head, in any invitation for bids, request for proposals, or other solicitation. If the agency determines that such result would occur, the agency] shall determine the costs incurred and the benefits derived in performing the service, consistent with the scope and specifications within the solicitation, with city employees, and shall submit such analysis, with all supporting documentation, prior to issuance of any solicitation, to the comptroller.

2. Immediately upon receipt of bids and proposals, the agency shall submit such determination, analysis, and supporting documentation to the council and to the appropriate collective bargaining representatives representing employees who would be affected pursuant to paragraph 1 of subdivision a of this section.

3. Prior to award of a contract, the agency shall perform a comparative analysis of the costs expected to be incurred and the benefits expected to be derived from entering into a contract with the proposed vendor, based on such vendor's best and final offer, and such agency's analysis of the costs incurred and the benefits derived from providing the service with city employees. If the agency head intends to award the contract, he or she shall submit the reasons therefor, together with such analysis, and all supporting documentation, to the comptroller, the council, and the appropriate collective bargaining representatives representing employees who would be affected pursuant to paragraph 1 of paragraph a of this section.

4. The council may, within thirty days after receipt of such reasons, analysis, and supporting documentation hold a hearing on this matter. No contract award shall be made prior to the expiration of this thirty-day period or a council hearing, whichever is sooner.

5. a. All cost and comparative analyses required under this section shall be conducted in accordance with standard methodology of the office of management and budget, and consistent with the rules of the procurement policy board, as both are modified herein, subject to further modification by local law. Such analyses shall include all reasonable costs associated with performing the service using city employees and all reasonable costs associated with performing the service under the proposed contract.

6. The reasons given to award the contract shall include all factors that have been considered in determining whether contracting for this service is in the best interest of the city, whether or not such reasons are contained within the cost or comparative analyses. Such factors shall include, but not be limited to, the potential for contractor default, the time required to perform the service, and the quality of the service to be delivered.

7.
