Preconsidered Res. No. 635

Resolution calling upon the New York State Legislature to eliminate the Governor’s receivership proposal in the executive budget for New York City.

By Council Members Dromm, Chin, Constantinides, Barron, Ferreras, Treyger, Lander, Johnson, Miller, Rosenthal, Levine, Richards, Kallos, Levin and Rose

Whereas, The Mayor of New York City is directly accountable for the performance of New York City public schools through the mayoral control model; and

Whereas, In November 2014 the New York City Department of Education (DOE) designated 94 schools as Renewal Schools; and

Whereas, The Renewal Schools program is a massive, \$150 million investment to improve struggling schools; and

Whereas, The City DOE is holding these schools accountable for meeting aggressive improvement

goals and benchmarks,

Whereas, Each Renewal School will become a community school with powerful interventions to eliminate barriers to learning; and

Whereas, Every Renewal School will have the proven reform of extended learning time available for each student, every day; and

Whereas, Furthermore, the DOE plans to have each Renewal School undergo a top to bottom review of staff, curriculum, and support structures, with targeted, evidence-based interventions developed for each school, including in some cases school-wide re-staffing plans; and

Whereas, Renewal Schools that do not make sufficient progress shall face a DOE-ordered re-organization, including closure; and

Whereas, The New York City Chancellor of the DOE has already replaced several principals mid-year; and

Whereas, The Renewal Schools program is already showing early results, such as at the Boys and Girls High School where they have seen positive indicators of increased attendance and higher credit accumulation, and where there has been a decrease in suspensions; and

Whereas, There has been an increase in the percentage of 9th graders who are on track to earn the necessary credits to graduate at Automotive High School; and

Whereas, The Governor's Executive Budget proposal includes a plan wherein the Commissioner of the State Education Department (SED) can designate for receivership districts in the lowest achieving 2.5% statewide and schools in the lowest achieving 5%, as defined by State tests, graduation rates and other performance data; and

Whereas, Under this proposal, the SED Commissioner can appoint a person, another district, or a non-profit entity to take over the school or district; and

Whereas, Additionally, under this proposal, the receiver can convert a struggling school to charter status without a vote of the parents; and

Whereas, Furthermore, under this proposal, the receiver will have the power to unilaterally change budgets, curriculum, collective bargaining agreements, school schedules, and staffing; and

Whereas, The receivership model has no consistent evidence of efficacy in improving school

performance; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Legislature to eliminate the Governor's receivership proposal in the executive budget for New York City.
