WHEREAS, the City Planning Commission filed with the Council on October 8, 2021 its decision dated October 6, 2021 (the "Decision") on the Application;

The impacts to historic and cultural resources would be mitigated to the maximum extent practicable through additional analyses, archaeological monitoring, or an alternative method developed in consultation with the New York State Historic Preservation Office (SHPO) and the New York City Landmarks Preservation Commission (LPC) and the Technical Memorandum dated April 23, 2021 (the "Technical Memorandum").

RESOLVED:

Having considered the FEIS and Technical Memorandum with respect to the Decision and Application, the Council finds that:

- (1) The FEIS meets the requirements of 6 N.Y.C.R.R. Part 617;
- (2) Consistent with social, economic, and other essential considerations, from among the reasonable alternatives thereto, the action is one which minimizes or avoids adverse environmental impacts to the maximum extent practicable; and

(3) The adverse environmental impacts disclosed in the FEIS will be minimized or avoided to the maximum extent practicable by incorporating as conditions to the approval those project components related to the environment and mitigation measures that were identified as practicable.

The Decision, together with the FEIS and Technical Memorandum constitute the written statement of facts, and of social, economic and other factors and standards that form the basis of this determination, pursuant to 6 N.Y.C.R.R. §617.11(d).

Pursuant to Section 197-d of the City Charter and on the basis of the Decision and Application, and based on the environmental determination and consideration described in the report, C 200321 PCK, incorporated by reference herein, and the record before the Council, the Council approves the Decision of the City Planning Commission, approving the application by the New York City Department of Sanitation and the Department of Citywide Administrative Services for the site selection of property located at 2 2nd Avenue (Block 977, Lot 3), Borough of Brooklyn, for use as a combined sewer overflow (CSO) control facility.
