Let us pray. Almighty God,
 we give you thanks for this opportunity
 to come together to work for the good of this city.
 God, it is a great privilege and honor
 to be called forth by the members of this great metropolis
 to assume the mantle of political leadership.
 God, we give you thanks for the willingness to serve
 that you have placed in the hearts
 of each of the men and women assembled here.
 As this body convenes oh Lord,
 we ask that your Holy Spirit also gather here.
 May your Spirit come to rest upon this body
 and upon each of the men and women here.
 Grant them oh Lord, wisdom,
 wisdom so that they may comprehend
 the difficult matters they will face today
 and most importantly God,
 help them to hold always in their hearts and in their minds
 before them in their work
 the men and women and children
 who struggle daily to survive in this city oh God.
 Spirit of the living God fall afresh upon this body.
 Renew the men and women here, their hearts and bodies.
 Sharpen their minds, oh God.
 We know that this work is difficult.
 It is challenging so this morning as we take a breath
 and breathe in the spirit of life God,
 we ask that you grant them a moment of peace,
 a moment of presence so that they may enter this work God with joy,
 renewed to serve the people of this city
 and finally God we ask that your spirit of mercy
 be in this Chamber today.
 God, from all of our faith traditions we know
 that your first concern is for the poor, the suffering, the stranger
 and so we ask God that that spirit of mercy,

that spirit of liberation for the oppressed
be also the first and guiding spirit
of the work of this Chamber today and every day.

REPORTS OF THE STANDING COMMITTEES

Report of the Committee on Health

Report for Int. No. 401-A

Report of the Committee on Health in favor of approving and adopting, as amended, a Local Law to amend the administrative code of the city of New York, in relation to animal shelters.

The Committee on Health, to which the annexed proposed amended local law was referred on January 31, 2018 (Minutes, page 573), respectfully

REPORTS:

I. Introduction

On June 5, 2018, the Committee on Health, chaired by Council Member Mark Levine, held a vote on Proposed Int. 401-A, a local law to amend the administrative code of the city of New York, in relation to animal shelters. This bill was originally heard on April 24, 2018. At that hearing, representatives from the Department of Health and Mental Hygiene (DOHMH), Animal Care Centers of New York City, as well as animal advocates testified. Since the first hearing on Proposed Int. No. 401-A, amendments were made to the legislation. On June 5, 2018, the Committee passed Proposed Int. No. 401-A by a vote of 5 in the affirmative, zero in the negative, and zero abstentions.

II. Background

Animal Care Centers of New York City

Animal Care Centers of New York City (ACC) is a not-for-profit organization under contract with DOHMH with a mission to end animal homelessness in New York City.¹ ACC is the largest pet organization in the northeast; it takes in approximately 30,000 animals per year, and is an open-admissions shelter system that does not turn animals away based on age, breed, health, behavior, or aggressive tendencies. ACC performs numerous services, including receiving, adoption, sheltering, spay and neutering, lost and found services, owner-requested euthanasia and stray animal pick-up.²

In calendar year 2017, ACC received 28,417 animals – including dogs, cats, rabbits and other animals – into its shelters. Of those animals, 7,025 were adopted, another 13,577 were transferred to other shelters through the New Hope program,³ and 1,683 pets were returned to their owner.⁴ Excluding owner-requested euthanasia, 1,490 cats and dogs were euthanized in 2017.⁵ ACC's live release rate for cats and dogs was 93 percent in 2017, meaning the animals were either adopted, reunited or transferred to placement partners.⁶ This is the highest rate in ACC's history.

provisions of this law required a full-service animal shelter to exist in each of the five boroughs and mandated the sterilization of dogs and cats adopted from animal shelters or purchased from pet shops.⁸ A “full-service shelter” was defined as one that accepts dogs and cats twenty-four hours per day, seven days per week; has an adoption program seven days a week; and provides veterinary services. At the time of the hearing in April 2000, the Staten Island shelter was not open twenty-four hours, nor did it provide medical services required under the new law. The shelters in the Bronx and Queens were “store front” drop off shelters, only open Tuesday through Saturday from 8:00 a.m. to 4:00 p.m.⁹ The new requirements were to take effect on January 1, 2001 for the boroughs of Brooklyn, Manhattan and Staten Island, and July 1, 2002 for the boroughs of the Bronx and Queens.¹⁰ To implement these parameters, the Council appropriated \$4 million in funding. At the time, a potential shelter site was selected in Queens, but one still needed to be selected for the Bronx.¹¹ Animals that came into the Queens or Bronx facilities were transported to Brooklyn and Manhattan, respectively.¹²

In 2002, the Animal Shelters and Sterilization Act was amended by Local Law 12, which extended the date for the acquisition of sites for the Bronx and Queens shelters until July 1, 2004.¹³ The shelters were to be fully operational by July 1, 2006.¹⁴ Additionally, the 2002 law temporarily reduced the number of hours that a full-service shelter was required to operate from twenty-four hours per day to twelve hours per day, seven days per week.¹⁵ Adoption programs in full-service shelters were also reduced from seven days per week to five days each week.¹⁶ The reduction of services was set to sunset on January 1, 2005.¹⁷ The 2002 law also required DOHMH to report to the Council the number of animals euthanized each month.¹⁸

Litigation

In 2009, Stray from the Heart, Inc., a non-profit volunteer organization that seeks to rescue, rehabilitate and place homeless dogs, sued DOHMH for non-compliance with the law requiring that a full-service shelter be located in each of the five boroughs.¹⁹ The New York State Supreme Court held that DOHMH violated the Animal Shelters and Sterilization Act by failing to operate full-service shelters in Queens and the Bronx, and ordered DOHMH to submit a plan, within sixty days, to open animal shelters in all five boroughs.²⁰ The decision was overturned on an appeal to the Appellate Division on the grounds that Stray from the Heart, Inc. (the plaintiffs) did not have standing to bring the claim.²¹ Stray from the Heart, Inc. requested leave to appeal the ruling to the Court of Appeals, which was granted on September 13, 2011. In that same year, the City reached an agreement²² that included the passage of Local Law 59. On December 11, 2012, the Court of Appeals held that Stray from the Heart, Inc. did not have standing to bring the claim.²³

III. Local Law 59 of 2011 and Concurrent Agreements

On July 27, 2011, Mayor Michael Bloomberg, City Council Speaker Christine Quinn, Council Member Jessica Lappin, DOHMH Commissioner Thomas Farley, and several animal rights organizations announced an agreement to enhance services for shelter animals.²⁴ As part of the agreement, the Bloomberg Administration committed to increasing its investment in animal shelters by nearly \$10 million over three years, with the budget for animal shelters expected to top \$12 million dollars by 2014, a 77% increase from the 2011 amount.²⁵ The increased budget would allow for the hiring of up to 100 additional shelter employees to greatly improve the quality of care for animals at the shelters. This additional investment was made possible, in part, by repealing the requirement that there be full-service animal shelters in every borough.²⁶

Furthermore, the Administration committed to pursuing a new animal receiving facility site in Queens (as the existing facility had been deemed too small and unable to accommodate the demand), adding two public members to the ACC board, and launching a citywide public awareness campaign pertaining to dog licensing. As part of that campaign, DOHMH agreed to create simplified enrollment online and at self-service licensing kiosks and further agreed to conduct targeted outreach to educate the public about the benefits of dog licensing.

Some of the details of the 2011 announcement were codified in Local Law 59 of 2011, including requiring that dogs and cats be accepted in the Bronx and Queens twelve hours per day, seven days a week. The law also codified a field services program, which would pick up “lost, stray, homeless, or injured dogs and cats” from all five boroughs, twelve hours a day, seven days a week. The law provided that field services would be available to pick up animals twenty-four hours a day when a threat to public health and safety exists.

Local Law 59 also repealed the requirement that there be a full service shelter in every borough. Instead, full service shelters that are open twelve hours a day, seven days a week were required in three boroughs, one of which would be required to receive animals from the public twenty-four hours a day. In addition, the legislation also required that all free-roaming cats with owners (a/k/a “outdoor cats”) be spayed or neutered to reduce the feral cat population. Owners are required to submit proof of sterilization upon request by DOHMH and can be fined between \$250 and \$500 for letting their unsterilized cats roam free.

Local Law 59 imposed several transparency requirements to the previously existing annual report that DOHMH was required to provide to the City Council and the Mayor, including the following indicators, disaggregated by month:

- the total number of animals per borough picked up by field services during regular business hours and delivered to shelters and receiving facilities;
- the total number of animals per borough picked up by field services during off hours and delivered to shelters and receiving facilities;
- the total number of animals accepted into and transferred from full service shelters to each receiving facility; and
- the staffing levels at each full service shelter and receiving facility.

