# Background

---

December 2014

**HPD released the NIHOP and NCP Request for Qualifications (RFQ) with the goal of:**

- Promoting neighborhood stabilization across the city through infill developments of small- to mid-sized vacant and under-utilized public parcels in NYC neighborhoods
- **Offering opportunities for small developers, local non-profits and community development corporations directly or through partnerships to build their development capacity.**

June 2017

**HPD designated Fifth Avenue Committee:**

- The development team **possesses experience and capacity required to develop, maintain, and manage projects** of a similar size in Brooklyn.
- Submitted proposal has a **thoughtful design, financially feasible, and delivers much needed deeply affordable units.**
- Proposal included a **significant community facility or retail space** on the only site in the cluster with a commercial overlay (425 Mother Gaston Boulevard).

2017- September 2024

**Certified for ULURP September 9, 2024**

- Fifth Avenue Committee and HPD have been working through the schematic design, environmental review and Pre-ULURP process since 2017.
- Conducted informational sessions with CB16, Brownsville Economic Development Corp. and the Pitkin Ave. Business Improvement District in the Summer of 2022.
- Presented to Councilmember Nurse in January 2024.
- Presented to CB16 LU Committee and CB16 Full Board in June 2024.

# Fifth Avenue Committee (FAC)

# CB16 Recommendation

Item	HPD/FAC Response
Adjust the configuration of apartment units by increasing the number of units in lower AMI bands and decreasing the number of units in higher AMI bands.	HPD and FAC are analyzing alternative affordability scenarios and can provide updates throughout ULURP. The current proposal aims to respond to the CB's comments.
Consider sites for the development of homeownership opportunities.	HPD shared with the CB upcoming affordable homeownership projects in their district.
Partner with Central Brooklyn Economic Development Corporation to ensure local hiring and sub-contracting.	A final selection of an intermediary for local hiring will happen later in process.
Abatement of rodent and raccoon issues at lot located at 546 Thomas S Boyland with no cost to homeowners.	HPD Property Management completed the lot clearing and began the abatement process with the final abatement ending March 2025.
Explanation for lack of open space within projects and consider designing open space within project to offer enhanced quality of life.	2 out of 3 sites include outdoor space in the rear yard and 1 site also includes an outdoor terrace. However, due to small lot sizes more open space can not be allocated for the project.
Provide examples of requested changes to zoning that occurred elsewhere in NYC and can support the request for zoning change in Brownsville.	HPD shared the example of the City's East New York rezoning which rezoned areas from manufacturing to residential prompting new housing development on public and private sites.

# NIHOP/NCP RFQ

## December 2014 HPD released the NIHOP/NCP Request for Qualifications

**Goal:** Offer opportunities to create affordable housing on smaller, vacant, and under-utilized city-owned lots that are difficult to develop.

