Res. No. 693

Resolution calling upon the City of New York to analyze the effectiveness of the Park Enforcement Police and to evaluate safety in the parks and open space in the City of New York.

By Council Members Addabbo, Jr., Avella, Brewer, Comrie, DeBlasio, Felder, Fidler, Gennaro, Gerson, Jackson, Liu, Martinez, Monserrate, Nelson, Rivera, Sanders, Seabrook, Sears, Weprin and Quinn; also Council Member Vallone

Whereas, The City of New York has over 28,000 acres of open space and park land, most of which is comprised of neighborhood parks; and Whereas, The Department of Parks and Recreation has 112 Park Enforcement Police officers to cover this property; and Whereas, The rape in Prospect Park, Brooklyn on or about January 9, 2003, the rape in Flushing-Meadows Corona Park, Queens on or about December 23, 2002, and the rape in the Lincoln Terrace Park, Brooklyn on or about November 29, 2002 have shown an indication that measures to increase safety are needed; and

Whereas, Although the Police Department of the City of New York tracks crime by precincts and precinct sectors with COMPSTAT, there is no system to gather and evaluate crime statistics that specifically reflect park properties; and

Whereas, Information on crime statistics in parks should be specifically analyzed by the Police COMPSTAT system; and

Whereas, Only Central Park has a dedicated police force, that protects park users and public property; and

Whereas, Neither neighborhood parks nor larger high-profile parks in Queens, Brooklyn, Staten Island, the Bronx and the rest of Manhattan have a dedicated security/police force; and

Whereas, Parks which are covered by more than one precinct are not properly analyzed in terms of park crimes with the current COMPSTAT system; and

Whereas, For example, Forest Park borders and is in the 104, 102, 112, and 75 precincts, in 3 different patrol boroughs (Queens North, Queens South and Brooklyn North), there are over 12 parks in the 115 precinct in Queens, Flushing Meadows Park is covered by the 110, 107 and 112 precincts, Prospect Park borders and is covered by the 70, 71, 77 and 78 precincts, Riverside Park is covered by the 20, 24 and 26 precincts; Bronx Park is covered by the 49 and 52 precincts, and Van Cortland Park is covered by the 47 and 50 precincts; and

Whereas, As COMPSTAT has shown its effectiveness in tracking precinct crime, such a system will also assist the Police and Parks Departments in pinpointing park violence; and

Whereas, Non-supervisory Parks Department Enforcement Patrol has less than 100 officers, and are stretched thinnest outside of

Manhattan, with 9 in the Bronx, 12 in Brooklyn, 7 in Queens and 6 in Staten Island; and
Whereas, In addition, better avenues of official communication are needed between the Police Department and Parks Department of the City of New York; and
Whereas, Increased support or reallocation of resources of the Parks Enforcement Police is necessary to enhance its effectiveness in keeping the City's parks safe; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the City of New York to analyze the effectiveness of the Park Enforcement Police and to evaluate safety in the parks and open space in the City of New York.