Under Local Law 59, DOHMH was required to promulgate rules for the registration of individuals or groups conducting trap-neuter-return (“TNR”) activities and establish criteria for such registration. However, Local Law 43 of 2012 amended the law to instead require DOHMH to post and maintain on its website a regularly updated list of organizations in New York City that offer TNR information and conduct TNR activities.²⁷ TNR is a program which traps feral cats, sterilizes and vaccinates them for rabies and then returns them to the locations where they were found in order to humanely and effectively manage feral cat populations and colonies. While neither the City nor ACC directly provides TNR services, many animal advocacy organizations, including, but not limited to the Mayor’s Alliance for New York City’s Animals,²⁸ Neighborhood Cats,²⁹ and the American

IV. Recent Progress

Staff

Additional funding provided by the City since 2011 allowed ACC to hire veterinarians, veterinary technicians, staff to support adoptions and field staff to expand rescue, response and transport services.³¹ By January 2014, ACC staff had increased 71 percent since Local Law 59 was adopted in 2011.³² A new medical director was also hired in January 2014 after four years of this position being vacant.³³

Hours of Operation

Pursuant to Local Law 59 of 2011, Bronx and Queens receiving centers have increased their hours to 12 hours per day, 7 days a week and the Manhattan shelter is now open for intakes 24 hours.³⁴ The expanded hours have resulted in an increase in intake at the receiving centers, although overall intake at ACC facilities has decreased since 2011.³⁵

Capital Improvements

After the 2011 agreement was announced, the Mayoral Administration identified an old veterinarian office in Queens as a potential new animal receiving facility;³⁶ however, DOHMH never acquired the site despite the local community board and the City Planning Commission approving the location.³⁷

On January 23, 2015, DOHMH and ACC announced that City will provide more than \$8 million in capital funding to build a new adoption center at the Manhattan facility, modernize the Brooklyn facility, double the organization's current fleet of mobile adoption vans and expand ACC's fundraising capacity.³⁸ Three years later, the Administration is in the design phase of the new adoption center in Manhattan. The design should be completed around October 2018. Property adjacent to the Manhattan shelter will be used to construct a building dedicated to the adoption of dogs, cats and rabbits.³⁹

DOHMH and ACC also planned to redesign and replace the heating, air conditioning and ventilation system at the Brooklyn shelter to improve air flow, help reduce the spread of diseases common in shelters, and maintain comfortable temperature and humidity.⁴⁰ In January of this year, DOHMH announced that the renovation plans would be greatly expanded to include a new building on the site of the current shelter, designed to include best practices in animal welfare. Construction is scheduled to start in late 2019 and move in is projected in mid 2022.

At a City Council hearing in 2015, DOHMH Commissioner Mary Bassett testified that "there is a commitment on the part of this administration to full service shelters in all boroughs."⁴¹ Since then, DOHMH has dedicated \$98 million in its capital plan for the construction and renovation of the City's Animal Care

Centers. On January 23, 2018, the de Blasio Administration announced the location of a new, full service animal shelter in the Baychester neighborhood of the Bronx.⁴² The new shelter in the Bronx is slated to open in 2024 and will go through the City's Uniform Land Use Review Procedure (ULURP) before construction begins.

On October 28, 2013, DOHMH, ACC and Staten Island Borough President James Molinaro broke ground on a brand new full-service shelter in Staten Island, which was originally scheduled to be completed in April 2015.⁴³ The new shelter is now projected to open in June of this year, with demolition of the current shelter starting at that time. The shelter will have a new layout and additional capacity to improve upon the "old, tight and small" space of the current facility.⁴⁴

In Queens, DOHMH is leasing a new site in Middle Village to relocate the existing admissions center.⁴⁵ This new location will almost double the space of the current site. Move in is projected for June 2019 and this new location is a temporary site while the Administration continues to look for a location for a full service animal shelter in Queens.

VI. Proposed Int. No. 401-A - Bill Analysis

Proposed Introduction Number 401-A would amend § 17-803 of the Administrative Code of the City of New York. The bill would add the requirement that a full-service shelter be maintained in each borough of the City. The bill would amend subdivision a of § 17-803, replacing the requirement that a full-service shelter be maintained and operated only in each of three boroughs, and substitute it with the requirement that a full-service shelter be maintained and operated in each borough of the City. Subdivision b of § 17-803 currently requires facilities to receive lost, stray or homeless dogs and cats from the public be maintained seven days per week, twelve hours per day in the boroughs in which there is not a full-service shelter. Subdivision c of the same section currently requires that field services having the capacity to pick up and bring to a shelter lost, stray, homeless or injured dogs and cats from all five boroughs be maintained and operated seven days per week, twelve hours per day, and further provides that where public health and safety is threatened, such field services shall have the capacity to pick up such animals twenty-four hours per day. The content of subdivision b of such section relating to receiving centers would be deleted in its entirety and replaced with the content in existing subdivision c relating to field services.

Originally, the proposed local law would take effect 180 days after its enactment into law. However, since the first hearing on Proposed Int. No. 401-A, technical amendments were made to the legislation. Additionally, the enactment date was altered, and a reporting requirement was added.

Therefore, the proposed local law would now take effect on July 1, 2024; provided, however, that the department of health and mental hygiene shall submit to the mayor and the speaker on July 1, 2020 and biennially thereafter, until such date such shelters are open and operating, a report detailing the progress toward the opening of full-service shelters in the boroughs of Queens and the Bronx

**THE COUNCIL OF THE CITY OF NEW YORK
FINANCE DIVISION
LATONIA MCKINNEY, DIRECTOR
FISCAL IMPACT STATEMENT**

PROPOSED INTRO. NO: 401-A

COMMITTEE: Health

TITLE: A local law to amend the administrative code of the city of New York, in relation to animal shelters. **SPONSOR(S):** Council Members Vallone, Brannan, Holden, and Powers

SUMMARY OF LEGISLATION: The proposed legislation would require the Department of Health and Mental Hygiene (DOHMH) to ensure the operation of a full-service animal shelter in each of the City’s five boroughs by July 1, 2024. The boroughs of Manhattan, Brooklyn, and Staten Island currently have full-service animal shelters – facilities that provide medical treatment to relinquished animals, house lost animals, and offer direct animal adoptions. In January 2018, the City identified a site in the Bronx to construct an animal shelter and veterinary medical clinic, but the Administration has not announced plans to implement a full-service shelter in Queens.

The proposed legislation would also require DOHMH to submit a report to the Mayor and to the Speaker of the City Council on July 1, 2020 and biennially thereafter, until such shelters are in operation, detailing the progress toward the opening of full-service shelters in the boroughs of Queens and the Bronx.

EFFECTIVE DATE: This local law would take effect on July 1, 2024, provided, however, that the department of health and mental hygiene shall submit to the mayor and the speaker on July 1, 2020 and biennially thereafter, until such date such shelters are open and operating, a report detailing the progress toward the opening of full-service shelters in the boroughs of Queens and the Bronx.

FISCAL YEAR IN WHICH FULL FISCAL IMPACT ANTICIPATED: Fiscal 2025

FISCAL IMPACT STATEMENT:

	Effective FY25	FY Succeeding Effective FY26	Full Fiscal Impact FY25
Revenues	\$0	\$0	\$0
Expenditures	\$3,000,000	\$3,000,000	\$0
Net	(\$3,000,000)	(\$3,000,000)	\$0

IMPACT ON REVENUES: It is anticipated that the proposed legislation would not affect revenues.

IMPACT ON EXPENDITURES: The proposed legislation would result in expenditures totaling approximately \$3 million in Fiscal 2025 in order to provide a full suite of services at shelters in Queens and the Bronx, including sheltering, examining, testing, treating, spaying, and neutering animals.

The proposed legislation would also require \$54 million in capital funding for a full-service shelter in Queens. DOHMH’s Fiscal 2019 Capital Commitment Plan for Fiscal 2018-2022 includes \$59 million for the construction of the full-service animal shelter in the Bronx and \$5 million for a Queens shelter. Assuming comparable costs for the construction of a full-service shelter in Queens, the proposed legislation necessitates \$54 million in additional capital funding.

DOHMH would utilize existing resources to fulfill the reporting component of the proposed legislation.

WHEREAS, upon due notice, the Council held a public hearing on the Project on May 15, 2018;

WHEREAS, the Council has considered the land use and financial implications and other policy issues relating to the Project;

RESOLVED:

The Council finds that the present status of the Disposition Area tends to impair or arrest the sound growth and development of the City of New York and that a designation of the Project as an Urban Development Action Area Project is consistent with the policy and purposes stated in Section 691 of the General Municipal Law.

The Council waives the area designation requirement pursuant to Section 693 of the General Municipal Law.

HPD shall deliver written notice of any such determination to the owner of the Disposition Area and all mortgagees of record, which notice shall provide for an opportunity to cure of not less than sixty (60) days. If the noncompliance specified in such notice is not cured within the time period specified herein, the Exemption shall prospectively terminate.