### New Infill Homeownership Opportunities Program (NIHOP)

*Replaced by Open Door Program*

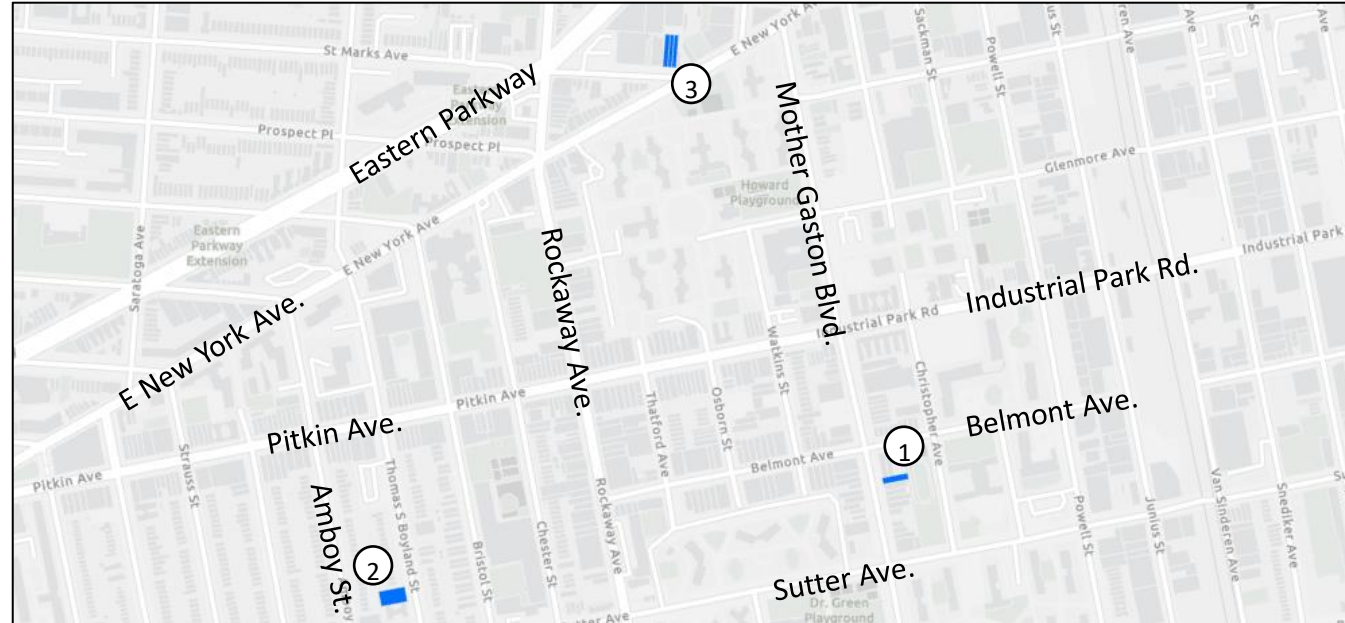

Homeownership units

- Targets 80-130% AMI

### Neighborhood Construction Program (NCP)

Rental units

- Targets 30-80% AMI

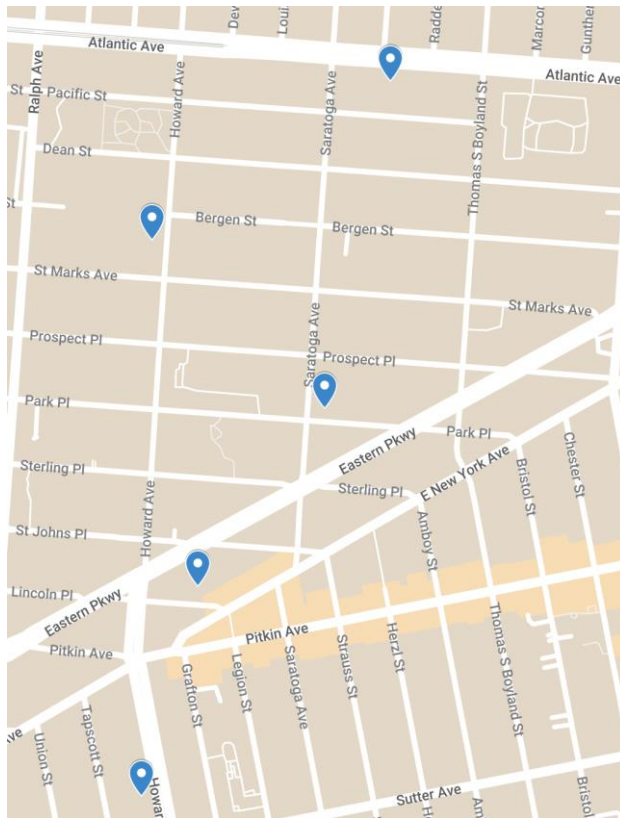

The Brownsville NCP project was designated in June 2017 to Fifth Avenue Committee under the NCP program and is proposing up to 74 affordable rental units ranging from **30-70% AMI**.

# CB16 Homeownership Projects in HPD Pipeline

## Mosaic

- Under construction
- Cluster project with 14 new buildings
  - including 42 homeownership units in CCD 41
  - 5 buildings and 15 units in CB16

## Constellation

- Pre-ULURP
- Cluster project with 8 new buildings including approx. 74 homeownership units across four BK CBs.
  - 6 buildings and approx. 62 units in CCD 41
  - 2 buildings and approx. 12 units in CCD 42
  - 3 buildings and 24 units in CB16.
