

Good Morning Public Safety Committee Members. I'm here to ask that you please do NOT overturn Mayor Adams' veto of "How Many Stops Act!" The last thing our city needs are laws which further restrict the NYPD from doing their job. The NYPD does not need more distractions from protecting our city, and they do not need to be further disincentivized than they already are for fighting crime.

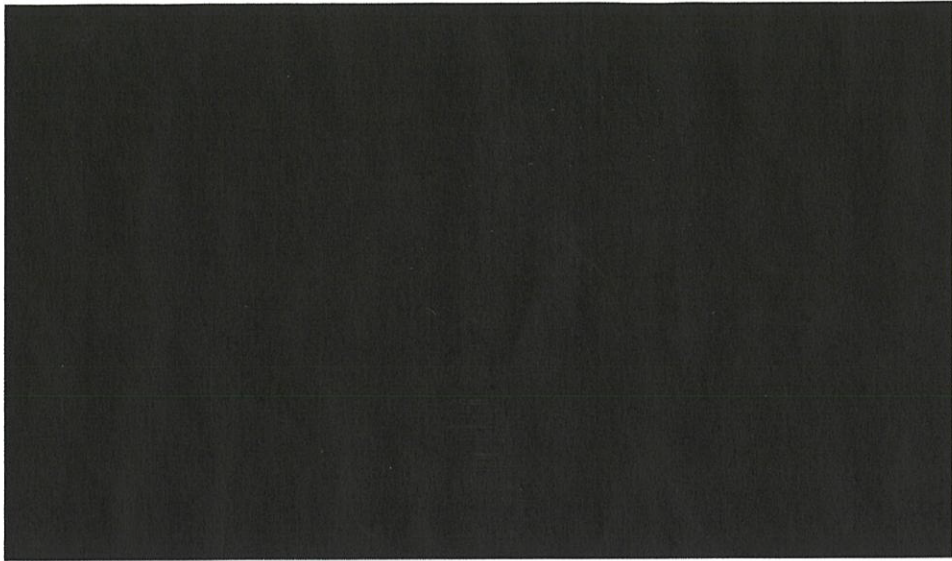

The "How Many Stops Act" will only result in more crime, more hate crimes, more antisemitism, more terrorism, and more lawless protests.

The hands of the NYPD are already tied by settlements made from the BLM riots, and they need to be freed to protect the rights and safety of all New Yorkers from these lawless Palestinian protests. They need to be able to enforce protest laws that are already on the books such as permits for marching in streets, permits of using amplified sound, permits for more than 20 people in a NYC park, blocking entrances, keeping half of sidewalks open, blocking the rights of residents to travel freely on foot or by car or public transportation, blocking emergency services and interstate commerce, violating civil order laws, violating public nuisance laws, violating false imprisonment laws, spreading and inciting hatred, violence, emotional terrorism and trauma, harassment, bullying, destruction of public and private property, setting off smoke bombs in retail stores, blocking freeways, tunnels and bridges... and more - the NYPD needs to be freed to enforce these laws and protect the civil rights and safety of NYC residents and tourists. The How Many Stops Act will only further restrict and disincentivize them to do this.

We the people of New York City need this Public Safety committee, and all City Council members, to stop promoting lawlessness in NYC, and allow the NYPD to do their job. If you truly care for the people of NYC and their safety, you will NOT overturn Mayor Adams' veto of the "How Many Stops Act."

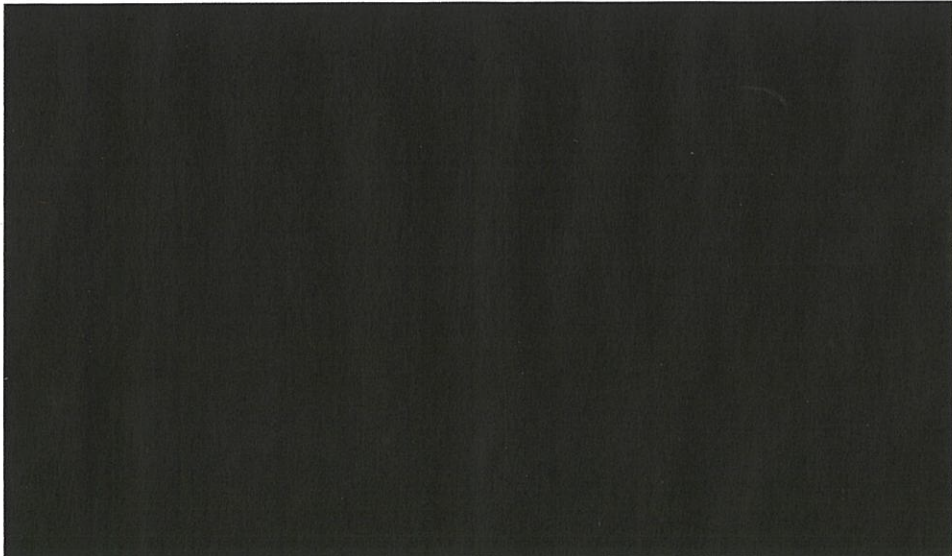

Thank you

The 109 Precinct Community Council, the Holly Civic Association and the Kissena Park Conservancy firmly oppose the bill requiring NYPD Officers to officially document every conversation they have with the public. We need our Police Officers to be able to do their jobs and protect the public without being hindered by additional paperwork.

The Holly Civic Association and the 109th precinct, community council, and the Queens Civic Congress firmly opposes the bill, requiring NYPD offices to officially document every conversation they have with the public. We need our police officers to be able to do their job and to protect the public without being hindered by additional unnecessary paperwork. New Yorkers are crying out now for faster response time to 911 calls and this will slow down the police even more. Let the police be police officers, because that is what they were sworn to do.

Please be advised that your actions taken today resulting in the shut down of citizens and New York City resident's right to testify is illegal and an abuse of power.  
New York City residents are opposed to the unnecessary and over burdensome requirements imposed on our precious and vital police force.  
There is no good reason for imposing such taxing and wasteful actions on our police. This abusive legislation will result in more crime and attrition of highly qualified law enforcement candidates.  
This is a political maneuver designed to result in more chaos and criminal activity and less protection for innocent, hardworking City residents, and acts as a crippling measure on our police under the false guise of "Police Reform".  
Let the police do their jobs! They are serving their country, their county, their Burroughs and municipalities and risking their lives to keep civil society safe from criminal actors.  
Do not override the Mayor's veto of the How Many Stops Act! Serious repercussions will follow if this legislation is not cancelled.

We side to protect the police. How dare you cancel our counter protests and allow your own protests. Our policemen are hard working and should not be asked to stop and record their encounters. This is ridiculous. Let the ppl speak and not just a group of councilmen that the majority do not agree with!