Special Hudson Yards District

93-00

GENERAL PURPOSES

The “Special Hudson Yards District” established in this Resolution is designed to promote and protect public health, safety and general welfare. These general goals include, among others, the following specific purposes:

- (a) to facilitate and guide the development of an environmentally beneficial, transit-oriented business and residence district by coordinating high density development with expanded mass transit facilities, extended and improved subway lines, improved pedestrian access to mass transit facilities, improved pedestrian circulation and avoidance of conflicts with vehicular traffic;
- (b) to control the impact of buildings on the access of light and air to the streets and avenues of the Hudson Yards area and the surrounding neighborhoods;
- (c) to provide an open space network comprised of public parks, public open space and public access areas through the establishment of a large-scale plan and other controls and incentives;
- (d) to preserve the pedestrian orientation of ground floor uses, and thus safeguard a traditional quality of the City;
- (e) to preserve the low- and medium-scale residential character of the Hell’s Kitchen area;
- (f) to provide a transition between the Hudson Yards District and the Clinton community to the north;
- (g) to provide a transition between the Hudson Yards District and the Garment Center to the east;
- (h) to provide a transition between the Hudson Yards District and the West Chelsea area to the south;
- (i) to promote the use of the Jacob K. Javits Convention Center to the west by creating an active and attractive business district that facilitates pedestrian access to the Center;
- (j) to provide flexibility of architectural design within limits established to assure adequate access of light and air to the street, and thus to encourage more attractive and economic building forms;
- (k) to provide a transition between the Hudson Yards District and the Hudson River to the west;

- (l) to facilitate the restoration and reuse of the High Line elevated rail line as an accessible, public open space through special height and setback regulations;
- (m) to promote the most desirable use of land and building development in accordance with the District Plan for the Hudson Yards and thus conserve the value of land and buildings and thereby protect the City’s tax revenues; and
- (n) to limit the amount of off-street parking based on regulations that address the anticipated needs of residents, workers and visitors to the Hudson Yards Area, consistent with the objective of creating an area with a transit- and pedestrian-oriented neighborhood character.

**93-30
SPECIAL FLOOR AREA REGULATIONS**

* * *

**93-32
Floor Area Regulations in the Phase 2 Hudson Boulevard and Park**

In the #Phase 2 Hudson Boulevard and Park#, no #development# shall be permitted and, except as provided in Section 93-051 (Applicability of Article I, Chapter 1), no #building# shall be #enlarged#. However, #floor area# from a granting site within the #Phase 2 Hudson Boulevard and Park# may be transferred to a receiving site in accordance with the provisions of paragraph (a) of this Section.

For the purposes of this Section, a “granting site” shall mean a #zoning lot#, or portion thereof, within the #Phase 2 Hudson Boulevard and Park# and the #lot area# of such granting site shall include any area on such site designated on the City Map as Hudson Boulevard or #public park#, and a “receiving site” shall mean a #zoning lot#, or portion thereof, within Subareas A2 through A5 of the Large-Scale Plan Subdistrict A or Subareas D1 or D2 of Hell’s Kitchen Subdistrict D, to which #floor area# from a granting site has been transferred.

Special regulations for certain #zoning lots# partially within the #Phase 2 Hudson Boulevard and Park# are set forth in Section 93-33.

- (a) Transfer of floor area by certification

The Chairperson of the City Planning Commission shall allow, by certification, the applicable basic maximum #floor area ratio# of a receiving site to be increased up to the maximum amount specified in Section 93-21 or 93-22, as applicable, through the transfer of #floor area# from a granting site, provided that:

- (1) the maximum amount of #floor area# transferred from a granting site shall not exceed the #floor area ratio# permitted on the granting site, as listed below, less any existing #floor area# to remain on the granting site:

District	Maximum #floor area ratio#
C2-8	7.5
C6-2	6.02
C6-4	10.0
M1-5	5.0

- (2) each transfer, once completed, irrevocably reduces the amount of #floor area# that may be transferred from the granting site by the amount of #floor area# transferred;
- (3) the maximum amount of #floor area# transferred to a receiving site shall be based on an amount not to exceed the #floor area ratio# permitted on a #zoning lot# through such transfer pursuant to Section 93-21 or 93-22, as applicable. In the event a granting site generates more #floor area# than is permitted on a receiving site, the Chairperson shall certify that such excess #floor area# be credited towards future #floor area# transfers pursuant to this Section; and.
- (4) where all #floor area# shall be transferred from a granting site pursuant to one or more such certifications, all certificates of occupancy have been surrendered for such granting site, all structures on such granting site have been demolished, and such granting site has been conveyed to the City for improvement, where applicable, as a #public park# or #street#, as provided for on the City Map.

Where, as a result of the transfer of #floor area# pursuant to this paragraph (a), the amount of #floor area# on a receiving site is less than the maximum allowable as specified for the applicable subarea in Row B in the table in Section 93-21 and Row C in the table in Section 93-22, any additional #floor area#, up to the maximum #floor area ratio# permitted on the receiving site as specified in such rows, may be achieved only through contributions to the #Hudson Yards District Improvement Fund# pursuant to Section 93-31 (District Improvement Fund Bonus), an increase in #floor area# pursuant to paragraph (b) of this Section or Section 93-33 (Special Regulations for Residual Portions of Zoning Lots Partially Within the Phase 2 Hudson Boulevard and Park), or the Inclusionary Housing Program pursuant to Section 23-154, as modified by Section 93-23.

An application filed with the Chairperson for the transfer of #floor area# pursuant to this paragraph (a) shall be made jointly by the owners of the granting site and receiving site, and shall include a site plan and #floor area# zoning calculations for the granting site and the receiving site, and a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer, together with notice of the restrictions upon further development of the granting site and the receiving site.

Notices of restrictions shall be filed by the owners of the granting site and receiving site in the Borough Office of the Register of the City of New York, indexed against the granting site and the receiving site, a certified copy of which shall be submitted to the Chairperson of the Commission. Receipt of certified copies thereof shall be a pre-condition to issuance of any building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site which incorporates #floor area# transferred pursuant to this paragraph (a).

- (b) Authorization for contribution-in-kind

The City Planning Commission may authorize a contribution-in-kind to the #Hudson Yards District Improvement Fund# for a receiving site, provided that:

- (1) the conditions for transferring #floor area# set forth in paragraph (a) of this Section have been met as of the date of the authorization or will be met in accordance with agreements or instruments entered into pursuant to paragraph (b)(3) of this Section;
- (2) the granting site will be improved, at the applicant's expense, as a #public park# or #street#, as provided for on the City Map, prior to conveyance to the City; and
- (3) the applicant, or an affiliate of such applicant, has entered into an agreement or provided instruments in a form satisfactory to the City, providing for the improvement of the granting site as a #public park# or #street# pursuant to an agreed-upon construction schedule. The

construction schedule may be adjusted from time to time in accordance with the provisions of such agreement or instruments and shall include progress milestones, including the date by which the improvements will be 50 percent complete, and a date by which the improvements will be substantially complete and usable by the public. In the event that the conditions for transferring #floor area# set forth in paragraph (a) of this Section have not been completed as of the date of this authorization, such agreement or instruments shall also provide that such conditions will be met, to the extent applicable, pursuant to an agreed-upon schedule.

In order to grant such authorization, the Commission shall find that the #public park# or #street# has been designed in accordance with the approved plan for the Hudson Boulevard and Park, or as an appropriate interim design, in consultation with the Department of Parks and Recreation or Department of Transportation.

[All of the following text of this section, which was not previously indented, is indented 0.5” and included as part of paragraph (b).]

~~The amount of increased #floor area# generated by the contribution-in-kind shall be as determined by the Commission, which~~ The Commission shall determine the reasonable cost of such improvement, including any acquisition and site preparation costs, and shall permit a #floor area# bonus in relation thereto divide this reasonable cost by the contribution amount per square foot of the District Improvement Bonus, as determined pursuant to Section 93-31, and in effect on the date of authorization of the contribution-in-kind pursuant to this paragraph (b), in order to determine the amount of increased #floor area# generated by the contribution-in-kind. In making such determination, the Commission may consult with an appraiser or engineer at the applicant’s expense. In the event the contribution-in-kind results in an amount of #floor area# in excess of what is permitted on the receiving site, the Commission shall authorize that such excess #floor area# be credited towards future #floor area# increases pursuant to Section 93-31.

The owner of the receiving site shall not apply for or accept a temporary certificate of occupancy for that portion of the #development# or #enlargement# identified as utilizing the increased #floor area# permitted pursuant to this paragraph (b), and the Department of Buildings shall not issue a temporary certificate of occupancy for such portion until the Chairperson has certified that the improvements are substantially complete and usable by the public. The owner shall not apply for or accept a permanent certificate of occupancy for such portion of the #development# or #enlargement# nor shall the Department of Buildings issue a permanent certificate of occupancy for such portion until the improvements have been finally completed in accordance with the approved plans and such final completion has been certified by the Chairperson. A restrictive declaration in a form acceptable to the Chairperson shall be recorded against the receiving site in the Office of the Register of the City of New York in order to implement such restrictions.

An application filed with the Chairperson ~~of the Commission~~ for the ~~transfer of #floor area# contribution-in-kind pursuant to this Section paragraph (b)~~ shall be made jointly by the owners or contract vendees of the granting site and receiving site and shall, in all instances, include the party responsible either directly or through its affiliate, for the improvement of the granting site as a #public park# or #street# pursuant to the agreement or instruments entered into pursuant to paragraph (b)(3) of this Section, a site plan and #floor area# zoning calculations for the granting site and the receiving site, and a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer, together with notice of the restrictions upon further development of the granting site and the receiving site.

