93-83

Use and Location of Parking Facilities

The provisions of this Section shall apply to all off-street parking spaces within the #Special Hudson Yards District#.

- (a) All off-street parking spaces #accessory# to #residences# shall be used exclusively by the occupants of such #residences#. Except in the Eastern Rail Yard Subarea A1, aAll #accessory# off-street parking spaces #accessory# to Use Group 5 #transient hotels# and Use Group 6B offices may be made available for public use. However, any such space shall be made available to the occupant of a #residence# to which it is #accessory# within 30 days after written request therefore is made to the landlord. Furthermore, if #accessory# and public parking spaces are provided on the same #zoning lot#, all such spaces shall be located within the same parking facility. However, such regulations are modified in the following areas:
- (1) in C1-7A Districts and in C2-5 Districts mapped within R8A Districts, all #accessory# off-street parking spaces shall be used exclusively by the occupants of the #residential development#, #enlargement# or conversion. Where a parking facility is located partially within a C2-5 District mapped within an R8A District and partially within another district, all such #accessory# off-street parking spaces may be made available for public use provided more than half of the floor space of the parking facility is located outside the C2-5 District mapped within an R8A District; or
- (2) in the Eastern Rail Yards Subarea A1, any #accessory# parking spaces shall be exclusively for #uses# located in the Subarea.
- (b) All #accessory# off-street parking spaces may be provided within parking facilities on #zoning lots# other than the same #zoning lot# as the #uses# to which they are #accessory#, provided:
- (1) such parking facilities are located within a C2-8 or C6-4 District within the #Special Hudson Yards District#, or within the 42nd Street Perimeter Area of the #Special Clinton District# or within Area P-2 of the #Special Garment Center District#;
- (2) the off-street parking space within such facility is counted only once in meeting the parking requirements for a specific #zoning lot#; and
- (3) the number of parking spaces within such facility shall not exceed the combined maximum number of spaces permitted on each #zoning lot# using such facility, less the number of any spaces provided on such #zoning lots#. The provisions of Section 13-141 (Location of accessory off-street

parking spaces), inclusive, shall apply.

- (c) All off-street parking spaces shall be located within facilities that, except for entrances and exits, are:
- (1) entirely below the level of any #street# or publicly accessible open area upon which such facility, or portion thereof, fronts; or
 - (2) located, at every level above-grade, behind commercial, community facility or #residential floor area# so that no portion of such parking facility is visible from adjoining #streets# or publicly accessible open areas.

93-8231

Authorization for above-grade parking

The City Planning Commission may authorize parking facilities that do not comply with the provisions of paragraph (c) of Section 93-823 (Use and Location of Parking Facilities) and may authorize floor space used for parking and located above a height of 23 feet to be exempt from the definition of #floor area#, provided that:

- (a) below-grade parking has been provided to the fullest extent feasible, and such above-grade facility is necessary due to subsurface conditions such as the presence of bedrock, railroad rights-of-way or other conditions that impose practical difficulties for the construction of below-grade parking facilities;
- (b) the scale of the parking facility is compatible with the scale of #buildings# in the surrounding area;
- (c) the materials and articulation of the #street wall# of the parking facility is compatible with #buildings# in the surrounding area;
- (d) the ground floor level of such parking facilities that front upon #streets# is occupied by #commercial#, #community facility# or #residential uses# that activate all such adjoining #streets#, except at the entrances and exits to the parking facility. Where site planning constraints make such #uses# infeasible, the parking facility shall be screened from adjoining #streets# or public access areas with a densely planted buffer strip at least 10 feet deep. Where such screening is not desirable, such ground floor wall of the parking facility shall be articulated in a manner that provides visual interest;
- (e) any floor space above the ground floor level utilized for parking is located, to the greatest extent feasible, behind #commercial#, #community facility# or #residential floor area# so as to minimize the visibility of the parking facility from adjoining #streets# or public access areas. Any exterior wall of the parking facility visible from an adjoining #street# or public access area shall be articulated in a manner that is compatible with #buildings# in the surrounding area;
- (f) for portions of parking facilities that are visible from #streets#, publicly accessible open areas or nearby properties, interior lighting and vehicular headlights are shielded to minimize glare on such #streets#, public access areas or properties; and
- (g) the location of vehicular entrances and exits will not unduly inhibit surface traffic and pedestrian flow.

The Commission may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.
