

**LOCAL LAWS  
OF  
THE CITY OF NEW YORK  
FOR THE YEAR 2017**

---

**No. 190**

---

Introduced by Council Members Rodriguez, Vacca, Rosenthal, Levine and Gentile.

**A LOCAL LAW**

**To amend the administrative code of the city of New York, in relation to requiring signage warning of the health risks associated with smoking shisha**

*Be it enacted by the Council as follows:*

Section 1. Legislative findings. The Council finds that smoking is a leading cause of preventable premature death in New York City, killing thousands of New Yorkers every year and increasing the risks of lung cancer, heart disease, and many other health hazards.

Despite substantial progress in reducing both environmental smoke exposure and smoking rates among adults and youth, the use of water-pipes, or hookah smoking, is increasing and threatens the progress the City has made to reduce tobacco use by residents and visitors to the City. The Council finds that hookah smoking, regardless of whether the shisha contains tobacco, poses significant health risks to smokers and nonsmokers, including employees at establishments that serve hookah. Studies show that hookah smokers often poorly understand or underestimate the associated risks, particularly youth users. Common misconceptions regarding hookah include the following: shisha does not contain tobacco, shisha is not addictive, water filters out harmful chemicals, and hookah smoking is a healthy alternative to cigarettes. Based on the effectiveness of health warnings in other settings, the Council finds that health warnings in establishments serving hookah are an effective way to educate consumers about the risks associated with smoking

hookah. Placing these warnings inside establishments serving hookah may correct common misperceptions regarding these risks.

The Council hereby declares that this local law responds to the significant health hazards posed by hookah smoking by providing for factual warnings and education on the health hazards posed by hookah smoking.

§ 2. Section 17-506 of the administrative code of the city of New York is amended by adding a new subdivision e to read as follows:

*e. A non-tobacco hookah establishment shall prominently and conspicuously display at its entrance, and in any room or area where non-tobacco smoking products are smoked, a sign warning of the health risks associated with smoking non-tobacco smoking products. The size, style, and content of such signs shall be determined in accordance with rules promulgated by the commissioner.*

§ 3. This local law takes effect 180 days after it becomes law, except that the department of health and mental hygiene may take such actions, including the promulgation of rules, as are necessary for the timely implementation of this local law, prior to such effective date.

THE CITY OF NEW YORK, OFFICE OF THE CITY CLERK, s.s.:

I hereby certify that the foregoing is a true copy of a local law of The City of New York, passed by the Council on September 27, 2017 and approved by the Mayor on October 16, 2017.

MICHAEL M. McSWEENEY, City Clerk, Clerk of the Council.

CERTIFICATION OF CORPORATION COUNSEL

I hereby certify that the form of the enclosed local law (Local Law No. 190 of 2017, Council Int. No. 1075-A of 2016) to be filed with the Secretary of State contains the correct text of the local law passed by the New York City Council and approved by the Mayor.

STEPHEN LOUIS, Acting Corporation Counsel.