~~Notice of restrictions shall be filed by the owners of the respective sites in the Borough Office of the Register of the City of New York, indexed against the granting site and the receiving site, a certified copy of which shall be submitted to the Chairperson of the Commission. Receipt of certified executed~~

copies thereof shall be a pre-condition of the agreement or instruments required pursuant to paragraph (b)(3) of this Section, and of copies of the recorded restrictive declaration, shall be a precondition to the issuance of any a building permit, including any foundation or alteration permit, for any #development# or #enlargement# on the receiving site that incorporates a #floor area# bonus granted pursuant to this paragraph (b).

In no event shall a building permit for a #development# or #enlargement# utilizing a #floor area# increase pursuant to this paragraph (b) be granted for the receiving site until the Chairperson provides notice to the Commissioner of Buildings that the applicant, or affiliate responsible for the improvement of the granting site, has provided acceptable evidence of site control for purposes of construction of the improvement.

HPD may forgive the Land Debt (but not the City Subsidy) apportioned to a home upon conveyance of the home to an eligible purchaser, based on the home's appraised value and/or if HPD determines that the forgiveness is necessary to reduce the taxable consideration for the home. Purchasers repay the Land Debt and City Subsidy, if any, attributable to their homes by delivering a note and mortgage and/or conditional grant agreement to the City. The sum evidenced by the note and secured by the security instruments will be reduced to zero after 20 years of owner occupancy. Initial purchasers and subsequent owners are required to make payments to the City out of resale or refinancing profits.

REPORTS:

INTRODUCTION

On June 5, 2018 the Committee on Mental Health, Disabilities and Addiction, chaired by Council Member Diana Ayala, will hold a hearing on a package of seven bills aimed at combating the City's opioid epidemic. This will be the second hearing on these bills. This committee previously heard this package of bills during a joint oversight hearing held on February 27, 2018 with the Committee on General Welfare, chaired by Council Member Steven Levin.

BACKGROUND

Throughout the United States, the opioid epidemic has emerged as one of the most significant public health challenges of the 21st century. Opioids are drugs that interact with opioid receptors in the body to alleviate pain. However, regular usage of these substances can lead to dependence and addiction due to the euphoria that they can produce. Drugs that can be classified as opioids include prescription pills such as oxycodone (OxyContin), hydrocodone (Vicodin) as well as illegal drugs like Heroin and its synthetic variant, Fentanyl. According to the Centers for Disease Control (CDC), more than 600,000 people have died due to drug overdoses between 2000 and 2016 and opioids account for approximately two-thirds of all 3 overdose deaths (66 percent).¹ Additionally, statistics from the United States Department of Health and Human Services (HHS) indicate that deaths from prescription opioids have more than quadrupled since 1999 and that 116 people die every day from opioid-related overdoses.² CDC figures show that opioids were involved in 42,249 deaths in 2016.³ This crisis has also taken root in the state of New York, outside of and within the five boroughs. Between 2010 and 2014, opioid-related outpatient emergency department visits increased from 12,554 to 21,576 outside of New York City (an increase of 71.8 percent) and from 8,409 to 14,691 (an increase of 74.7 percent) in the city.⁴

The New York City Office of the Chief Medical Examiner found that 1,374 people died from overdoses in New York City in 2016, up from 937 in 2015, an increase of 46.6 percent.⁵ The Office of the Special Narcotics Prosecutor has reported that although overdose deaths have increased for six consecutive years in all five boroughs, the crisis has been particularly severe in the Bronx and Staten Island. In both 2015 and 2016, for example, the Bronx had the highest number of fatal overdoses (252 in 2015 and 279 in 2016, a 10.7 percent increase).⁶ Staten Island, however, had the highest rate of fatal overdoses, with 31.8 per 100,000, a 66 percent increase from 2015.⁷

New York State's fiscal year (FY) 2018 budget allocated \$213 million for prevention, treatment, and recovery services, which represents a 13 percent increase from FY 2017. \$94 million of the \$213 million was earmarked for New York City.⁸ In January of 2018, the executive budget proposed by the governor included a 2 cent tax per milligram of active opioid ingredient in prescription drugs, which was expected to raise approximately \$170 million, which would be used to support the Opioid Prevention and Rehabilitation Fund.⁹

Bill section one would require DOHMH to provide opioid antagonists such as Narcan to all syringe exchange programs operating within the City for as long as there is an urgent public health need. It also would require DOHMH to ensure that staff at syringe exchange programs receive overdose prevention and reversal training. Should DOHMH determine there is no longer an urgent public health need, DOHMH would be required to submit a report to the Speaker of the Council detailing the reasons why such determination was made.

Bill section two would provide that this legislation takes effect on the same date that proposed introduction number 668-A for the year 2018, takes effect.

SIGNIFICANT AMENDMENTS TO INT. NO. 615

Bill section one would define key terms used in the bill and would require DOHMH to develop age appropriate educational materials on drugs and opioids. DOHMH would be required to distribute such materials to DOE and DYCD at the beginning of each calendar year. DOHMH would also be required to translate such materials into each of the citywide languages and post on their website.

Bill section two would require DYCD to make the educational materials developed by DOHMH available to youth in DYCD's afterschool programs. DYCD would also be required to translate such materials into each of the citywide languages and post on their website.

Bill section three would define key terms and would require DOE to make the educational materials developed by DOHMH available to every student at each school at the beginning of each academic year. DOE would also be required to post these materials on their website in English and in the designated citywide languages.

Bill section four would provide that this legislation takes effect 90 days after it becomes law.

SIGNIFICANT AMENDMENTS TO INT. NO. 618

This bill was amended to require DOHMH to develop the educational materials by the beginning of the calendar year instead of the academic year. Additional technical amendments were also made.

Bill section one defines key terms used in the bill and would require that the commissioner of FDNY submit a quarterly report comprised of the number of opioid antagonists the department has available for use, the number of EMTs trained to administer opioid antagonists, and the number of times EMTs or other first responders administered an opioid antagonist to a patient. The commissioner of FDNY would be required to submit the report 30 days before the end of the corresponding quarter and may use preliminary data if necessary.

Bill section two would provide that this legislation takes effect 60 days after it becomes law.

SIGNIFICANT AMENDMENTS TO INT. NO. 623

This bill was amended to omit reporting on the number of fatalities that were declared after an EMT administered an opioid antagonist to an overdose victim. There were also additional technical amendments.

ANALYSIS OF PROPOSED INT. NO. 667-A

This bill would require the Department of Social Services (DSS) and the Department of Homeless Services (DHS) to refer individuals receiving opioid antagonists in their respective facilities to additional services to help address their underlying drug use. ⁷

Bill section one would require DSS to refer individuals who received an opioid antagonist to combat the effects of an overdose occurring within a HASA facility and who disclosed such overdose to their case manager to appropriate service providers for additional services.

Bill section two would require DHS to refer individuals who received an opioid antagonist to combat the effects of an overdose occurring within a shelter and who disclosed such overdose to their case manager to appropriate service providers for additional services.

Bill section three would provide that this legislation takes effect 60 days after it becomes law.

SIGNIFICANT AMENDMENTS TO INT. NO. 667-A

This bill was amended to require individuals suffering non-fatal overdoses to first disclose their overdose to their case managers before DSS and DHS are required to refer them to appropriate additional services.

ANALYSIS OF PROPOSED INT. NO. 668-A

This bill would require DOHMH to offer overdose prevention and reversal training to the public.

Bill section one would define key terms used throughout the bill and would require DOHMH to train members of the public on recognizing an opioid overdose and on proper usage of common opioid antagonists. Report for State Legislation Res. No. 1

Report of the Committee on State and Federal Legislation in favor of approving a State Legislation Resolution requesting the New York State Legislature to pass bills introduced by Senator Savino, S.8497, and Assembly Member Abbate, A.10696, “AN ACT to amend the retirement and social security law, in relation to amending the contribution provisions applicable to certain New York City Employees’ Retirement System (NYCERS) Special Plans subject to Retirement and Social Security Law (RSSL) Articles 14 and 15 to allow using any excess basic or additional member contributions to offset any deficits in such other contribution account prior to date of retirement”.

The Committee on State and Federal Legislation, to which the annexed preconsidered State and Legislation Resolution (SLR) was referred on June 7, 2018, respectfully

REPORTS:

(The following report refers to pending State legislation which requires a Home Rule Message for passage in the State Senate and State Assembly. This Committee is to decide whether this respective State Legislation Resolution [SLR] should be recommended for adoption by the Council. By adopting this SLR, the Council would be formally requesting that the New York State Legislature act favorably in this matter)

BACKGROUND:

The purpose of this legislation is to cure several administrative ailments that currently exist at the New York City Employees’ Retirement System (NYCERS). This bill will expand the definition of additional member contributions and basic member contributions by permitting a participant at any point during membership of one of the Special Plans to use a surplus in their additional member contributions account to offset a deficit in their basic member contributions, and likewise use a surplus in their basic member contributions account to offset a deficit in their additional member contributions account. This legislation will further increase the administrative efficiency of NYCERS and eliminate burdens on Special Plan participants from the improvements made with the passage of Chapter 467 of the laws of 2017 which limited the offsets at retirement.

