### Proposed Int. No. 573-B

By Council Members Dromm, Rodriguez, Chin, Rosenthal and Cabrera (by request of the Mayor)

A Local Law to amend the administrative code of the city of New York, in relation to the operation of horse drawn cabs and pedicabs, and to repeal subdivision c of section 20-374 of the administrative code of the city of New York, relating to licenses for additional horse-drawn cabs

Be it enacted by the Council as follows:

Section 1. Declaration of legislative intent and findings. a. The Council finds and declares that:

1. Horse-drawn carriage service was developed for use in the city before automobiles became common, yet horses continue to work on streets alongside taxicabs, private cars, and busses. Numerous traffic crashes involving horse-drawn carriages have occurred in New York City, resulting in harm to horses and damage to vehicles. The presence of horse-drawn carriages on busy streets surrounding stables and Central Park not only negatively impacts the quality of life in these areas, but puts horses in stressful situations and places them in harm's way.

2. Limiting the operation of horse-drawn carriages to Central Park will make the City's streets safer for pedestrians, cyclists, and motorists; eliminate the potential for dangerous interactions between horses and vehicles; and allow for the continuation of the horse-drawn carriage industry.

3. Stabling carriage horses within Central Park will allow horse-drawn carriages to provide rides within the Park without requiring horses to work on City streets.

4. Moving the horse-drawn carriage industry within Central Park requires both a reduction in the number of licensed horses and in the number of hours per day a carriage may operate.

5. As a stable within Central Park will not be operational until October 1, 2018, prohibiting operation of

horse-drawn carriages on streets unless they are traveling directly to or from a stable and Central Park will reduce the risk to horses and improve safety on city streets.

6. Once horse-drawn carriage operations, including the locations where carriages may wait and allow passengers to board, are moved within Central Park, it will be necessary to limit pedicab operation to areas of the Park north of the 85<sup>th</sup> Street Transverse in order to achieve an appropriate balance of park uses and interests in a heavily utilized area of the Park.

b. The Council finds that it is necessary and appropriate to reduce the number of licenses for horses used in the operation of horse-drawn carriages and the number of hours a horse-drawn carriage may operate during any 24-hour period, establish a stable within Central Park, limit the operation of horse-drawn carriages to Central Park, and prohibit the operation of pedicabs below the 85<sup>th</sup> Street Transverse in Central Park.

§ 2. Subdivisions d and e of section 17-327 of the administrative code of the city of New York, subdivision d as amended by local law number 22 for the year 2002, are amended and new subdivisions f, g, and h are added to read as follows:
