3. “Hack-up” shall mean to outfit a vehicle as a taxicab and to obtain first-time approval from the commission for that vehicle to serve as a taxicab.
4. “Hybrid-electric taxicab” shall mean a commercially available mass-produced vehicle originally equipped by the manufacturer with a combustion engine system together with an electric propulsion system that operates in an integrated manner, which is approved by the commission for use as a taxicab.

a medallion) or the lessee of a medallion pursuant to a lease with a term of no less than five months.

b. Taxicabs that are double-shifted and are not driven by at least one long-term driver shall be retired from taxicab service and replaced no later than the scheduled inspection of the vehicle occurring:

(1) 60 months after the vehicle was hacked-up, for any hybrid-electric taxicab that has a city mileage published label value of 45 miles per gallon or greater and for any vehicle dedicated to operate on compressed natural gas no later than six months after hack-up and which remains so dedicated for the rest of its operation;

(2) 36 months after the vehicle was hacked-up, for any hybrid-electric taxicab that has a city mileage published label value of between 29 and 44 miles per gallon; and

(3) 18 months after the vehicle was hacked-up, for all other such vehicles.

c. Taxicabs that do not meet the specifications of subdivision b of this section shall be retired from taxicab service and replaced no later than the scheduled inspection of the vehicle occurring:

(1) 84 months after the vehicle was hacked-up, for any hybrid-electric taxicab that has a city mileage published label value of 45 miles per gallon or greater and for any vehicle dedicated to operate on compressed natural gas no later than six months after hack-up and which remains so dedicated for the rest of its operation;