PROPOSED LEGISLATION:

Section 1 of this legislation amends subparagraph (i) of paragraph 8 of subdivision (e) of section 504-a of the Retirement and Social Security Law, as amended by chapter 467 of the laws of 2017 to hold that at any point in membership, a surplus of such additional member contributions that are paid into the retirement system’s contingent reserve fund may be used for the sole purpose of offsetting a deficit of basic member contributions.

Section 2 of the legislation amends subparagraph (i) of paragraph 12 of subdivision (e) of section 504-a of the Retirement and Social Security Law, as amended by chapter 467 of the laws of 2017 to hold that at any point in membership, a surplus of such additional member contributions that are paid into the retirement system’s contingent reserve fund may be used for the sole purpose of offsetting a deficit of basic member contributions.

Section 3 of the legislation amends subparagraph (i) of paragraph 9 of subdivision (e) of section 504-d of the Retirement and Social Security Law, as amended by chapter 467 of the laws of 2017 to hold that at any point in membership, a surplus of such additional member contributions that are paid into the retirement system's contingent reserve fund may be used for the sole purpose of offsetting a deficit of basic member contributions.

Section 4 of this legislation amends subdivision (d) of Section 517 of the Retirement and Social Security Law, as amended by chapter 467 of the laws of 2017 to hold that at any point in membership, a plan participant may elect to use a surplus of basic member contributions to offset a deficit of additional member contributions.

Section 5 of the legislation amends subparagraph (i) of paragraph 8 of subdivision (e) of section 604-a of the Retirement and Social Security Law, as amended by chapter 467 of the laws of 2017 to hold that at any point in membership, a surplus of such additional member contributions that are paid into the retirement system's contingent reserve fund may be used for the sole purpose of offsetting a deficit of basic member contributions.

Section 6 of the legislation amends subparagraph (i) of paragraph 9 of subdivision (e) of section 604-b of the Retirement and Social Security Law, as amended by chapter 467 of the laws of 2017 to hold that at any point in membership, a surplus of such additional member contributions that are paid into the retirement system's contingent reserve fund may be used for the sole purpose of offsetting a deficit of basic member contributions.

Section 7 of the legislation amends subparagraph (i) of paragraph 9 of subdivision (e) of section 604-c of the Retirement and Social Security Law, as amended by chapter 467 of the laws of 2017 to hold that at any point in membership, a surplus of such additional member contributions that are paid into the retirement system's contingent reserve fund may be used for the sole purpose of offsetting a deficit of basic member contributions.

Section 8 of the legislation amends subparagraph (i) of paragraph 8 of subdivision (e) of section 604-c of the Retirement and Social Security Law, as amended by chapter 467 of the laws of 2017 to hold that at any point in membership, a surplus of such additional member contributions that are paid into the retirement system's contingent reserve fund may be used for the sole purpose of offsetting a deficit of basic member contributions.

Section 9 of the legislation amends subparagraph (i) of paragraph 6 of subdivision (e) of section 604-d of the Retirement and Social Security Law, as amended by chapter 467 of the laws of 2017 to hold that at any point in membership, a surplus of such additional member contributions that are paid into the retirement system's contingent reserve fund may be used for the sole purpose of offsetting a deficit of basic member contributions.

Section 10 of the legislation amends subparagraph (i) of paragraph 10 of subdivision (e) of section 604-e of the Retirement and Social Security Law, as amended by chapter 467 of the laws of 2017 to hold that at any point in membership, a surplus of such additional member contributions that are paid into the retirement system's contingent reserve fund may be used for the sole purpose of offsetting a deficit of basic member contributions.

Section 11 of the legislation amends subparagraph (i) of paragraph 10 of subdivision (e) of section 604-e of the Retirement and Social Security Law, as amended by chapter 467 of the laws of 2017 to hold that at any point in membership, a surplus of such additional member contributions that are paid into the retirement system's contingent reserve fund may be used for the sole purpose of offsetting a deficit of basic member contributions.

Further, the use of basic member contributions to offset a deficit of additional member contributions does not affect the contributions' tax designation pursuant to section 414(h) of the Internal Revenue Code.

FINANCE DIVISION
LATONIA MCKINNEY, DIRECTOR
FISCAL IMPACT STATEMENT**

PRECONSIDERED SLR NO. 1: S.8497 (Savino)
A.10696 (Abbate)

COMMITTEE: State and Federal Legislation

TITLE: AN ACT to amend the retirement and social security law, in relation to amending the contribution provisions applicable to certain New York City Employees' Retirement System (NYCERS) Special Plans subject to Articles 14 and 15 to allow using any excess basic or additional member contributions to offset any deficits in such other contribution account prior to date of retirement

SPONSOR(S): Council Member Cohen

SUMMARY OF LEGISLATION: This Preconsidered SLR would eliminate the need for the New York City Employees’ Retirement System (NYCERS) to request payment from certain Special Plan members if they have a deficit in their Member Contribution Accumulation Fund (MCAF) at any time, so long as he or she has a surplus in their Retirement Reserve Fund (RRF). Similarly, at any time, a member would be able to use a surplus from their MCAF to offset a deficit in their RRF.

In June of 2017, the City Council passed Preconsidered SLR S6460 (A8055), which allowed retirees (but not active employees) to use a surplus from one account to offset a deficit in another. This Preconsidered SLR would allow the same thing for active members, as well. This legislation would increase the administrative efficiency of NYCERS and eliminate burdens on Special Plan participants. According to the City’s Office of the Actuary, this legislation would have no impact on benefits of NYCERS’ members.

EFFECTIVE DATE: This act would take effect upon enactment.

IMPACT ON REVENUES: There would be no impact on revenues from this legislation.

IMPACT ON EXPENDITURES: The City’s Office of the Actuary estimates that the proposed legislation would not result in any change in employer contributions, and thus would not have any impact on City expenditures.

Report for State Legislation Res. No. 2

Report of the Committee on State and Federal Legislation in favor of approving a State Legislation Resolution requesting the New York State Legislature to pass bills introduced by Senators Holyman and Golden, S.7780, and Assembly Member Gottfried, A.9943, "AN ACT relating to granting retroactive eligibility to apply for enhanced Tier 3 status to former New York City police officer Mark Rivera".

The Committee on State and Federal Legislation, to which the annexed preconsidered State and Federal Legislation was referred on June 7, 2018, respectfully

REPORTS:

(The following report refers to pending State legislation which requires a Home Rule Message for passage in the State Senate and State Assembly. This Committee is to decide whether this respective State Legislation Resolution [SLR] should be recommended for adoption by the Council. By adopting this SLR, the Council would be formally requesting that the New York State Legislature act favorably in this matter)

BACKGROUND:

On March 21, 2015 at the age of 37 years old, New York City Police Officer Mark Rivera died from a heart attack. At the time of his death, Officer Rivera was a Tier 3 member of the Police Pension Fund (PPF). He is survived by his wife, Abigail Rivera, and their young son, Lincoln Rivera.

Beginning on September 8, 2016, certain Tier 3 Revised members of the PPF could elect to join the Tier 3 Enhanced Plan, which extended the statutory presumptions in the Heart Bill (General Municipal Law section 207-k) to Enhanced Plan members, pursuant to Chapter 298 of the laws of 2016. Tier 3 police officers became eligible to participate in the Enhanced Plan on April 10, 2017 pursuant to Part SSS of Chapter 59 of the laws of 2017. If Officer Rivera had been alive, he would have been eligible to apply for Enhanced Tier 3 benefits under this provision of the law.

This legislation would permit Mrs. Rivera to apply for Enhanced Tier 3 membership in the PPF on behalf of her late husband, and to file for any associated death benefits had Mr. Rivera been a member of Enhanced Tier 3 on the date of his death.

PROPOSED LEGISLATION:

Section 1 of the legislation authorizes Abigail Rivera to apply for Enhanced Tier 3 membership in the PPF on behalf of her late husband, Officer Mark Rivera. Mrs. Rivera is also authorized to file for any retirement options or death benefits that would have been available to Officer Rivera if he had been a member of Enhanced Tier 3 on the date of his death.

Section 2 of this legislation states that all costs pursuant to this act shall be borne by the city of New York.

Section 3 of this legislation includes the effective date and fiscal note.

FISCAL IMPLICATIONS:

See Council Finance Division fiscal impact statement.

EFFECTIVE DATE:

This legislation shall take effect immediately.

FISCAL IMPACT STATEMENT

PRECONSIDERED SLR NO. 2: S.7780 (Golden)
 A.9943 (Gottfried)

COMMITTEE: State and Federal Legislation

TITLE: AN ACT relating to granting retroactive eligibility to apply for enhanced Tier 3 status to former New York City police officer Mark Rivera

SPONSOR(S): Council Member Cohen

SUMMARY OF LEGISLATION: This bill would authorize the surviving spouse of Mark Rivera to apply for Enhanced Tier 3 membership in the Police Pension Fund, and allow the surviving spouse to file for any retirement options or death benefits that would have been available to Mr. Rivera had he been a member of Enhanced Tier 3 on the date of his death.

