TITLE: A local law to amend the administrative code of the city of New York, in relation to recycling by city agencies.

SPONSORS: Council Member James and The Speaker (Council Member Quinn) and Council Members Barron, Chin, Comrie, Dickens, Dromm, Fidler, Gentile, Gonzalez, Koppell, Lander, Lappin, Mark-Viverito, Nelson, Palma, Recchia, Rodriguez, Rose, Vann, Williams, Crowley, Eugene, Jackson, Gennaro, Van Bramer, Levin, Koslowitz and White

SUMMARY OF LEGISLATION: Proposed Int. No. 156-A would strengthen the requirements for City agency recycling by specifying that each agency must make a waste prevention, reuse, and recycling plan and must submit the plan to the Commissioner of Sanitation for approval. The plan is required to provide for the source separation of designated metal, glass, plastic, and paper at any office or building occupied by a City agency that receives Department of Sanitation collection or, if private carter collection, where practicable, and to provide for recycling receptacles at lobbies and entrances where practicable. Each agency is required to designate a lead recycling coordinator for such agency. Where the agency occupies more than one building, assistant coordinators must be designated for each building the agency occupies. The lead recycling coordinator for each agency is responsible for submitting an annual report to the head of the agency, including an estimate of the amount of waste diverted through the agency's recycling program.
