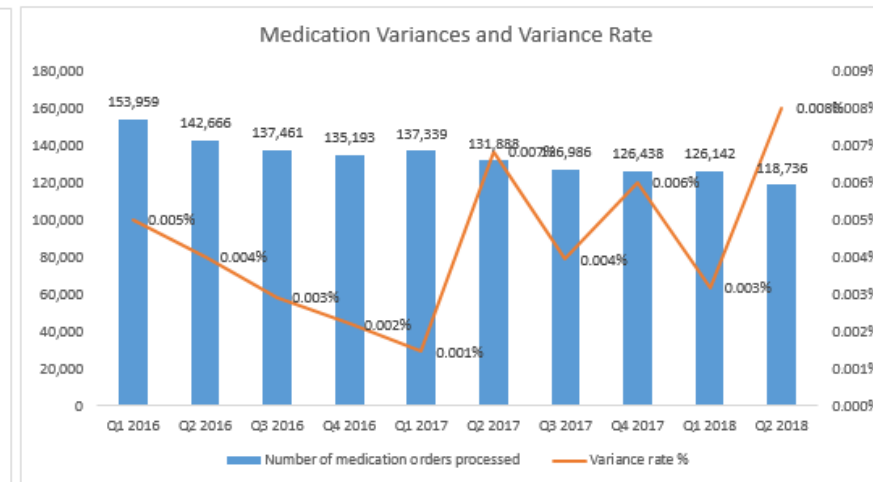

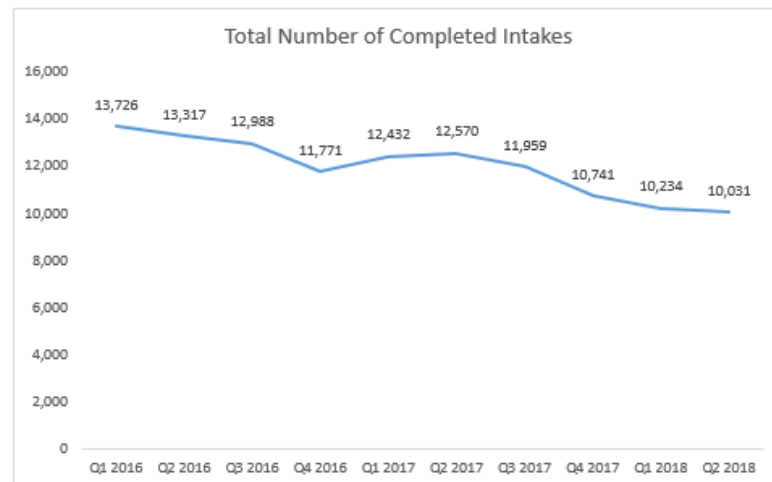

Correctional Health Services Local Law 58 Report

Local Law 58: CY 2018 Quarter 2 (April - June)

Version: 07/16/2018 (v1)

Metric	Description	Q1 2016	Q2 2016	Q3 2016	Q4 2016	Q1 2017	Q2 2017	Q3 2017	Q4 2017	Q1 2018	Q2 2018

	Average census for mental health	31%	31%	32%	32%	32%	31%	32%	34%	34%	34%
	Average length of stay for mental health (days)	125	130	129	143	131	139	125	125	140	142
	Utilization trending	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	See attached

¹Denominator only includes patients where the current hospitalization occurs in the reporting quarter. Any patient whose current hospitalization occurred in a different quarter than the preceding (but still within 30 days) will be counted in the quarter of the current hospitalization.

Local Law 58: CY 2018 Quarter 2 - Access Report Summaries (April – June)

Version: 07/20/2018 (v2)