Mark Rivera was employed as a New York City Police Officer – and was a member of the Tier 3 Revised pension plan – until March 21, 2015 when he passed away due to a heart attack. On April 10, 2017 Tier 3 Revised members of the City police force could elect to join the Tier 3 Enhanced Plan, which extended certain benefits and eligibility requirements, including the statutory presumptions contained in the Heart Bill. If this legislation is passed, Mr. Rivera’s death could be deemed as a line-of-duty death under such presumptions, increasing the benefit available to his spouse. Additionally, his spouse would become eligible to receive an Accidental Death Benefit as well as a New York State-paid Special Accidental Death Benefit (SADB), less any amount previously paid as an ordinary death benefit.

EFFECTIVE DATE: This act would take effect immediately.

FISCAL YEAR IN WHICH FULL FISCAL IMPACT ANTICIPATED: Fiscal 2020

FISCAL IMPACT STATEMENT:

	Effective FY19	FY Succeeding Effective FY20	Full Fiscal Impact FY20
Revenues	\$0	\$0	\$0
Expenditures	\$0	\$1,758,343	\$1,758,343
Net	\$0	(\$1,758,343)	(\$1,758,343)

IMPACT ON REVENUES: There would be no impact on revenues from this legislation.

IMPACT ON EXPENDITURES: The City's Office of the Actuary estimates that the proposed legislation would increase City expenditures by \$1,758,343. If this legislation is passed, Ms. Rivera would become eligible for an Accidental Death Benefit worth \$25,343, a Special Accidental Death Benefit (SADB) worth \$58,854, and retirement benefits for her own remaining lifetime worth an estimated \$1,900,000. The SADB would be paid for by the State, meaning the increase in City contributions if this legislation is passed comes to \$1,925,343. However, this total would be subtracted by the value of the Ordinary Death Benefit already received by the spouse, which totals \$167,000. Thus, the final Fiscal Impact totals \$1,758,343. This cost would normally be amortized over the remaining working lifetime of the officer, but because Officer Rivera is deceased, the entire increase would be recognized in the first year. Because the City uses a One-Year Lag Methodology to determine employer contributions, the increased employer contribution would be reflected in Fiscal 2020.

The Committee on State and Federal Legislation, to which the annexed preconsidered State and Federal Legislation was referred on June 7, 2018, respectfully

REPORTS:

(The following report refers to pending State legislation which requires a Home Rule Message for passage in the State Senate and State Assembly. This Committee is to decide whether this respective State Legislation Resolution [SLR] should be recommended for adoption by the Council. By adopting this SLR, the Council would be formally requesting that the New York State Legislature act favorably in this matter)

BACKGROUND:

In 2013 the New York State Legislature passed Chapter 180 of the Laws of 2013 which established a five-year demonstration program to permit the installation of a small amount of speed safety cameras near schools in New York City at certain hours of the day. The New York City Department of Transportation reports an average drop of almost 60 percent in speeding infractions at the locations since installation began¹. Currently, only 7 percent of New York City school children attend a school with a nearby speed safety camera. This legislation expands on this speed safety camera program to cover more school children by increasing the cap to 290 schools from the current cap of 140.

PROPOSED LEGISLATION:

¹ See <http://www.nyc.gov/html/dot/html/pr2016/pr16-091.shtml>

Sections 1 of the legislation amends subdivision (a) of section 1180-b of the Vehicle and Traffic law, as amended by chapter 43 of the laws of 2014 to expand the use of speed cameras to 290 schools within New York City. The section prohibits the installation of speed cameras within 300 feet of a highway exit ramp. New York City will prioritize the placement of speed safety cameras based upon school zone's speed data or the crash history of a school speed zone.

Section 2 of the legislation amends subdivision (a) of section 1180-b of the Vehicle and Traffic law, as amended by chapter 189 of the laws of 2013 by mandating that the City install signs providing notice that a speed camera is in use within 300 feet of such camera. The legislation also requires the installation of signage notifying drivers of the use of speed cameras within a designated school speed zone.

Sections 3 of the legislation amends subdivision (c) of section 1180-b of the Vehicle and Traffic law, as amended by chapter 189 of the laws of 2013 by defining a "school speed zone" as being a radial distance not to exceed 1,320 feet from a school building, entrance or exit.

Section 4 sets forth a reporting requirement.

Sections 5 amends the opening paragraph section 12 of chapter 43 of the laws of 2014, amending the Vehicle and Traffic law, the Public Officers law, and the General Municipal law, by amending the expiration date of sections one through ten of this act.

Sections 6 amends section 15 of chapter 189 of the laws of 2013 to set a new sunset date of July 1, 2022.

Section 7 sets forth a timeline for the addition of 150 new school speed zones, as authorized by Section 1 of this legislation.

Section 8 is the effective date.

FISCAL IMPLICATIONS:

See Council Finance Division fiscal impact statement.

EFFECTIVE DATE:

This legislation shall take effect immediately; provided that the amendments to section 1180-b of the vehicle and traffic law made by sections one, two, three and four of this act shall not affect the repeal of such section and shall be deemed repealed therewith.

FISCAL IMPACT STATEMENT

**Preconsidered SLR No. 3: S.6046-C Peralta)
A.7798-C (Glick)**

COMMITTEE: State and Federal Legislation

TITLE: An act to amend the vehicle and traffic law, in relation to photo speed violation monitoring systems in school speed zones in the city of New York; to amend chapter 43 of the laws of 2014, amending the vehicle and traffic law, the public officers law and the general municipal law relating to photo speed violation monitoring systems in school speed zones in the city of New York, in relation to

making technical corrections thereto; and to amend chapter 189 of the laws of 2013, amending the vehicle and traffic law and the public officers law relating to establishing in a city with a population of one million or more a demonstration program implementing speed violation monitoring systems in school speed zones by means of photo devices, in relation to the effectiveness thereof

SUMMARY OF LEGISLATION: This legislation would amend the vehicle and traffic law, the public officers law and the general municipal law to increase, from 140 to 290, the number of school speed zones within the City of New York where photo speed violation monitoring systems may be installed and operated. The law would also require the City to install signs giving notice to motorists that a photo speed violation monitoring system is in place.

EFFECTIVE DATE: This act would take effect immediately, except that the signage requirements would take effect on the ninetieth day after the act becomes a law.

FISCAL YEAR IN WHICH FULL FISCAL IMPACT ANTICIPATED: Fiscal 2022

FISCAL IMPACT STATEMENT:

	Effective FY19	FY Succeeding Effective FY20	Full Fiscal Impact FY22
Revenues (+)	\$5,505,938	\$13,758,055	\$18,338,205
Expenditures (-)	\$5,294,472	\$7,768,472	\$15,181,472
Net	\$211,466	\$5,989,582	\$3,156,732

IMPACT ON REVENUES: When fully implemented, it is estimated that the revenue impact of the 150 school zones camera locations added by this legislation would be approximately \$18.3 million per school year. In Fiscal 2019, it is anticipated that 50 camera locations would be operational and therefore the anticipated fiscal impact on revenue is projected to be \$5million, or \$110,119 per location. It is anticipated that the Department of Transportation (DOT) will install cameras in 50 locations in Fiscal 2019, 50 locations in Fiscal 2020, and 50 locations in Fiscal 2021, with two cameras installed at each location. This estimate is based on the assumption that DOT will have full use of the additional camera locations for at least 209 school days, including summer schooldays, each year.

IMPACT ON EXPENDITURES: It is anticipated that this legislation would impact expenditures in that implementation would include both operating costs and a one-time capital expenditure for the purchase and installation of the additional new cameras. The one time capital cost would be approximately \$33.6 million, or \$224,132 per school speed zone. In addition, there is an expense cost of \$117,000 for the installation of 750 signs in the first three fiscal years. The annual operating costs for the additional cameras when all 150 locations are fully implemented would be approximately \$15.2 million. This includes \$257,000 for two clerical positions, \$14.9 million for camera maintenance, and \$20,000 for space costs. In Fiscal 2019, assuming that 50 new camera locations are fully operational the anticipated operating costs would be approximately \$5 million.

Report for State Legislation Res. No. 4

Report of the Committee on State and Federal Legislation in favor of approving a State Legislation Resolution requesting the New York State Legislature to pass bills introduced by Senator Golden, S.8941, and Committee on Rules (at request of Assembly Member Weprin), A.11123, "AN ACT to amend the real property tax law, in relation to the determination of adjusted base proportions in special assessing units which are cities for the fiscal year two thousand nineteen".

The Committee on State and Federal Legislation, to which the annexed preconsidered State and Federal Legislation was referred on June 7, 2018, respectfully

REPORTS:

(The following report refers to pending State legislation which requires a Home Rule Message for passage in the State Senate and State Assembly. This Committee is to decide whether this respective State Legislation Resolution [SLR] should be recommended for adoption by the Council. By adopting this SLR, the Council would be formally requesting that the New York State Legislature act favorably in this matter)

BACKGROUND:

New York State Law requires that the City of New York adopt class shares based on rates calculated by the State Board of Real Property Services (SBRPS) for the purpose of distributing the tax levy among the four classes of real property. This year SBRPS' class equalization rates would cause the tax burden on property tax class one, comprised of one-, two- and three-family homes, to increase, as it has over the past several years.

