Res. No. 48

Resolution calling upon the New York State Public Service Commission to include language in utility tariffs to prohibit the placement of utility meters in front of residential buildings throughout New York City.

By Council Members Crowley, Dromm, James, Koppell, Halloran, Koslowitz, Rivera, Vacca and Nelson

Whereas, The New York State Public Service Commission has exclusive regulatory authority over gas and electric utility companies in New York; and

Whereas, Utility companies must file tariffs with the New York State Public Service Commission stating the rates to be charged to the utility's customers and detailing access and placement of the utility companies metering devices in and upon residential property; and

Whereas, Many residents of the City and community organizations have serious concerns that their residential neighborhoods are being aesthetically degraded by the unsightly placement of utility meters in front of residential buildings; and

Whereas, Barring the unsightly placement of such utility meters in front of residential buildings would be a benefit to the aesthetics of residential neighborhoods throughout New York City; now, therefore, be it

Resolved, That the Council of the City of New York calls upon the New York State Public Service Commission to include language in utility tariffs to prohibit the placement of utility meters in front of residential buildings throughout New York City.