I. Data Dictionary

1	CHS Intakes (New Jail Admissions)	Definition
1.1	Completed CHS Intakes	Number of CHS admission to jail encounters completed by a provider
1.2	Average time to completion once known to CHS (hours)	Number of hours between check-in by DOC and check-out by CHS for completed intake encounters
2	Referrals made to mental health service	Definition
2.1	Referrals made to mental health service	All book and cases with an initial referral to mental health in reporting month.
2.2	Referrals seen within 72 hours	For all book and cases where an initial referral to mental health occurs in reporting month, total number of book and cases that had a mental health intake or psychiatric assessment where encounter date was <=72 hours from referral date.
2.3	Percent seen within 72 hours	2.2 divided by 2.1
3	Scheduled services by discipline with outcomes	Definition
	Service Outcomes	Shows all scheduled services by discipline and disaggregates by outcome status recorded in the EHR. Excludes encounters scheduled for discharged patients. Substance Use data sources are still being defined and will be added as a discipline in future reports. -Nursing excludes: finger sticks, wound care and labs collected. -On-Island Specialty includes: Audiology, Cardiology, Dermatology, Dialysis, ENT, Gynecology, Hand Specialist, ID Specialist, Nephrology, Neurology, Optometry, Orthopedic, Podiatry, Post Partum, Pre-Natal, Rehab Physical Therapy, Reproduction, Surgery -Off-Island Specialty includes: Audiology, Breast, Cardiology, Cardiovascular, Chest, Dermatology, Endocrinology, ENT, Gastroenterology, General Surgery, Gynecology, Hand, Hematology, ID/Virology, Neurosurgery, Oncology, Ophthalmology, Oral Surgery, Orthopedic, Pain Management, Plastic Surgery, Podiatry, Renal, Rheumatology, Trauma, Urology, Vascular N and % of Telehealth Eligible Specialties Scheduled for Telehealth: Eligible Specialties include Gastroenterology, Urology, Infectious Disease, Rheumatology and Pulmonary Diseases.
4	Outcome Metrics	Definition
4.1	Percent completed	Service outcomes "Seen" and "Refused & Verified" divided by "Total Scheduled Services" minus "No Longer Indicated"
5	Unscheduled Services	Definition
5.1	Routine Sick Call Completed	Number of sick call encounters completed by CHS
5.2	Emergency Sick Call Documentation	Number of emergency encounters documented by each clinical responder. An emergency may have more than one responder. This number does not indicate distinct emergencies.
5.3	Injury Evaluations	Number of injury evaluations documented. Injury evaluations are documented at the encounter level and may contain duplicates. This number does not indicate distinct injuries.
5.4	Medical Add-Ons	Unscheduled medical follow-up encounters completed.
5.5	Number of Patients with Non-Intake Labs Collected	For each date within the report range, create cohort of distinct patients who had >= 1 lab collected. If patient had > 1 lab collected on a single date, count once. Sum the total distinct patients on each date in the report range. Exclusions: Labs collected as a component of the intake encounter and lab results of "Refused" or "Not Available/Discharged".

The Honorable Corey Johnson
Speaker, New York City Council
250 Broadway
New York, NY 10007

Dear Speaker Johnson:

In accordance with Local Law No. 12 of 2016, enclosed please find a copy of the report summarizing student health and student health service.

If you have further questions, please do not hesitate to contact Maura Kennelly, Director of Intergovernmental Affairs, at (347) 396-4279 or mkennell@health.ny.gov.

Sincerely,

A handwritten signature in black ink that reads "Mary T. Bassett".

Mary T. Bassett, MD, MPH
Commissioner

cc: Melissa Mark-Viverito, City Council Speaker

Implementation of Local Law 77 of 2015 in New York City, 2015 Report

In response to the legionellosis outbreaks of 2015, in addition to its on-going epidemiological disease surveillance, the Mayor and City Council passed Local Law 77 to reduce and contain Legionnaires' disease in cooling towers, becoming the first U.S. jurisdiction (in parallel with NYS regulations) to adopt such stringent requirements.

The regulations mandated, among other requirements:

- Registration of all cooling towers in a form and manner prescribed by the Department of Buildings (DOB) within 30 days of passage of the law and the notification to DOB within 30 days after discontinuing the use of any cooling tower.
- Submission of an annual certification of compliance with Local Law 77 and the regulations issued by the Department of Health and Mental Hygiene (DOHMH) by November 1 starting in 2016.
- Establishment, by rule of DOHMH, targets and acceptable methods of microbial testing and levels of microbes in cooling towers that indicate maintenance deficiencies that are a serious health threat, and requires notification to DOHMH in accordance with the rules set forth.

Additionally, Local Law 77 requires DOHMH, in consultation with DOB, submit a report to the Mayor and the Speaker of the City Council on the following information:

- The number of new cooling tower registrations and the number of notifications of discontinued use of a cooling tower received by DOB through November 1 of the prior year.
- The number of annual certifications that a cooling tower was inspected, tested, cleaned and disinfected in accordance with applicable rules and regulations received by DOB through November 1 of the prior year.
- The number of elevated levels of legionellae that present a serious health threat received by DOHMH.
- The number of inspections of cooling towers conducted by DOHMH, along with the number and types of any violations cited during such inspections.
- The number of cleanings, disinfections or other actions performed in cooling towers by or on behalf of DOHMH.
- The number of persons diagnosed with Legionnaires' disease in the city in each of the previous 10 years.

As required, DOHMH submits the following report:

- A total of 5,444 cooling towers were registered with DOB by November 1, 2015. Additionally, DOB received 25 notifications of cooling tower discontinued use by November 1, 2015.
- Annual certifications of cooling towers were not required to be submitted within the current reporting period.
- DOHMH has not received reports of test results that represent a serious health threat.
- Local Law 77, subsection 4, states that “subdivisions e, f, g, h and i of section 17-194.1 of the administrative code, as added by section two of this local law, shall take effect upon the promulgation of rules by the department of health and mental hygiene”. These rules went into effect on May 9, 2016, thus DOHMH will report inspections and cleanings in next year’s report.
 - Since the promulgation of this law on August 18, 2015, until November 1, 2015, DOHMH inspected 50 cooling towers and ordered the disinfection of 49. In addition, DOHMH ensured the fulfillment of the Commissioner of Health’s Order issued in August 6, 2015, mandating the cleaning and disinfecting of all cooling towers in New York City.
- The number of persons diagnosed with Legionnaire’s disease in the city during the past 10 years is shown in the table below. Numbers for 2014 and 2015 (marked with an asterisk) are not final and may change upon further data review.