The purpose of this bill is provide relief for the residential property tax class one without placing a burden on to class two, which is the other residential tax class. The "uncapped" current base proportions of class one would grow by over 6.6 percent from fiscal year 2018, under SBRPS' calculations. Currently, State Law provides that the current base proportion of any one class may not exceed the adjusted base proportion for that class from the prior year by more than five percent.

This legislation would adjust that rule, for one year only, to cap the maximum class growth at 0.5 percent for New York City. The effect of this change would be to reduce the amount by which the current base proportions for any class, including class one, is allowed to grow, resulting in citywide savings of about \$272 for a typical owner of a class one single family home. Under a cap of 0.5 percent, class two properties will see a decrease in the tax rate, making the rate the lowest it has been since fiscal year 2009. Class three's rate is expected to increase, by 1.7 percent however, this rate is expected to be lower than it has been from fiscal 2009 through fiscal 2013. Class four properties would see no change in rate from fiscal 2018, keeping the rate lower than it had been from fiscal 2015 through fiscal 2017. If this bill does not become law, the New York City Council has to adopt the default SBRPS formula for establishing class shares. The estimated tax rate increase for class one would be over 7 percent, which when coupled with assessment increases would cause significant increases in the tax bills for residential homeowners.

PROPOSED LEGISLATION:

Section one of this bill amends subdivision 1 of section 1803-a of the real property tax law by adding a new paragraph (dd) which caps the maximum class growth rate at 0.5 percent for fiscal year 2019.

Section two of this bill holds that in the event that the special assessing unit has sent out real property tax bills for its fiscal year 2019 before this act becomes law, the city of New York will take such as actions as are necessary to effect the provisions of section one of this act.

Section three states that this bill shall take effect immediately.

RESOLUTIONS

presented for voice-vote

The following are the respective Committee Reports for each of the Resolutions referred to the Council for a voice-vote pursuant to Rule 8.50 of the Council:

Report for voice-vote item Res. No. 197

Report of the Committee on Mental Health, Disabilities and Addiction in favor of approving a Resolution calling upon the New York City Department of Education to include drug awareness education concerning opioids in the school curriculum.

The Committee on Mental Health, Disabilities and Addiction, to which the annexed resolution was referred on March 7, 2018 (Minutes, page 981), respectfully

REPORTS:

(For text of the report, please see the Report of the Committee on Mental Health, Disabilities and Addiction for Int. No. 615-A)

Accordingly, this Committee recommends its adoption.

(The following is the text of Res. No. 197:)

Res. No. 197

Resolution calling upon the New York City Department of Education to include drug awareness education concerning opioids in the school curriculum.

By Council Members Brannan, Holden and Kallos.

Whereas, According to the National Institute on Drug Abuse, opioids are drugs that include heroin, certain legally prescribed pain relievers, and synthetic opioids; and

Whereas, The New York City Department of Health and Mental Hygiene reported that more than 80 percent of drug overdose deaths from January 2017 to July 2017 included opioid use; and

Whereas, As the National Institute on Drug Abuse notes, drug consumption at an early age is a predictive factor of the development of a substance addiction, and most individuals with a substance use disorder began using substances prior to age 18; and

Whereas, The Federal Substance Abuse and Mental Health Services Administration acknowledged that one out of four teenagers believe prescription drugs can be taken to assist with studying, and according to a media source, some teenagers misuse prescription opioids because they believe it will help them with their school work; and

Whereas, As reported by the New York Daily News, in 2017, the Realization Center, an addiction treatment program in New York City, observed that they were treating almost double the amount of high school students for drug addiction at the time than in previous years, including drug addictions to opioids; and

Whereas, Data from the New York City Youth Risk Behavior Survey in 2015 shows that 7 percent of New York City high school students misused prescription opioid analgesics, and 3 percent of youth reported that they had used heroin previously; and

Whereas, The use of opioids can be life threatening for teens, and research conducted by the National Center for Health Statistics shows that in 2015, drug overdoses for youth ages 15-19, nationwide, were highest for opioid usage; and

Whereas, Research based interventions such as social supports and educational activities can help prevent early misuse of drugs, and numerous school districts across the country have adopted health curriculums that address the misuse of opioids among youth; and

Whereas, New York City's Department of Education contracts with the HealthSmart program to provide health education to middle school and high school students; and

Whereas, While HealthSmart includes information about drug addiction, the middle school and high school curricula fail to provide minimal information about opioid addiction; and

Whereas, It is imperative that New York City students are informed about the risk factors and preventative measures concerning opioid usage, especially at a time in which there is a growing opioid crisis; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York City Department of Education to include drug awareness education concerning opioids in the school curriculum.

DIANA AYALA, *Chairperson*; FERNANDO CABRERA, JAMES G. VAN BRAMER, ROBERT F. HOLDEN, ALICKA AMPRY-SAMUEL; Committee on Mental Health, Disabilities and Addictions; June 5, 2018.

Pursuant to Rule 8.50 of the Council, the Public Advocate (Ms. James) called for a voice-vote. Hearing no objections, the Public Advocate (Ms. James) declared the Resolution to be adopted.

Adopted unanimously by the Council by voice-vote.

Res. No. 377

Resolution calling upon the Governor and the Metropolitan Transportation Authority to commit to an expeditious transition to an electric bus fleet and to use electric buses as a robust part of its replacement service during the upcoming L train shutdown.

By Council Members Espinal and Levin

Whereas, According to the Metropolitan Transportation Authority (“MTA”), in 2019 it will shut down L train service between Manhattan and Brooklyn for 15 months in order to make Hurricane Sandy-related repairs, disrupting the commutes of over 200,000 daily weekday riders; and

Whereas, Many alternative service plans are under consideration, including increased bus service; and

Whereas, The pending L train shutdown, and the increased demand for bus service that it will create, presents a prime opportunity to utilize clean bus technology that would bring significant environmental and health benefits to the city; and

Whereas, Exhaust from diesel buses is a significant contributor to smog-creating nitrogen oxide pollution and particulate pollution, which contribute to high levels of asthma and other respiratory problems among the New York Metropolitan Area’s residents, including nearly half a million children; and

Whereas, The City has set a goal of reducing greenhouse gas emissions by 80 percent below 2005 levels by 2050; and

Whereas, According to a Columbia University analysis, converting the entire fleet to all-electric buses would result in an annual reduction of emissions within the city limits of approximately 575,000 metric tons of equivalent carbon dioxide (CO₂e) and an estimated \$100 of health care savings per resident per year; and

Whereas, Zero emission buses produce no pollution at the tailpipe and, according to the Sierra Club, even after factoring in emissions from electricity generation, each contributes up to 270,000 pounds less climate change-creating CO₂e pollution per year compared to diesel or compressed natural gas buses (CNG); and

Whereas, According to an analysis by the Sierra Club, zero emission buses cost less to fuel and maintain than diesel or CNG buses and have a lower lifetime cost than either diesel or CNG buses; and

Whereas, Zero emission buses can increase the livability of New York City neighborhoods through noise and pollution reduction; and

Whereas, The MTA should commit to adding at least 200 zero emission buses to its fleet by 2019 and to purchasing exclusively zero emission buses by 2030; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the Governor and the Metropolitan Transportation Authority to commit to an expeditious transition to an electric bus fleet and to use electric buses as a robust part of its replacement service during the upcoming L train shutdown.

Res. No. 379

Resolution to recognize “Meatless Monday” in New York City.

By Council Members Rosenthal, Cabrera, Brannan, Salamanca and Constantinides.

Whereas, Meatless Monday is an international campaign that encourages people to enjoy meat-free meals on Mondays to improve their personal and public health, animal welfare, wildlife protection, and environmental and agricultural sustainability; and

Whereas, The Meatless Monday campaign initially began in the United States (U.S.) as a nationwide war rationing effort during World Wars I and II, and was revived as a health campaign in 2003 by The Monday Campaigns in association with the Johns Hopkins Bloomberg School of Public Health; and

Whereas, According to the national nonprofit organization Compassion Over Killing, over 50% of Americans are familiar with Meatless Monday and nearly 1 in 5 participate in the campaign; and

Whereas, Several cities across the U.S., including Los Angeles, South Miami, Washington, D.C., San Francisco, Philadelphia and others have either passed resolutions or written proclamations to promote Meatless Monday; and

Whereas, Monday was chosen because several studies, including “What’s the Healthiest Day? Circaseptan (Weekly) Rhythms in Healthy Considerations,” *American Journal of Preventive Medicine* (2014), have demonstrated that people are more likely to try to quit smoking, begin a diet or exercise regimen, schedule a doctors’ appointment, or adopt other health behaviors on Monday than any other day; and

Whereas, According to the Johns Hopkins Bloomberg School of Public Health website, “In 2000, the Surgeon General released the Healthy People 2010 report outlining health objectives for the nation to serve as goals for the next decade. Healthy People 2010 specifically called for a 15% reduction in saturated fat in the American diet. Since saturated fat in the diet is almost exclusively of animal origin and one day of the week is just under 15% of the week, the campaign began by encouraging people to refrain from eating meat one day a week to help reach this goal”; and

