NEW YORK CITY WATERFRONT REVITALIZATION PROGRAM Consistency Assessment Form

Proposed actions that are subject to CEQR, ULURP or other local, state or federal discretionary review procedures, and that are within New York City's Coastal Zone, must be reviewed and assessed for their consistency with the New York City Waterfront Revitalization Program (WRP) which has been approved as part of the State's Coastal Management Program.

This form is intended to assist an applicant in certifying that the proposed activity is consistent with the WRP. It should be completed when the local, state, or federal application is prepared. The completed form and accompanying information will be used by the New York State Department of State, the New York City Department of City Planning, or other city or state agencies in their review of the applicant's certification of consistency.

A. APPLICANT INFORMATION

Name of Applicant: New York City Council

Name of Applicant Representative: Jennifer Wilcox

Address: 250 Broadway, 14th Floor, New York, NY 10007

Telephone: 212-482-5472 Email: jwilcox@council.nyc.gov

Project site owner (if different than above): _____

B. PROPOSED ACTIVITY

If more space is needed, include as an attachment.

1. Brief description of activity

The proposed action involves a Local Law proposed by the New York City Council (Proposed Int. No. 1503-B) which would amend the Administrative Code of the City of New York in relation to exemptions from air conditioning prohibitions. Proposed Int. No. 1503-B expands the exemption allowing restaurant doors to be propped open when the air conditioner is running to restaurant windows. This bill would take effect immediately after enactment. The proposed action does not involve new construction or new land uses. The purpose and need for the bill are further discussed below.

2. Purpose of activity

In 2008, the City passed a law prohibiting commercial buildings from running their air conditions while propping open their doors, but included an exemption for restaurant doors. In 2015, the City amended that law to expand the prohibition to open windows, but failed to include an exemption for restaurant windows. When enforcing this law it became unclear whether "french doors" in restaurants would be considered doors, and thus allowed to be propped open, or windows, and thus barred from being opened while the air conditioning was running. Expanding the exemption for restaurant doors to restaurant windows is common sense simplification of the Administrative Code which will add clarity to the law for business owners and for enforcement agents.

E. LOCATION QUESTIONS

- 1. Does the project require a waterfront site? Yes No
- 2. Would the action result in a physical alteration to a waterfront site, including land along the shoreline, land under water or coastal waters? Yes No
- 3. Is the project located on publicly owned land or receiving public assistance? Yes No
- 4. Is the project located within a FEMA 1% annual chance floodplain? (6.2) Yes No
- 5. Is the project located within a FEMA 0.2% annual chance floodplain? (6.2) Yes No
- 6. Is the project located adjacent to or within a special area designation? See Maps – Part III of the NYC WRP. If so, check appropriate boxes below and evaluate policies noted in parentheses as part of WRP Policy Assessment (Section F).
 - Significant Maritime and Industrial Area (SMIA) (2.1)
 - Special Natural Waterfront Area (SNWA) (4.1)
 - Priority Martine Activity Zone (PMAZ) (3.5)
 - Recognized Ecological Complex (REC) (4.4)
 - West Shore Ecologically Sensitive Maritime and Industrial Area (ESMIA) (2.2, 4.2)

F. WRP POLICY ASSESSMENT

Review the project or action for consistency with the WRP policies. For each policy, check Promote, Hinder or Not Applicable (N/A). For more information about consistency review process and determination, see Part I of the NYC Waterfront Revitalization Program. When assessing each policy, review the full policy language, including all sub-policies, contained within Part II of the WRP. The relevance of each applicable policy may vary depending upon the project type and where it is located (i.e. if it is located within one of the special area designations).

For those policies checked Promote or Hinder, provide a written statement on a separate page that assesses the effects of the proposed activity on the relevant policies or standards. If the project or action promotes a policy, explain how the action would be consistent with the goals of the policy. If it hinders a policy, consideration should be given toward any practical means of altering or modifying the project to eliminate the hindrance. Policies that would be advanced by the project should be balanced against those that would be hindered by the project. If reasonable modifications to eliminate the hindrance are not possible, consideration should be given as to whether the hindrance is of such a degree as to be substantial, and if so, those adverse effects should be mitigated to the extent practicable.
