Int. No. 329

By Council Members Clarke, Addabbo, Avella, Barron, Boyland, Comrie, Foster, Jackson, Jennings, Liu, Perkins, Reed, Rivera, Sanders, Seabrook, Serrano, Stewart, Vann, Gerson, Quinn and Brewer; also Council Members Baez and Koppell

A Local Law to amend the administrative code of the city of New York, in relation to requiring the New York City Police Department to install video cameras in all patrol cars.

Be it enacted by the Council as follows:

Section 1. Legislative intent. There are numerous interactions each day between members of the New York City Police Department and members of the public ranging from police inquiries to investigations of violent felonies, and sometimes these encounters are the subject of confusion and misinterpretation both for officers and civilians alike. Every attempt should be made to minimize such confusion and misinterpretation, and one such method is to require that each patrol car be installed with a video camera to monitor all events. The NYPD has already recognized the value of having such cameras

in highway patrol cars in order to document driving while intoxicated and reckless driving offenses, thus making it easier to secure a conviction.

The Council finds that just as cameras are useful in this enforcement function, so too can they be an important tool in preventing and investigating allegations of police misconduct. The installation of such video cameras will also be of benefit to police officers because the cameras will protect the police from false allegations of misconduct or brutality.

In light of the benefits of such cameras, the use of these cameras should be increased because they protect both the public and police officers and can be used as evidence of criminal conduct.

§ 2. Chapter one of title 14 of the administrative code of the city of New York is amended by adding a new section 14-151 to read as follows:

§14-151. Video Cameras. The New York City Police Department shall install video cameras in all vehicles used for patrol purposes, except for vehicles used for undercover assignments. The Commissioner shall promulgate rules regarding the use of such cameras.

§3. This local law shall take effect within 60 days of its enactment.