Whereas, Proponents of Meatless Monday argue that going meatless one day a week can reduce the risk of chronic preventable conditions like cancer, cardiovascular disease, diabetes and obesity; and

Whereas, Proponents also argue that it can help limit one’s carbon footprint and save precious resources like fresh water because the water usage for livestock is much greater than it is for vegetables and grains and according to the Intergovernmental Panel on Climate Change, livestock production accounts for 10-31% of global greenhouse gas emissions; and

Whereas, FGI Research, a nationwide online survey that tracks awareness and behavior related to the Meatless Monday campaign, surveyed approximately 1,000 participants in 2012, and found that awareness of Meatless Monday increased from 26% to 43% from November 2010 to July 2012, among adults living in the U.S., and 62% of respondents reported that health was the primary reason for cutting back or considering cutting back on meat; and

Whereas, Furthermore, of those influenced by Meatless Monday, 62% tried to incorporate Meatless Monday in their weekly routine and 40% incorporated more meatless meals the rest of the week; and

Whereas, According to the Meatless Monday website, approximately 40 schools in New York City have participated in the campaign, including public, private and charter schools at all grade levels, New York City colleges and universities have also participated in Meatless Monday, including Barnard College, Brooklyn Law School, Columbia University, Fordham University, LaGuardia Community College and Manhattan College; and

Whereas, In October 2017, Mayor Bill de Blasio, New York City Department of Education Schools Chancellor Carmen Fariña and Brooklyn Borough President Eric Adams announced that 15 Brooklyn public schools will participate in Meatless Mondays in spring 2018; and

Whereas, The program will provide participating schools with healthy, all-vegetarian breakfast and lunch menus every Monday; and

Whereas, Reputable restaurant owners in New York City such as Bill Telepan, Mario Batali, John Fraser, and Marisa May among others, participate in Meatless Mondays by offering vegetarian options to their customers; and

Whereas, According to a 2013 article in *Nation’s Restaurant News*, restaurateurs found that Meatless Mondays can be beneficial to their businesses because Meatless Monday choices entice people to dine out on Monday, a day of the week that can be slow for businesses; and

Whereas, Given the health and environmental benefits from participating in Meatless Monday, it would be advantageous for more New Yorkers to participate in Meatless Monday through New York City schools, cafeterias and dining services, local restaurants, and community organizations; now, therefore, be it

Resolved, That the Council of the City of New York recognizes “Meatless Monday” in New York City.

Referred to the Committee on Health.

A Local Law to amend the administrative code of the city of New York, in relation to transportation of sewage sludge

Be it enacted by the Council as follows:

Section 1. Subchapter 6 of chapter 1 of title 24 of the administrative code of the city of New York is amended by adding a new section 24-154.1 to read as follows:

§ 24-154.1 Transportation of sewage sludge. a. Definitions. For the purposes of this section, the term “sewage sludge” means the dewatered sewage sludge or biosolids generated by wastewater treatment facilities.

b. No person shall transport sewage sludge on a public roadway or permit any person to transport sewage sludge on a public roadway, except in a container that is completely enclosed by solid materials sufficient to prevent the emission of noxious odors.

§ 2. The table of civil penalties following subparagraph (i) of paragraph (3) of subdivision (a) of section 24-178 of the administrative code of the city of New York, as amended by local law number 58 for the year 2018, is amended by adding a row below the row setting the minimum and maximum penalties for violation of 24-153, to read as follows:

Int. No. 985

By Council Member Torres.

A Local Law to amend the administrative code of the city of New York, in relation to requiring the New York city police department to implement policies regarding social media

Be it enacted by the Council as follows:

Section 1. Chapter 1 of title 14 of the administrative code of the city of New York is amended by adding a new section 14-176 to read as follows:

§ 14-176 Social media policies.

a. Definitions. For the purposes of this section, the following terms have the following meanings:

Online alias. The term “online alias” means a false online identity created for a law enforcement purpose.

Social media monitoring. The term “social media monitoring” means accessing any information available online, including geospatial information, any form of social media and any aggregated or automated access, for any purpose other than the investigation of a particular past or ongoing crime. The term “social media monitoring” also means the retention and transmission of data so collected.

b. Social media policies. The department shall implement policies for the use of social media monitoring and online aliases. In so implementing, the department shall consider the extent to which such practices harmfully invade privacy, particularly where the public may be unaware of the extent to which the department may access their personal information, and the impact of these practices on public trust of the department, as well as the law enforcement benefit such practices provide. The department shall provide such policies to the individual responsible for implementing the duties set forth in paragraph 1 of subdivision c of section 803 of the New York city charter.

§2. Paragraph 1 of subdivision c of Section 803 of the New York city charter is amended to read as follows:

The commissioner shall, on an ongoing basis, investigate, review, study, audit and make recommendations relating to the operations, policies, programs and practices, including ongoing partnerships with other law enforcement agencies *and social media policies as described in section 14-176 of the administrative code*, of the new york city police department with the goal of enhancing the effectiveness of the department, increasing public safety, protecting civil liberties and civil rights, and increasing the public's confidence in the police force, thus building stronger police-community relations.

§2. This local law takes effect 90 days after it becomes law.

Res. No. 380

Resolution calling upon the New York State Legislature to pass, and the Governor to sign, A.10091, to prohibit firearms as prizes in any game of chance.

By Council Members Treyger, Brannan and Yeger.

Whereas, Gun violence is a national and local problem affecting many Americans and New Yorkers on a daily basis; and

Whereas, According to the Gun Violence Archive, there were 58,019 incidents of gun violence in the United States in 2017, resulting in 14,635 deaths and 29,669 injuries; and

Whereas, the National Rifle Association’s political lobbying efforts have prevented common-sense gun safety legislation from being enacted nationwide; and

Whereas, National Rifle Association fundraisers have used firearm raffles, most recently at a proposed event in Brooklyn, New York, as a tool for increasing monetary donations to the organization, thereby bolstering the organization’s lobbying capacity to the detriment of public safety; and

Whereas, New York State law regulates raffles and other games of chance, and prohibits the distribution of alcohol as a prize in games of chance; and

Whereas, Firearms should be treated similarly to alcohol and be prohibited from being a prize in a game of chance; now, therefore, be it

Resolved, That the Council of the City of New York calls up on the New York State Legislature to pass, and the Governor to sign, A. 10091, sponsored by Assembly Member Jo Anne Simon, to prohibit firearms as prizes in any game of chance.

Referred to the Committee on Public Safety.

Res. No. 381

Resolution calling upon the Metropolitan Transportation Authority to make all subway stations in hurricane evacuation zones accessible to people with disabilities.

By Council Members Treyger, Brannan and Yeger.

Whereas, Superstorm Sandy offered a stark lesson that New York City must be prepared to face serious coastal storms, which experts predict will become more severe in terms of both frequency and ferocity due to the effects of climate change; and

Whereas, Nearly 3 million New Yorkers live in designated hurricane evacuation zones, accounting for 37 percent of all City residences; and

Whereas, The City's experience during Sandy illustrated that seniors and people with disabilities, particularly those with mobility impairments, are among the most vulnerable during an emergency evacuation; and

Whereas, Only 117 out of a total of 493 stations in the City's subway system, which is operated by the Metropolitan Transportation Authority ("MTA"), are accessible to people with disabilities; and

Whereas, If seniors and people with disabilities in hurricane evacuation zones had access to accessible subway stations, it would provide them with a valuable alternative means of reaching safety in the event of an emergency and would relieve pressure on other road-based modes of evacuation; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the Metropolitan Transportation Authority to make all subway stations in hurricane evacuation zones accessible to people with disabilities.

Referred to the Committee on Transportation.

Res. No. 382

Resolution calling upon the New York State Legislature to pass and the Governor to sign A8134/S6427, which would allow certain New York City agencies to use Design-Build contracts for construction projects.

By Council Member Vallone.

Whereas, In Fiscal Year 2016 the City of New York spent \$52.2 billion on construction projects, the highest amount since 1995, after adjusting for inflation; and

Whereas, According to the International construction market survey of 2017, New York City had the highest construction costs in the world, an increase of 3.5 percent since the previous year; and

Whereas, The current process by which construction projects are procured for the City requires firms to create a design, submit it to the City as a bid, and if the bid meets the project specifications and is the lowest price, the firm is awarded the contract and then works with the builder to build the design; and

Whereas, This process is inefficient, requiring the use of extra time and money because it entails separate contracts and approval processes for the design and construction phases; and

Whereas, An alternative model is for the design and the construction firms to jointly submit design bids, allowing the construction firm to be fully engaged in the project from the outset; and

Whereas, In streamlining the process, the Design-Build method is expected to save the City \$450 million; and

Whereas, In 2011, New York State passed a law that allowed certain State authorities to use design-build contracts, but did not give that option to municipalities; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to pass and the Governor to sign A8134/S6427, which would allow certain New York City agencies to use Design-Build contracts for construction projects.
